## 220-1102 100%시험패스 덤프문제 & 220-1102공부자료

발달한 네트워크 시대에 인터넷에 검색하면 많은CompTIA인증 220-1102시험공부자료가 검색되어 어느 자료로 시  
험준비를 해야 할지 망서이게 됩니다. 이 글을 보는 순간 다른 공부자료는 잊고DumpTOP의CompTIA인증 220-1102  
시험준비 덤프를 주목하세요. 최강 IT전문가팀이 가장 최근의CompTIA인증 220-1102 실제시험 문제를 연구하여 만  
든CompTIA인증 220-1102덤프는 기출문제와 예상문제의 모음 공부자료입니다. DumpTOP의CompTIA인증 220-  
1102덤프만 공부하면 시험패스의 높은 산을 넘을수 있습니다.

CompTIA A+ 인증은 고용주들에게 매우 중요하며 IT 전문가의 기준으로 인정됩니다. 이는 IT에서 경력을 시작하는  
사람들뿐만 아니라 분야에서 기술과 지식을 향상시키려는 사람들에게 적합한 입문 수준의 인증입니다. CompTIA  
A+ 인증을 취득함으로써 후보자들은 최신 기술과 최상의 실천 방법에 대한 능력과 전문성을 증명할 수 있으며, 이  
는 더 나은 직업 기회, 높은 급여 및 경력 발전으로 이어질 수 있습니다.

## 최신 A+ 220-1102 무료샘플문제 (Q522-Q527):

질문 # 522

After clicking on a link in an email a Chief Financial Officer (CFO) received the following error:

The CFO then reported the incident to a technician. The link is purportedly to the organization's bank. Which of the following should the technician perform FIRST?

- A. Instruct the CFO to exit the browser
- **B. Update the browser's CRLs**
- C. File a trouble ticket with the bank.
- D. Contact the ISP to report the CFCs concern

**정답: B**

**설명:**

The technician should update the browser's CRLs first. The error message indicates that the certificate revocation list (CRL) is not up to date. Updating the CRLs will ensure that the browser can verify the authenticity of the bank's website.

**질문 # 523**

Which of the following is MOST likely used to run .vbs files on Windows devices?

- A. explorer.exe
- **B. cscript.exe**
- C. winmgmt.exe
- D. powershell.exe

**정답: B**

**설명:**

A .vbs file is a Virtual Basic script written in the VBScript scripting language. It contains code that can be executed within Windows via the Windows-based script host (Wscript.exe), to perform certain admin and processing functions. Cscript.exe is a command-line version of the Windows Script Host that provides command-line options for setting script properties. Therefore, cscript.exe is most likely used to run .vbs files on Windows devices. References: 1: <https://fileinfo.com/extension/vbs> : <https://docs.microsoft.com/en-us/windows-server/administration/windows-commands/cscript>

**질문 # 524**

A Chief Executive Officer has learned that an exploit has been identified on the web server software, and a patch is not available yet. Which of the following attacks MOST likely occurred?

- **A. Zero day**
- B. Brute force
- C. On-path

- D. Denial of service

정답: A

설명:

A zero-day attack is an attack that exploits a previously unknown vulnerability in a computer application, meaning that the attack occurs on "day zero" of awareness of the vulnerability Configuring AAA Services. Retrieved from [https://www.cisco.com/c/en/us/td/docs/routers/crs/software/crs\\_r4-0/security/configuration/guide/sc40crsbook\\_chapter1.html](https://www.cisco.com/c/en/us/td/docs/routers/crs/software/crs_r4-0/security/configuration/guide/sc40crsbook_chapter1.html)

질문 # 525

Which of the following would typically require the most computing resources from the host computer?

Chrome OS

- A. Windows
- B. Linux
- C. Android
- D. macOS

정답: C

설명:

Windows is the operating system that typically requires the most computing resources from the host computer, compared to the other options. Computing resources include hardware components such as CPU, RAM, disk space, graphics card, and network adapter. The minimum system requirements for an operating system indicate the minimum amount of computing resources needed to install and run the operating system on a computer. The higher the minimum system requirements, the more computing resources the operating system consumes.

