

# 시험패스가 가능한 NP-Con-101 퍼펙트 최신 버전 덤프 샘플 덤프 최신 자료

한Salesforce인증 MKT-101덤프를 발매하여 저렴한 가격에 제공해드립니다.시험패스 못할시 덤프비용은 환불처리 해드리기에 고객님께 아무런 피해 끼치지 않을것입니다.

Salesforce MKT-101은 Salesforce Marketing Cloud 플랫폼을 사용하여 고객 여정을 구축하고 분석하는 마케팅 전문가를 위한 자격증 시험입니다. 이 시험은 마케팅 자동화, 데이터 관리 및 분석에 대한 기술과 지식을 향상시키고자 하는 개인에게 이상적입니다. 이 자격증 시험은 Marketing Cloud 플랫폼을 사용하여 마케팅 캠페인을 구축, 실행 및 분석하는 능력을 시험하기 위해 설계되었습니다.

## 최신 Marketing Cloud Consultant MKT-101 무료샘플문제 (Q148-Q153):

### 질문 # 148

A marketer has been asked to collect corner information using Marketing Cloud for users obtained from social channels for future mailing.

What should the marketer do to accomplish this?

- A. Use an interactive form from email Studio to collect this information.
- B. Use Journey Builder to build an audience using Ad Studio.
- C. Web Studio to capture Query parameters from social media link.

정답C

### 질문 # 149

A customer has a robust Sales Cloud org with several custom objects. Historically, they have created complex reports, referencing many custom objects, to target subscribers and exported them to another email system for deployment. With the implementation of Marketing Cloud Connect, the customer wants to simplify the sending process using Marketing Cloud with as little additional setup as possible.

What should a consultant recommend to meet this criteria?

- A. Continue to build reports in Sales Cloud and import it to Marketing Cloud for sending.
- B. Create a Journey and use Salesforce Data and the Reports object as the Entry Source.
- C. Sync all custom objects to Marketing Cloud and recreate the reports for sending.
- D. Continue to build reports in Sales Cloud and select the reports in Marketing Cloud.

정답A

### 질문 # 150

A marketer at Northern Train Outfitters has been tasked with growing its email subscriber audience. Which three best practices should the marketer keep in mind while trying to acquire new email subscribers?

- A. Automatically Opt-in all new customers.
- B. Use explicit Opt-in for any new web Sign-ups.
- C. Ask for detailed demographic information
- D. Set Expectation on send frequency and scheduled
- E. The customers why they want to receive NTO emails

아직도Salesforce NP-Con-101 인증 시험을 어떻게 패스할지 고민하시고 계십니까? ExamPassdump는 여러분이

Salesforce NP-Con-101덤프자료로Salesforce NP-Con-101 인증시험에 응시하여 안전하게 자격증을 취득할 수 있도록 도와드립니다. Salesforce NP-Con-101 시험가이드를 사용해보지 않으실래요? ExamPasdump는 여러분께Salesforce NP-Con-101시험패스의 편리를 드릴 수 있다고 굳게 믿고 있습니다.

## 최신 Salesforce Consultant NP-Con-101 무료샘플문제 (Q90-Q95):

### 질문 # 90

A nonprofit is implementing Accounting Subledger and wants to know how the data from Salesforce would be transferred to its accounting system.

Which three methods are possible?

Choose 3 answers

- A. Schedule a Data Export from Salesforce.
- B. Configure Salesforce Connect to integrate with the accounting system.
- C. Integrate Salesforce with the accounting system using middleware.
- D. Develop a custom integration solution.
- E. Export data via Salesforce reports to upload to the accounting system.

정답: C,D,E

### 설명:

To transfer data from Salesforce to an accounting system using Accounting Subledger, nonprofits can use several methods. Here are three possible methods:

Integrate Salesforce with the Accounting System Using Middleware:

Middleware can act as a bridge between Salesforce and the accounting system, facilitating data transfer.

Tools like MuleSoft, Jitterbit, or Dell Boomi can be used to create integrations that sync data between Salesforce and the accounting system.

This method ensures real-time or near-real-time data synchronization, reducing manual data handling.

Export Data via Salesforce Reports to Upload to the Accounting System:

Salesforce allows the creation of detailed reports which can be exported in various formats (e.g., CSV, Excel).

These reports can be manually uploaded to the accounting system.

This method is suitable for organizations with fewer transactions or where real-time integration is not critical.

Develop a Custom Integration Solution:

For organizations with specific needs that are not met by standard middleware solutions, a custom integration can be developed.

