NEW QUESTION # 57

SIMULATION

Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section.

This may take a few minutes, and the wait time will not be deducted from your overall test time.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g. copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.

Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. You may now click next to proceed to the lab.

Task 7

You need to acquire a dedicated Microsoft dial-in bridge number from either 431 or 343 area codes in Canada. To complete this task, sign in to the Microsoft 365 portal.

Answer:

Explanation:

Change the settings for an Audio Conferencing bridge using the Microsoft Teams admin center

When you are setting up Audio Conferencing in Microsoft 365 or Office 365, you will receive phone numbers for your users from what is called an audio conferencing bridge. A conferencing bridge can contain one or more phone numbers. These phone numbers are used when callers dial in to a meeting. The phone number is included at the bottom of the Teams meeting invite.

Step 1: In the Microsoft Teams admin center, in the left navigation, go to Meetings > Conference bridges.

Step 2: At the top of the Conference bridges page, click Bridge settings.

Step 3: In the Bridge settings pane, select Names or phone numbers When users dial in to a meeting, their phone number will be played when they join it.

 Step 4: Select Country Canada.

 Step 4: Select either the 431 or 343 area code.

Step 5: Click Save.