According to the web search results, the minimum system requirements for Windows 10 and Windows 11 are as follows<sup>12</sup>:

CPU: 1 GHz or faster with two or more cores (Windows 10); 1 GHz or faster with two or more cores on a compatible 64-bit processor (Windows 11) RAM: 1 GB for 32-bit or 2 GB for 64-bit (Windows 10); 4 GB (Windows 11) Disk space: 16 GB for 32-bit or 32 GB for 64-bit (Windows 10); 64 GB (Windows 11) Graphics card: DirectX 9 or later with WDDM 1.0 driver (Windows 10); DirectX 12 compatible with WDDM 2.0 driver (Windows 11) Network adapter: Ethernet or Wi-Fi (Windows 10); Ethernet or Wi-Fi that supports 5 GHz (Windows 11) The minimum system requirements for macOS Ventura are as follows:  
CPU: Intel Core i3 or higher, or Apple M1 chip

RAM: 4 GB

Disk space: 35.5 GB

Graphics card: Metal-capable

Network adapter: Ethernet or Wi-Fi

The minimum system requirements for Chrome OS are as follows:

CPU: Intel Celeron or higher

RAM: 2 GB

Disk space: 16 GB

Graphics card: Integrated

Network adapter: Ethernet or Wi-Fi

The minimum system requirements for Android are as follows:

CPU: 1 GHz or higher

RAM: 512 MB

Disk space: 8 GB

Graphics card: OpenGL ES 2.0

Network adapter: Ethernet or Wi-Fi

The minimum system requirements for Linux vary depending on the distribution, but a common example is Ubuntu, which has the following minimum system requirements:

CPU: 2 GHz dual core processor or better

RAM: 4 GB

Disk space: 25 GB

Graphics card: 1024 x 768 screen resolution

Network adapter: Ethernet or Wi-Fi

Based on the comparison of the minimum system requirements, Windows has the highest requirements for CPU, RAM, disk space, and graphics card, while Chrome OS and Android have the lowest requirements. macOS and Linux have moderate requirements, depending on the hardware and software configuration. Therefore, Windows is the operating system that typically requires the most computing resources from the host computer.

### 질문 # 526

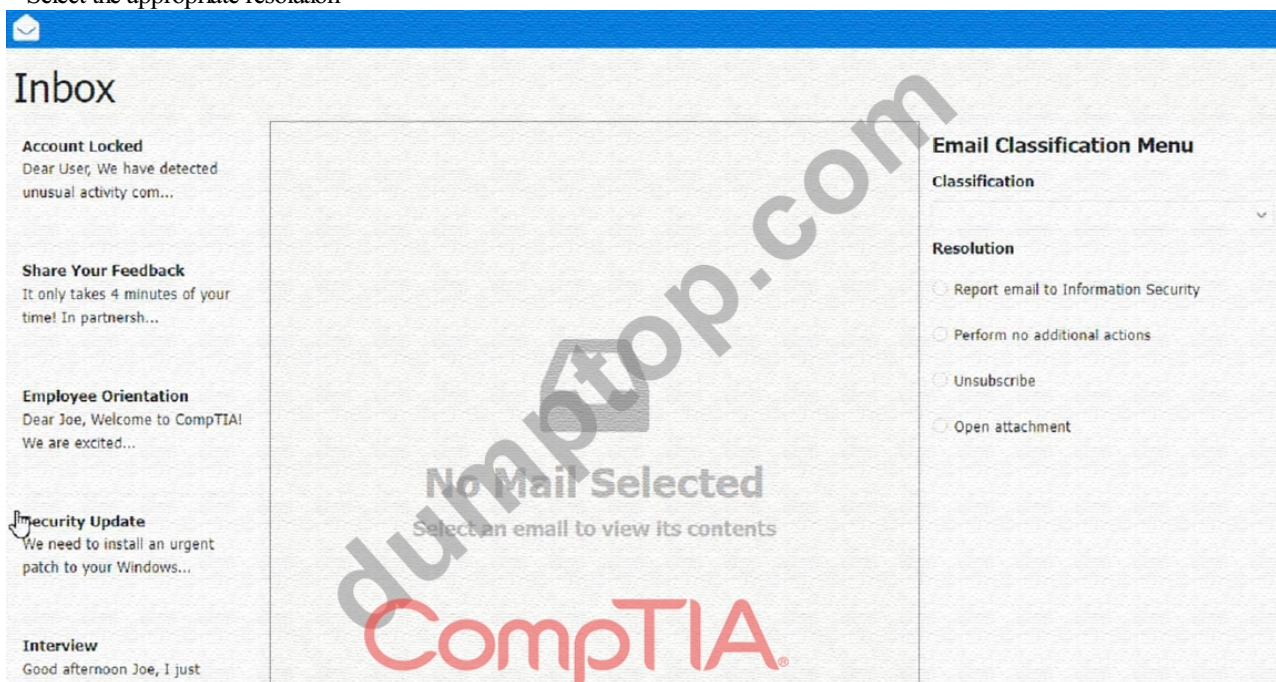

As a corporate technician, you are asked to evaluate several suspect email messages on a client's computer. Corporate policy requires the following:

- . All phishing attempts must be reported.
- . Future spam emails to users must be prevented.

