EXAMINATION SUMMARY REPORT

FCP - FortiGate 7.4 Administrator

Candidate Name:
Exam Series: FCP_FGT_AD-7.4
Examination Date: July 7, 2025
Grade: Pass

Congratulations on passing the FCP - FortiGate 7.4 Administrator exam!

Performance by Exam Section

Performance on each exam section is shown only for reference. The exam grade is based on the overall exam performance and not on the performance of individual exam sections. The main topics assessed on the exam are listed, with the proportion filled indicating the strength of each section. The chart is based on a 0% - 100% scale. If a bar is not displayed for an exam section, no questions were answered correctly for that topic.

New Fortinet FCP_FMG_AD-7.6 Exam Notes & Reliable FCP_FMG_AD-7.6 Exam Simulations

We committed to providing you with the best possible FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) practice test

material to succeed in the Fortinet FCP_FMG_AD-7.6 exam. With real FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) exam questions in PDF, customizable Fortinet FCP_FMG_AD-7.6 practice exams, free demos, and 24/7 support, you can be confident that you are getting the best possible FCP_FMG_AD-7.6 Exam Material for the test. Buy today and start your journey to FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) exam success with Real4Prep!

Fortinet FCP_FMG_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 2	• This section of the exam measures the skills of System Administrators and focuses on resolving problems at different levels of FortiManager. Candidates must troubleshoot deployment scenarios, imports, installations, and both device-level and ADOM-level issues, as well as identify and resolve system problems effectively.
Topic 3	• Policy and Objects: This section of the exam measures the skills of System Administrators and evaluates their ability to manage policies and objects within FortiManager. It involves ADOM revisions, workspace mode, and policy imports and installations, emphasizing consistent policy control across networks.
Topic 4	• Troubleshooting
Topic 6	• Advanced Configuration: This section of the exam measures the skills of Network Security Engineers and includes knowledge of high availability (HA), FortiGuard service configuration, and global database ADOM settings. These advanced functions help strengthen system reliability and streamline management at a larger scale.
Topic 7	• Administration: This section of the exam measures the skills of System Administrators and covers the essential features of FortiManager. It includes the initial configuration process and the setup of administrative domains (ADOMs), ensuring smooth system management.

Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q38-Q43):

NEW QUESTION # 38
Company policy dictates that any time a change is made to a policy package on FortiManager an ADOM revision is created before the change installed, and that revision is held for a minimum of 90 days.
Over the past three months, each installed change has resulted in several unused policies and duplicate objects.
The FortiManager administrator plans to upgrade the FortiGate devices and then upgrade the FortiManager ADOM from version 7.4 to 7.6.
Which action can the administrator take to avoid slow ADOM upgrades?

- A. Find unused firmware templates, then delete them before upgrading.
- B. Limit ADOM revisions before upgrading.
- C. Check and repair the global configuration database before upgrading.
- D. Export firewall policies to Excel, delete them on the ADOM. then reimport them after upgrading the ADOM.

Answer: B

Explanation:
Limiting ADOM revisions reduces the number of stored historical configurations, which helps avoid performance degradation and slow ADOM upgrades caused by a large volume of revisions.

NEW QUESTION # 39
An administrator configures a new BGP peer in the FortiManager device-level database of FortiGate. They reinstall the policy package to the managed FortiGate device without any errors.
However, when the administrator logs in to FortiGate, they do not see the BGP configuration changes. What is the most likely reason why FortiManager did not push the BGP peer changes to FortiGate?

- A. The FortiGate firmware version is different from the FortiManager ADOM version.
- B. The administrator must run a sanity check on FortiManager to make sure the database is not corrupted.
- C. Fortigate has a BGP template assigned on the FortiManager database.
- D. The administrator must use the Install Wizard and select Install device settings only to push BGP settings

Answer: D

Explanation:
If you change BGP in FortiManager and only reinstall the policy package, the change will NOT reach FortiGate because BGP is a device setting. You must install device settings.

NEW QUESTION # 40
What are two outcomes of ADOM revisions? (Choose two.)

- A. ADOM revisions can save the current state of all policy packages and objects for an ADOM.
- B. ADOM revisions can save the current state of the entire ADOM.
- C. ADOM revisions do not increase the size of configuration backups.
- D. ADOM revisions appear in the Install Policy & Package Settings section of the install wizard.

Answer: A,C

Explanation:
Note that an ADOM revision is a snapshot of the entire ADOM and not the changes specific to this policy package.
Warning: Keep in mind that ADOM revisions can significantly increase the size of the configuration backup.

NEW QUESTION # 41
An administrator configures a new BGP peer in the FortiManager device-level database of FortiGate. They reinstall the policy package to the managed FortiGate device without any errors. However, when the administrator logs in to FortiGate, they do not see the BGP configuration changes.
What is the most likely reason why FortiManager did not push the BGP peer changes to FortiGate?

- A. The administrator must use the Install Wizard and select Install device settings only to push BGP settings
- B. The FortiGate firmware version is different from the FortiManager ADOM version.
- C. The administrator must run a sanity check on FortiManager to make sure the database is not corrupted.
- D. Fortigate has a BGP template assigned on the FortiManager database.

Answer: D

Explanation:
If a BGP template is assigned to the FortiGate device on FortiManager, device-level BGP configurations made directly in the device-level database are overridden by the template settings, so the changes do not get pushed to the device.

NEW QUESTION # 42
Refer to the exhibits. An administrator runs the reload failure command diagnose test deploymanager reloadconf 262 on FortiManager.
Why does the administrator receive an error message?

```
Diagnose output

FortiManager # get system status
Platform Type            : FMG-VM64-KVM
Platform Full Name       : FortiManager-VM64-KVM
Version                  : v7.6.1-build3344 241023 (GA.M)
Serial Number            : FMG-VMTM24012945
BIOS version             : 04000002
```

```
Diagnose output

FortiManager # diagnose dvm device list
--- There are currently 5 devices/vdoms managed ---
--- There are currently 5 devices/vdoms count for license ---

TYPE             OID    SN              HA    IP            NAME           ADOM    IPS           FIRMWARE

fmgfaz-model     262    -                     HQ-NGFW        My_ADOM 7.0 MR6 (3401) N/A
                 |- STATUS: dev-db: unknown; conf: unknown; cond: unknown; dm: unknown; conn: unknown
                 |- vdom:[3]root flags:0 adom:My_ADOM pkg:[never-installed]

FortiManager # diagnose test deploymanager reloadconf 262
Retriving configuration file from FGT...
Error: Configuration file import error.
```

- A. FortiManager does not support FortiOS version 7.0.
- B. The administrator just recently added FortiGate HQ-NGFW as a model device.
- C. FortiManager requires the FortiGate serial number instead of the ID number.
- D. The administrator must use the FortiGate name instead of the ID number.

Answer: B

Explanation:
The error occurs because the FortiGate HQ-NGFW device with ID 262 is a newly added model device and has not yet been fully synchronized or installed with a configuration package, which causes the reload configuration command to fail.

NEW QUESTION # 43

......

If you are a college student, you can learn and use online resources through the student learning platform over the FCP_FMG_AD-7.6 study materials. On the other hand, the FCP_FMG_AD-7.6 study engine are for an office worker, free profession personnel have different learning arrangement, such extensive audience greatly improved the core competitiveness of our products, to provide users with better suited to their specific circumstances of high quality learning resources, according to their aptitude, on-demand, maximum play to the role of the FCP_FMG_AD-7.6 Exam Question.
