

# Updated GICSP Demo & Exam GICSP Discount

With the rapid development of the world economy and frequent contacts between different countries, the talent competition is increasing day by day, and the employment pressure is also increasing day by day. Our company provides three different versions to choice for our customers. The software version of our GICSP exam question has a special function that this version can simulate test-taking conditions for customers. If you feel very nervous about exam, we think it is very necessary for you to use the software version of our GICSP Guide Torrent. The simulated tests are similar to recent actual exams in question types and degree of difficulty. By simulating actual test-taking conditions, we believe that you will relieve your nervousness before examination.

With our excellent GICSP exam questions, you can get the best chance to obtain the GICSP certification to improve yourself, for better you and the better future. With our GICSP training guide, you are acknowledged in your profession. The GICSP exam braindumps can prove your ability to let more big company to attention you. Then you have more choice to get a better job and going to suitable workplace. Why not have a try on our GICSP Exam Questions, you will be pleasantly surprised our GICSP exam questions are the best preparation material.

## Exam GICSP Discount & Latest GICSP Exam Registration

GICSP certification exam questions have very high quality services in addition to their high quality and efficiency. If you use GICSP test prep, you will have a very enjoyable experience while improving your ability. We have always advocated customer first. If you use our GICSP Learning Materials to achieve your goals, we will be honored. And our GICSP pdf files give you more efficient learning efficiency and allows you to achieve the best results in a limited time. Our GICSP pdf files are the best exam tool that you have to choose.

## GIAC Global Industrial Cyber Security Professional (GICSP) Sample Questions (Q91-Q96):

### NEW QUESTION # 91

What type of communication occurs between Level 0 and Level 1 in the Purdue Reference Architecture?

Response:

- **A. Command and control communication**
- B. External remote access
- C. Business-to-business communication
- D. Peer-to-peer communication

**Answer: A**

### NEW QUESTION # 92

Which of the following is an essential component of an intelligence-gathering strategy for ICS security?

Response:

- A. Increasing network bandwidth
- B. Restricting internet access for ICS operators
- C. Replacing legacy hardware with new systems
- **D. Continuous monitoring of ICS-specific threats**

**Answer: D**

#### NEW QUESTION # 93

Which of the following is a key benefit of developing a risk-based incident response plan for an ICS environment?

Response:

- A. It increases system availability in real-time
- **B. It focuses resources on the highest-risk areas to minimize impact**
- C. It ensures compliance with local government regulations
- D. It optimizes data storage capacity

**Answer: B**

#### NEW QUESTION # 94

Which type of attack specifically targets wireless networks by overwhelming them with excessive traffic, causing a loss of availability?

Response:

- **A. Denial-of-Service (DoS) attack**
- B. Cross-site scripting (XSS)
- C. Man-in-the-middle (MitM) attack
- D. Phishing

**Answer: A**

#### NEW QUESTION # 95

During a plant upgrade an architect needs to connect legacy IEDs to a new TCP/IP instrumentation LAN. The IEDs only have RS-232 communication interfaces available. What would best be used to connect the IEDs?

- A. Industrial switch
- **B. Communications Gateway**
- C. Data diode
- D. Engineering workstation

**Answer: B**

Explanation:

Legacy devices using RS-232 interfaces require a communications gateway (C) to translate between the serial communication protocol and the new TCP/IP network.

A data diode (A) is a unidirectional security device, not a protocol translator.

An engineering workstation (B) is a computer, not a protocol conversion device.

An industrial switch (D) operates at the Ethernet layer and does not perform protocol conversion.

GICSP emphasizes gateways as essential for integrating legacy ICS devices into modern IP networks while maintaining protocol integrity.