#### INSTRUCTIONS

Review each email and perform the following within the email:

- \* Classify the emails
- \* Identify suspicious items, if applicable, in each email
- \* Select the appropriate resolution

정답 :

설명:

See the Full solution in Explanation below.

Explanation:

Classification: a) Phishing

This email is a phishing attempt, as it tries to trick the user into clicking on a malicious link that could compromise their account or personal information. Some suspicious items in this email are:

The email has a generic greeting and does not address the user by name.

The email has spelling errors, such as "unusal" and "Locaked".

The email uses a sense of urgency and fear to pressure the user into clicking on the link.

The email does not match the official format or domain of the IT Help Desk at CompTIA.

The email has two black bat icons, which are not related to CompTIA or IT support.

The appropriate resolution for this email is A. Report email to Information Security. The user should not click on the link, reply to the email, or provide any personal or account information. The user should forward the email to the Information Security team or use a professional email form to report the phishing attempt. The user should also delete the email from their inbox and trash folder.

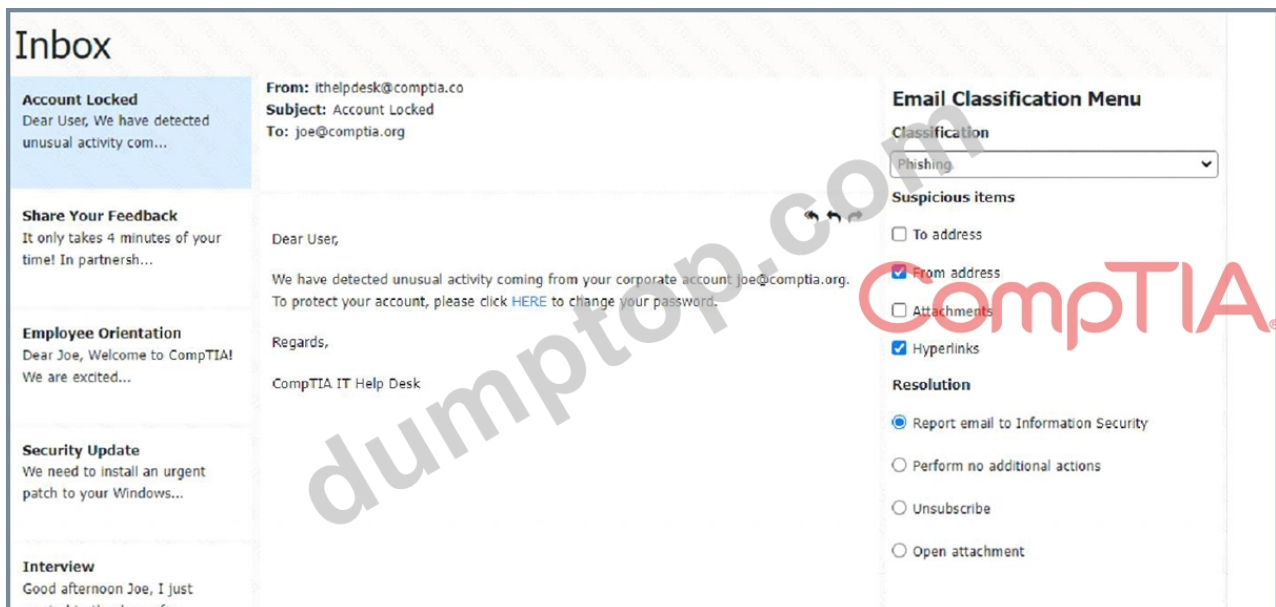

The suspicious items to select are:

b) From address

d) Hyperlinks

These items indicate that the email is not from a legitimate source and that the link is potentially malicious.

The other items are not suspicious in this case, as the to address is the user's own email and there are no attachments.

