Cisco 300-835 Automating and Programming Cisco Collaboration Solutions exam is designed for IT professionals who want to demonstrate their skills in automating and programming Cisco Collaboration solutions using Cisco platforms such as Webex Teams, Unified Communications Manager, Unity Connection, and Contact Center Express. 300-835 exam tests the candidate's ability to create and deploy automation tools that can help improve the efficiency and productivity of the collaboration solutions.

Exam Topics

Cisco 300-835 evaluates the professionals' knowledge of programming notions, automation protocols & APIs, as well as

Python programming. All in all, the candidates have to prove their expertise in the topics that are enumerated below:

Network Programmability Foundation

In the framework of this domain that makes up 10% of the exam content, the learners have to demonstrate their skills in the following tasks:

- Utilizing the standard version control operations with git;
- Describing the difficulties found and patterns that are used when consuming APIs asynchronously or synchronously;
- Describing the features of the API techniques (SOAP, RPC, and REST);
- Interpreting the Python scripts that contain data classes, types, functions, looping, and conditions.
- Identifying the roles of firewall, reverse proxy, DNS, and load balancer in the collaboration app deployment;

Cisco Automating and Programming Cisco Collaboration Solutions Sample Questions (Q38-Q43):

NEW QUESTION # 38

What are two guiding principles of a REST API? (Choose two.)

- A. flat system
- B. responsive
- C. stateless
- D. client-server architecture
- E. variable interface

Answer: C,D

Explanation:

Each request from a client to the server must contain all the information needed to understand and process the request. The server does not store client context between requests.

REST enforces a separation of concerns between the client and server, improving portability and scalability.

NEW QUESTION # 39

Drag and drop the code snippets from the bottom onto the blanks in the code to create a Cisco Webex CreateMeeting API request.

Not all options are used.

Select and Place:

□

Answer:

Explanation:

□

NEW QUESTION # 40
