Salesforce Certified Slack Administrator Sample Questions (Q169-Q174):

NEW QUESTION # 169

What are the main benefits of Workflow Builder? (Choose all that apply.)

- **A. Developers and engineers can easily automate efficiencies in their development.**
- B. It supports integration with various third-party apps for easy data transfer between services.
- **C. Templates are available for download.**
- D. Non-developers can easily automate business processes.

Answer: A,C

NEW QUESTION # 170

You're an Org Owner on your organization's Slack Enterprise Grid instance. An employee recently quit, and there's concern that the employee exported sensitive information prior to leaving. The security team wants to know what this former employee may have accessed.

What should you do? (Select the best answer.)

- A. Use the member analytics dashboard to confirm the former employee's account activity.
- B. Revoke the encryption key with the Enterprise Key Management (EKM) feature so that the data from the former employee's account is protected.
- **C. Access your security information and event management (SIEM) tool to view actions logged by the former employee.**
- D. Export the former employee's access logs from the admin dashboard.

Answer: C

Explanation:

Slack recommends for Enterprise Grid:

"Use your SIEM (Security Information and Event Management) tool integrated with Slack to review detailed logs of user activity and detect any suspicious behavior." The SIEM integration provides deeper, real-time, and historical access tracking, compared to basic admin dashboards or member analytics.

NEW QUESTION # 171

Your team is planning to upgrade from the Pro plan to the Business+ plan. The current implementation team, including admins, is working on drafting a vision for Slack to match the new season of working in Slack inspired by the upgrade. As an admin, you're most concerned with how this statement can support end users.

What is the strongest benefit a vision statement provides for end users?

- **A. A user will understand the purpose of using Slack for their work in a new shared way.**
- B. A user will be able to describe their permissions compared to admin permissions.
- C. A user will learn several Slack channels they should join.
- D. A user will know about newly released features.

Answer: A

NEW QUESTION # 172

You're planning a surprise milestone birthday party for your Team Leader virtually.

Currently, the planning committee consists of two direct team members, with plans to invite cross-functional friends.

What should you do to facilitate the conversation?

(Select the best answer.)

- A. Create a new public channel for planning the birthday party, and add the planning committee as well as the cross-functional friends.
- B. Create a group direct message (group DM) with the two members of your team since they are the only ones involved in the planning process.
- **C. Create a new private channel for planning the birthday party, and add the planning committee as well as the cross-functional friends.**
- D. Create a thread for planning in your existing team channel and @mention the team members on the planning committee.

Answer: C

Explanation:

Slack's best practices for private, sensitive, or surprise planning activities:

"Create a private channel when planning events that should remain confidential to a specific group of people." This protects the surprise. Public channels (A) expose planning. Group DMs (B) are limited (maximum of 8 people) and informal. A thread in a public space (C) is risky for surprises.

NEW QUESTION # 173

You're an Org Admin at a company that recently rolled out Enterprise Mobility Management (EMM) to its employees. It has been a few days since you activated EMM, and you start receiving reports that users are being signed out of Slack unexpectedly. What is the most likely cause of the sign out?

- A. EMM requires users to sign in every 72 hours to ensure compliance
- B. When activating EMM, you did not enable Keep users signed in
- **C. The members did not set up EMM within the 72 hour window.**
- D. The users need to update their device operating systems.

Answer: C