Classification: b) Spam

This email is a spam email, as it is an unsolicited and unwanted message that tries to persuade the user to participate in a survey and claim a reward. Some suspicious items in this email are:

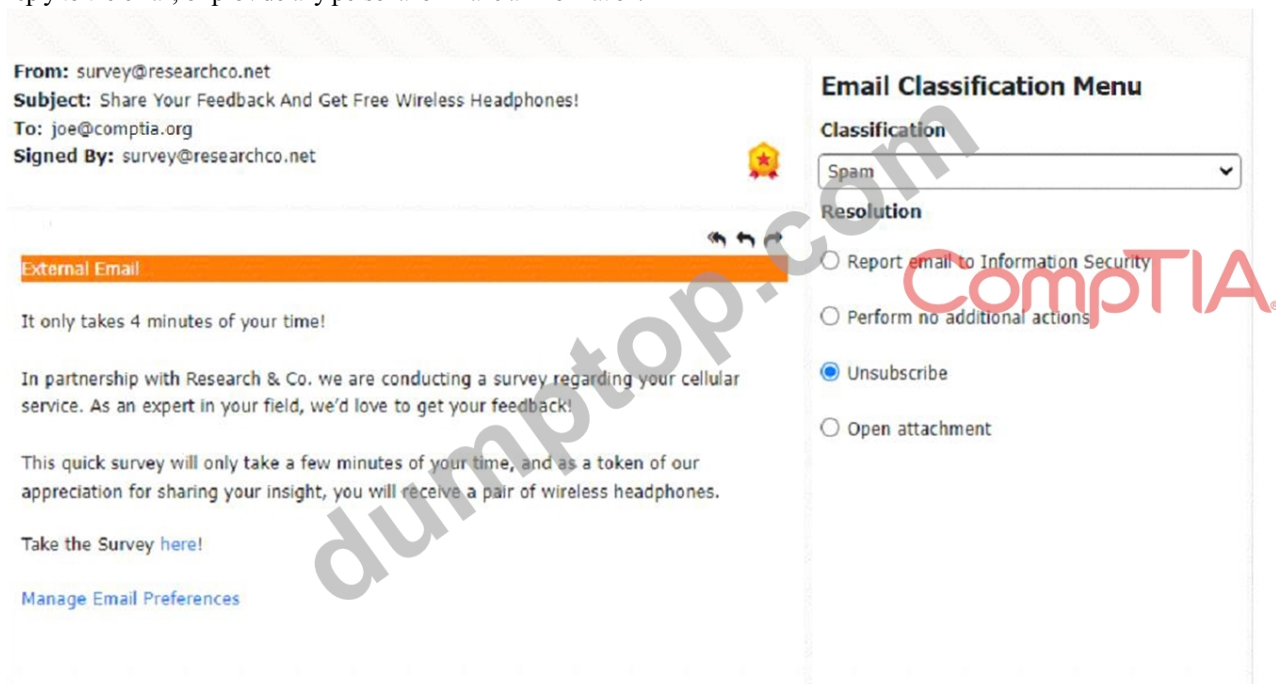

The email offers a free wireless headphone as an incentive, which is too good to be true.

The email does not provide any details about the survey company, such as its name, address, or contact information.

The email contains an external survey link, which may lead to a malicious or fraudulent website.

The email does not have an unsubscribe option, which is required by law for commercial emails.

The appropriate resolution for this email is C. Unsubscribe. The user should look for an unsubscribe link or button at the bottom of the email and follow the instructions to opt out of receiving future emails from the sender. The user should also mark the email as spam or junk in their email client, which will help filter out similar emails in the future. The user should not click on the survey link, reply to the email, or provide any personal or financial information.

