

CMMC-CCA덤프자료 & CMMC-CCA덤프문제 & CMMC-CCA시험자료

참고: KoreaDumps에서 Google Drive로 공유하는 무료 2026 Cyber AB CMMC-CCA 시험 문제집이 있습니다:
<https://drive.google.com/open?id=1u5uzulwA-7qgrfilhwZc2qLRc7s4hH-u>

KoreaDumps 에서 출시한 Cyber AB인증CMMC-CCA시험덤프는 100%시험통과율을 보장해드립니다. 엘리트한 IT 전문가들이 갖은 노력으로 연구제작한Cyber AB인증CMMC-CCA덤프는 PDF버전과 소프트웨어버전 두가지 버전으로 되어있습니다. 구매전 PDF버전무료샘플로KoreaDumps제품을 체험해보고 구매할수 있기에 신뢰하셔도 됩니다. 시험불합격시 불합격성적표로 덤프비용을 환불받을수 있기에 아무런 고민을 하지 않으셔도 괜찮습니다.

Cyber AB CMMC-CCA 시험요강:

주제	소개
주제 1	<ul style="list-style-type: none">Assessing CMMC Level 2 Practices: This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices.
주제 2	<ul style="list-style-type: none">CMMC Level 2 Assessment Scoping: This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries.
주제 3	<ul style="list-style-type: none">CMMC Assessment Process (CAP): This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations.

주제 4	<ul style="list-style-type: none"> • Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements: This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments.

CMMC-CCA퍼펙트 최신버전 문제, CMMC-CCA시험패스 가능한 공부자료

IT업계에 계속 종사하고 싶은 분이라면 자격증 취득은 필수입니다. Cyber AB CMMC-CCA시험은 인기 자격증을 필수 시험과목인데 Cyber AB CMMC-CCA시험부터 자격증취득에 도전해보지 않으실래요? Cyber AB CMMC-CCA덤프는 이 시험에 대비한 가장 적합한 자료로서 자격증을 제일 빠르게 간편하게 취득할수 있는 지름길입니다. 구매 전 덤프구매사이트에서 DEMO부터 다운받아 덤프의 일부분 문제를 체험해보세요.

최신 Cyber AB CMMC CMMC-CCA 무료샘플문제 (Q111-Q116):

질문 # 111

Dwayne is the Lead Assessor for a C3PAO Assessment Team conducting an assessment for an OSC. During the evaluation, he learns that the OSC recently won a lucrative contract with the Department of Defense, a significant milestone for the organization. Impressed by the OSC's accomplishment, Dwayne begins to view the organization more favorably and is inclined to interpret the evidence gathered during the assessment in a way that would enable the OSC to achieve the desired CMMC certification level. What is the primary reason Dwayne's assessment of the OSC may be influenced?

- A. Lack of experience
- **B. Bias**
- C. Incomplete understanding of the CMMC requirements
- D. Time constraints

정답: B

설명:

Comprehensive and Detailed in Depth Explanation:

Dwayne's favorable view of the OSC due to its recent DoD contract success exemplifies positive bias, a key concern in the CMMC Assessment Process (CAP). Bias influences how evidence is interpreted, potentially leading to overly favorable assessments that overlook noncompliances. The CAP requires assessors to evaluate practices objectively within the OSC's context, free from external factors like contract wins, to maintain assessment integrity.

Option A (incomplete understanding) assumes a knowledge gap not indicated here. Option B (time constraints) and Option C (lack of experience) are unrelated to Dwayne's described behavior. Option D (bias) directly addresses the influence of his positive perception, making it the correct answer per CAP guidelines.

Reference Extract:

* CMMC Assessment Process (CAP) v1.0, Section 2.3: "Personal biases, whether positive or negative, can shape evidence interpretation, leading to potential inaccuracies." Resources: <https://cyberab.org/Portals/0/Documents/Process-Documents/CMMC-Assessment-Process-CAP-v1.0.pdf>

질문 # 112

As a CCA, you are conducting an assessment of an OSC's implementation of AC.L2-3.1.7 - Privileged Functions. This requirement mandates that the organization prevent non-privileged users from executing privileged functions and capture the execution of such tasks in audit logs. During your assessment, you want to determine whether the OSC has properly defined privileged functions, as assessment objective [a] requires.

Which Assessment Objects would you most likely examine to make this determination?

- A. User acknowledgements of notification message or banner
- B. Interviews with System Developers
- **C. The organization's Privacy and Security policies and System Design documentation**

- D. System use notification messages

정답: C

설명:

Comprehensive and Detailed In-Depth Explanation:

AC.L2-3.1.7[a] requires defining privileged functions, per NIST SP 800-171A. The OSC's Privacy and Security policies outline what constitutes privileged functions, while System Design documentation specifies their implementation, making Option C the primary Assessment Objects. Option A (interviews) supports but isn't definitive. Options B and D (notifications) relate to user awareness, not definition. Option C aligns with NIST SP 800-171A's examine method, making it the correct answer.