This involves using Salesforce APIs (REST or SOAP) to programmatically extract data from Salesforce and load it into the accounting system.

Custom integrations provide flexibility but require more technical expertise and maintenance.

Salesforce Integration Patterns and Best Practices: Salesforce Integration Guide.

Salesforce Reporting and Exporting: Salesforce Reporting.

### 질문 # 91

A nonprofit customer wants to have the status for a Campaign Member on a fundraising campaign automatically update when a donation is received from that Contact.

What should the consultant recommend?

- A. Create a workflow rule that updates the Campaign Status when an Opportunity is created.
- B. Create an Apex Trigger to update the Contact's Campaign record.
- C. Enable Automatic Campaign Member Management in NPSP settings.
- D. Use Process Builder to update the Contact's campaign member record.

정답: C

### 설명:

To ensure that the status for a Campaign Member on a fundraising campaign is automatically updated when a donation is received from that Contact, the Automatic Campaign Member Management feature in NPSP can be used. Here's how to enable and configure it:

Navigate to NPSP Settings:

Go to Setup.

In the Quick Find box, type "NPSP Settings" and select it.

Enable Automatic Campaign Member Management:

In the NPSP Settings, navigate to "Donations".

Find the "Automatic Campaign Member Management" section.

Enable this feature by checking the corresponding box.

Configure the Settings:

Define the criteria for when and how Campaign Member statuses should be updated. For example, you can specify that the status should change to "Responded" when a donation is received.

Save Settings:

Save the changes to activate the automatic updates.

This setup ensures that Campaign Member statuses are updated automatically based on the criteria defined, reducing manual effort and improving accuracy.

### 질문 # 92

A nonprofit wants to use Volunteers for Salesforce for volunteer management. Which action should a consultant take before installing the package?

- A. Check that the nonprofit has the most recent NPSP release.
- B. Compare usage of roll-up summary fields to limits.
- C. Apply for license donation for Volunteers for Salesforce.
- D. Ensure the Program Management Module Is already Installed.

정답: A,B

설명:

Before installing the Volunteers for Salesforce package, a consultant should:

Check that the nonprofit has the most recent NPSP release:

Ensure that the organization is running the latest version of the Nonprofit Success Pack (NPSP). This is crucial because newer releases might contain important updates and fixes that can impact the installation and functionality of Volunteers for Salesforce.

Compare usage of roll-up summary fields to limits:

Volunteers for Salesforce might add additional roll-up summary fields, which can potentially exceed Salesforce limits. It's important to review the current usage of roll-up summary fields and compare them to Salesforce limits to avoid any issues during or after the installation.

### 질문 # 93

A nonprofit wants a report of all memberships that will expire in exactly 30 days.

How should a consultant filter a report on Membership End Date?

- A. Membership End Date is equal to or greater than NEXT 30 DAYS.
- B. Membership End Date equals NEXT 30 DAYS and does not equal NEXT 29 DAYS.
- C. Membership End Date is equal to NEXT 30 DAYS.
- D. Membership End Date is equal to or less than NEXT 30 DAYS.

정답: B

설명:

To create a report of all memberships that will expire in exactly 30 days, the consultant should filter the report on Membership End Date using the condition "Membership End Date equals NEXT 30 DAYS and does not equal NEXT 29 DAYS." This ensures that the report includes only those memberships expiring exactly on the 30th day, excluding those that expire earlier or later.

### 질문 # 94

A developer needs to create a custom Apex class in the TDTM framework. Which sets of steps should the developer take?

- A. Create the Lightning component, test class, and Trigger Handler record
- B. Create the Apex class, test class, and Trigger Handler record

- C. Create the Apex trigger, test class, and Trigger Handler record
- D. Create the Visualforce page, test class, and a Trigger Handler record

**정답: B**

**설명:**

To create a custom Apex class in the TDTM (Table Driven Trigger Management) framework, follow these steps:

Create the Apex Class:

In Salesforce, go to Setup.

Navigate to "Apex Classes" under "Custom Code".

Click "New" and create your custom Apex class.

Ensure the class implements the TDTM framework correctly.

Create the Test Class:

Create a corresponding test class to ensure your Apex class functions as expected.

This is essential for maintaining code coverage and passing Salesforce deployment requirements.

Create a Trigger Handler Record:

Go to the TDTM Trigger Handlers tab.

Create a new Trigger Handler record and link it to your custom Apex class.

Define the order of execution and the object the trigger applies to.

These steps ensure that your custom Apex class is correctly integrated into the TDTM framework, maintaining organized and manageable trigger logic.