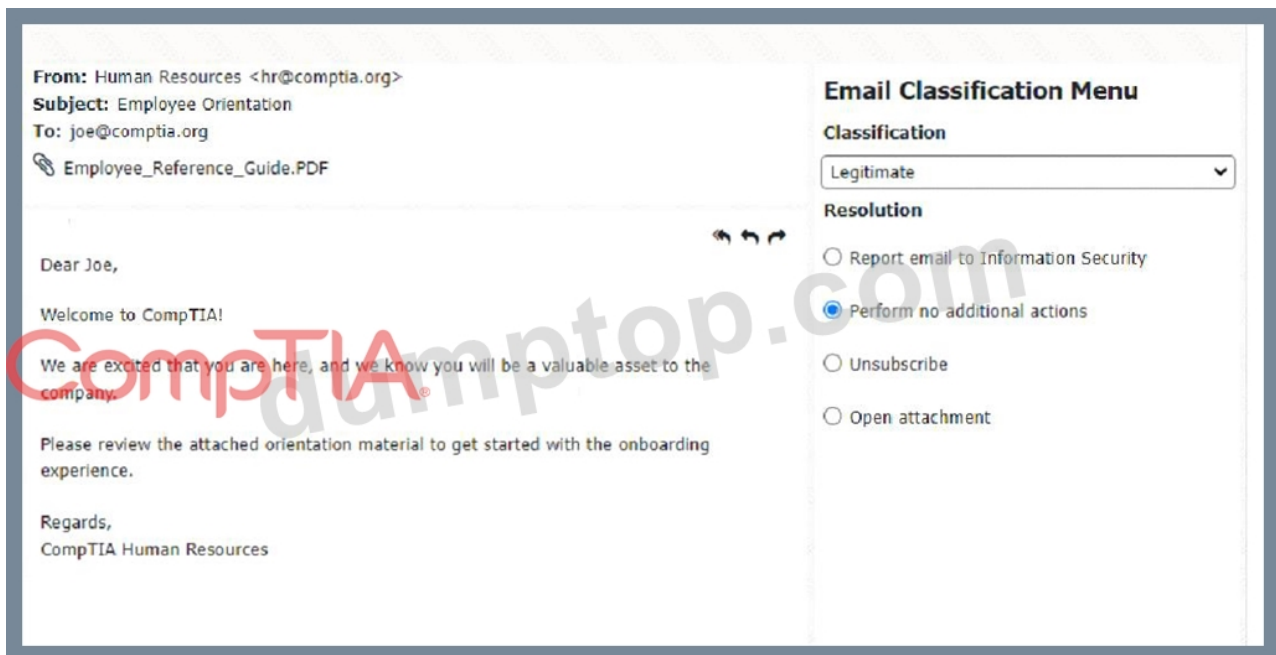

Classification: c) Legitimate

This email is a legitimate email, as it is from a trusted source and has a valid purpose. There are no suspicious items in this email, as the from address, the to address, the attachment, and the email body are all consistent and relevant. The appropriate resolution for this email is B. Perform no additional actions. The user can open the attachment and review the orientation material as instructed.

The user does not need to report, unsubscribe, or delete this email.

A screenshot of a computer Description automatically generated

Classification: a) Phishing

This email is a phishing attempt, as it tries to deceive the user into downloading and running a malicious attachment that could compromise their system or data. Some suspicious items in this email are:

The email has a generic greeting and does not address the user by name or username.