Reference Extract:

* NIST SP 800-171A, AC-3.1.7[a]: "Examine security policies and system design documentation to determine if privileged functions are defined." Resources: <https://csrc.nist.gov/pubs/sp/800/171/a/final>

질문 # 113

A Defense Contractor is preparing for their upcoming CMMC Level 2 assessment. One of the key controls they need to address is CMMC practice MP.L2-3.8.5 - Media Accountability, which deals with maintaining accountability for media containing CUI during transport outside of controlled areas. The organization regularly needs to transport physical media, such as hard drives and backup tapes, between their primary data center and an off-site storage facility. In the past, they have simply used standard packaging and commercial shipping services to move this media. Which of the following best describes a control that maintains accountability for media containing CUI during transport outside of controlled areas?

- A. Training employees on information security best practices
- B. Implementing strong passwords for all user accounts
- C. Using tamper-proof packaging and a reputable shipping service with tracking
- D. Restricting access to the system where the CUI data resides

정답: C

설명:

Comprehensive and Detailed In-Depth Explanation:

MP.L2-3.8.5 requires "maintaining accountability for media containing CUI during transport," including tracking and preventing tampering. Tamper-proof packaging and tracked shipping (A) directly ensure media accountability by providing evidence of integrity and location-meeting the practice's intent. Passwords (B), training (C), and system access (D) are unrelated to transport accountability. The CMMC guide highlights tracking and tamper resistance as key controls.

Extract from Official CMMC Documentation:

* CMMC Assessment Guide Level 2 (v2.0), MP.L2-3.8.5: "Use tamper-proof packaging and tracking to maintain accountability during transport."

* NIST SP 800-171A, 3.8.5: "Examine transport methods for tracking and tamper evidence." Resources:

* https://dodcio.defense.gov/Portals/0/Documents/CMMC/AG_Level2_MasterV2.0_FINAL_202112016_508.pdf

질문 # 114

In ensuring it meets its mandates to protect CUI under CMMC, a contractor has implemented a robust, dynamic session lock with pattern-hiding displays to prevent access and viewing of data. After every 5 minutes of inactivity, the current session is locked and a blank, black screen with a battery life indicator is displayed. As a CCA, you will potentially use the following assessment methods to examine the contractor's implementation of session lock EXCEPT?

- A. Interview the system administrator
- B. Test the mechanisms implementing the access control policy for session lock
- C. Test the strength of the user's password
- D. Examine the system design documentation

정답: C

설명:

Comprehensive and Detailed In-Depth Explanation:

AC.L2-3.1.10 - Session Lock requires "initiating a session lock after inactivity." Interviewing admins (A), examining docs (B), and testing mechanisms (D) assess implementation. Password strength (C) relates to IA.

L2-3.5.7, not session lock, per the CMMC guide's focus on lock-specific methods.

Extract from Official CMMC Documentation:

* CMMC Assessment Guide Level 2 (v2.0), AC.L2-3.1.10: "Interview, examine docs, test lock mechanisms."

* NIST SP 800-171A, 3.1.10: "Exclude password strength from lock assessment." Resources:

* [https://dodcio.defense.gov/Portals/0/Documents/CMMC/AG_Level2_MasterV2.](https://dodcio.defense.gov/Portals/0/Documents/CMMC/AG_Level2_MasterV2.0_FINAL_202112016_508.pdf)

0_FINAL_202112016_508.pdf

질문 # 115

An OSC and a C3PAO Assessment Team are in the early stages of preparing for their CMMC assessment.

During the process of confirming the corporate identity for the assessment, the Assessment Team discovers that the OSC does not have a valid Commercial and Government Entity (CAGE) code issued by the Department of Defense. The team is now considering the implications of this finding and the next steps they should take. When confirming the corporate identity to be assessed, what can happen if you determine that the HQ organization doesn't have a valid CAGE code?

- A. You would request a waiver from the DoD.
- B. You would continue with the assessment as planned.
- C. You would help the OSC register and obtain a CAGE code from the DoD.
- D. The assessment cannot continue.

정답: D

설명:

Comprehensive and Detailed in Depth Explanation:

A valid CAGE code is mandatory for DoD contractors, and CAP requires it for assessment continuation.

Option A (helping register) is consulting, prohibited by CoPC. Option C (waiver) is not a CAP option. Option D (continuing) violates CAP. Option B is correct.

Extract from Official Document (CAP v1.0):

* Section 1.2 - Confirm Corporate Identity (pg. 11): "If the OSC does not have a valid CAGE code, the assessment cannot continue." References:

CMMC Assessment Process (CAP) v1.0, Section 1.2.