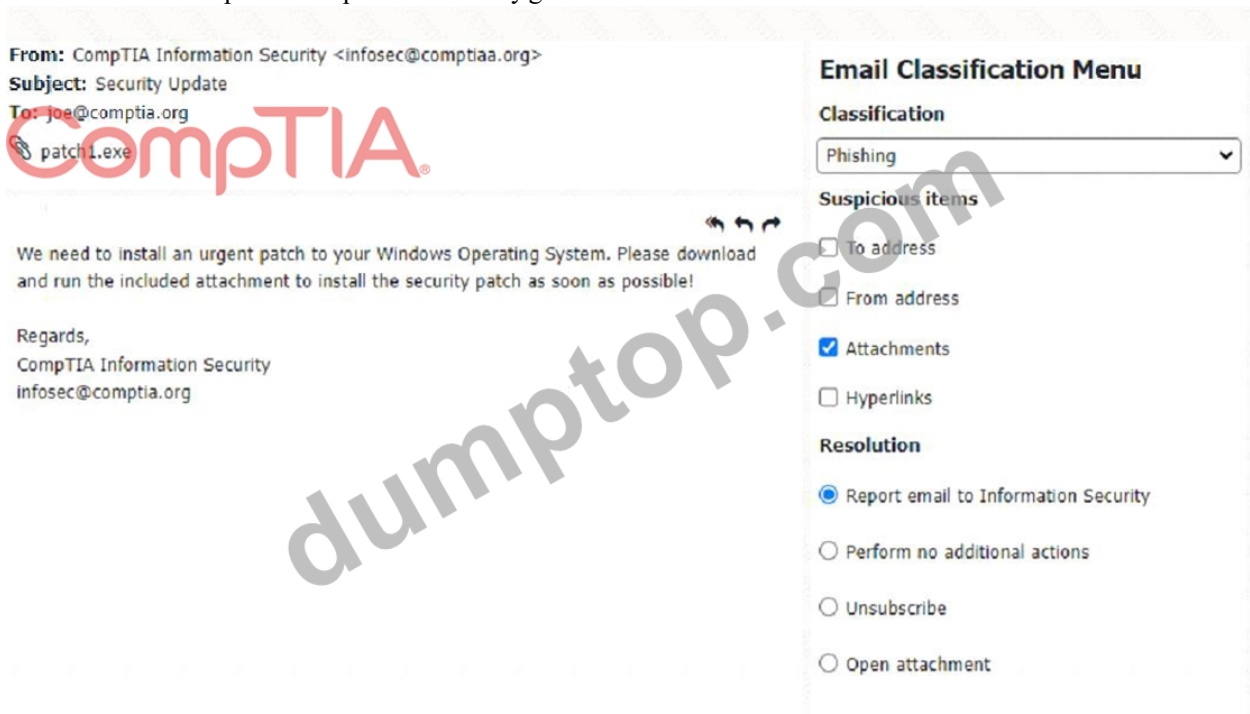

The email has an urgent tone and claims that a security patch needs to be installed immediately.

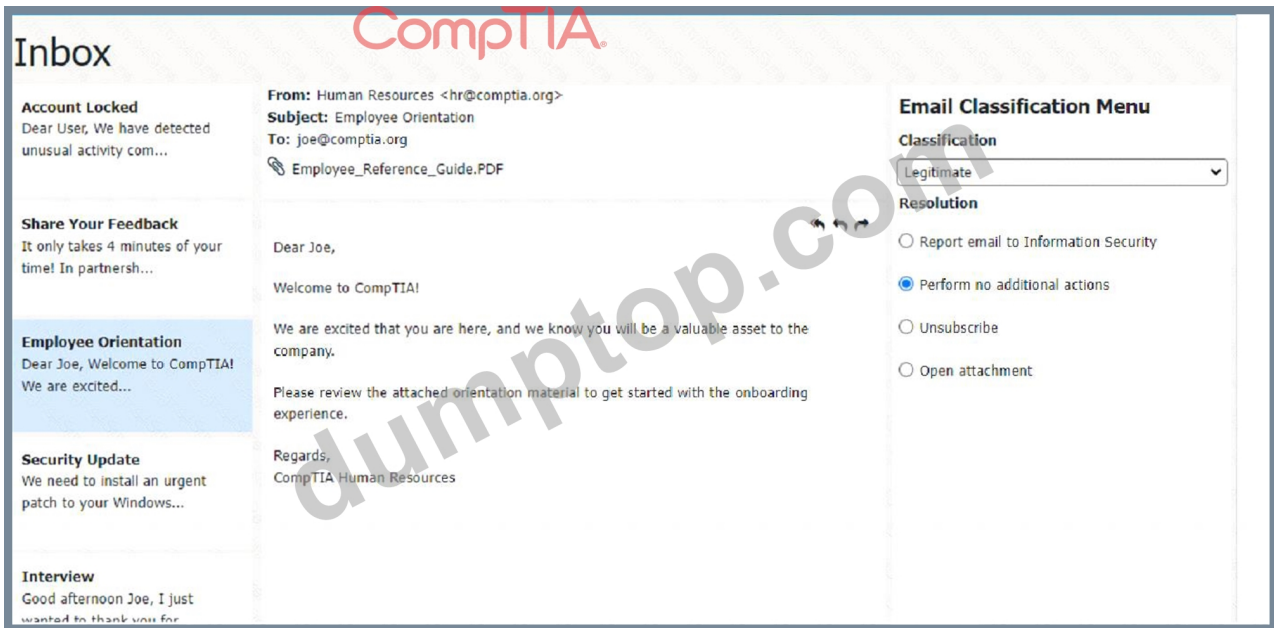

The email has an attachment named "patch1.exe", which is an executable file that could contain malware or ransomware.

The email does not match the official format or domain of CompTIA Information Security.

The appropriate resolution for this email is A. Report email to Information Security. The user should not open the attachment, reply to the email, or provide any personal or account information. The user should forward the email to the Information Security team or use a professional email form to report the phishing attempt. The user should also delete the email from their inbox and trash folder.

Classification: c) Legitimate

This email is a legitimate email, as it is from a trusted source and has a valid purpose. There are no suspicious items in this email, as the from address, the to address, and the email body are all consistent and relevant. The appropriate resolution for this email is B. Perform no additional actions. The user can reply to the email and thank the sender for the interview opportunity. The user does not need to report, unsubscribe, or delete this email.
