

# Juniper JN0-351 Exam Assessment - Reliable JN0-351 Exam Voucher

P.S. Free & New JN0-351 dumps are available on Google Drive shared by TrainingDump: [https://drive.google.com/open?id=1Bd6K9d12Ibdxis2SDjc4ShD6LWFWkm5\\_](https://drive.google.com/open?id=1Bd6K9d12Ibdxis2SDjc4ShD6LWFWkm5_)

As the most popular JN0-351 exam questions in the field, the passing rate of our JN0-351 learning questions has up to 98 to 100 percent. And our JN0-351 preparation materials have three versions to satisfy different taste and preference: PDF version, Soft version and APP version. The three versions of JN0-351 training prep have the same questions, only the displays are different. You can buy according to your interest. In addition, JN0-351 test engine is indispensable helps for your success.

According to different kinds of questionnaires based on study condition among different age groups, we have drawn a conclusion that the majority learners have the same problems to a large extent, that is low-efficiency, low-productivity, and lack of plan and periodicity. As a consequence of these problem, our JN0-351 test prep is totally designed for these study groups to improve their capability and efficiency when preparing for JN0-351 Exams, thus inspiring them obtain the targeted JN0-351 certificate successfully. There are many advantages of our JN0-351 question torrent that we are happy to introduce you and you can pass the exam for sure.

## Reliable JN0-351 Exam Voucher & Latest Real JN0-351 Exam

Our Juniper JN0-351 practice test software is the most distinguished source for the Juniper JN0-351 exam all over the world because it facilitates your practice in the practical form of the JN0-351 Certification Exam. Moreover, you do not need an active internet connection to utilize Enterprise Routing and Switching, Specialist (JNCIS-ENT) practice exam software.

### Juniper JN0-351 Exam Syllabus Topics:

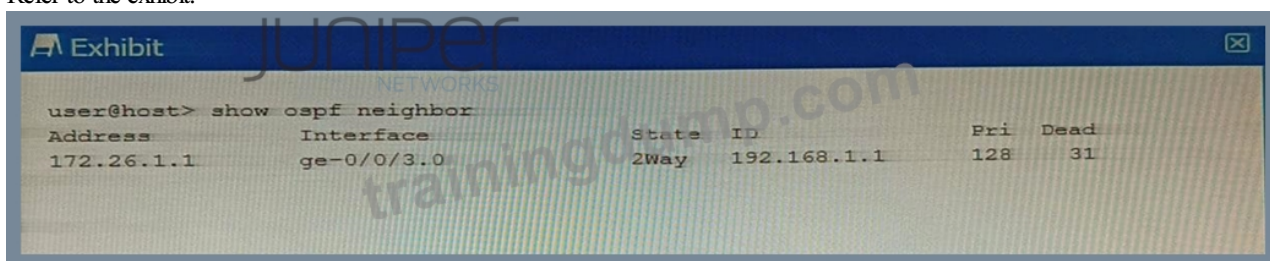

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Spanning Tree: Networking professionals explore the principles and advantages of the Spanning Tree Protocol (STP) to ensure loop-free topologies in Layer 2 networks.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>High Availability: This topic covers the importance and application of high availability within Junos OS environments. Knowledge in configuring and managing these components is critical for ensuring robust and uninterrupted network operations, aligning with exam expectations.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>• OSPF: The concepts and operational details of OSPF are explored, providing tools for routing efficiency. Configuration and troubleshooting mastery ensure readiness for both the exam and complex enterprise environments.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Layer 2 Switching or VLANs: This topic deepens the understanding of Layer 2 switching operations within the Junos OS, including VLAN concepts and benefits. Experienced networking professionals gain insights into configuration, monitoring, and troubleshooting techniques essential for network segmentation and efficiency.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Protocol Independent Routing: An essential domain for understanding routing components outside protocol dependencies, this topic enhances expertise in configuring, monitoring, and troubleshooting critical elements.</li> </ul>

## Juniper Enterprise Routing and Switching, Specialist (JNCIS-ENT) Sample Questions (Q103-Q108):

### NEW QUESTION # 103

Refer to the exhibit.

Referring to the output shown in the exhibit, which statement is correct?

- A. An MTU mismatch exists between the OSPF neighbors.
- B. The state is normal for a DR neighbor.
- C. An area ID mismatch exists between the OSPF neighbors
- **D. The state is normal for a DROther neighbor**

**Answer: D**

Explanation:

Explanation

In OSPF, the state of the neighbor relationship is determined by the exchange of OSPF packets between routers. The state "2Way" as shown in the exhibit indicates that bi-directional communication has been established between the two OSPF routers. This is the normal state for a neighbor that is not the Designated Router (DR) or Backup Designated Router (BDR) on a broadcast, non-broadcast multi-access (NBMA), or point-to-multipoint network. These neighbors are often referred to as "DROthers". Therefore, option B is correct.

### NEW QUESTION # 104

You deployed a new EX Series switch with DHCP snooping enabled and you do not see any entries in the snooping databases for an interface. Which two Juniper configurations for that interface caused this issue?

(Choose two.)

- **A. The interface is configured as a trunk port.**
- **B. The interface is configured as a disabled port.**
- C. MAC limiting is enabled on the interface.
- D. Dynamic ARP inspection is enabled on the interface.

**Answer: A,B**

Explanation:

A is correct because the interface is configured as a disabled port. A disabled port does not forward any traffic, including DHCP

packets. Therefore, DHCP snooping cannot learn any MAC addresses or lease information from a disabled port1. C is correct because the interface is configured as a trunk port. By default, all trunk ports on the switch are trusted for DHCP snooping2. This means that DHCP snooping does not inspect or filter any DHCP packets received on a trunk port. Therefore, DHCP snooping does not add any entries to the snooping database for a trunk port2.

#### NEW QUESTION # 105

You want to redistribute the static routes into BGP, but they do not show as BGP routes.

What causes this result to occur?

```
user@router> show route
inet.0: 13 destinations, 14 routes (13 active, 0 holddown, 0 hidden)
+ = Active Route, - = Last Active, * = Both
0.0.0.0/0          *[Static/5] 9w0d 02:07:24
                   > to 10.1.1.254 via xe-0/0/0.0
10.1.1.0/24        *[Direct/0] 9w0d 02:07:24
                   > via xe-0/0/0.0
10.16.0.0/24       *[Direct/0] 9w0d 02:07:24
                   > via xe-0/0/2.0
10.123.255.64/26  *[Static/5] 9w0d 02:07:24
                   > via xe-0/0/2.0
172.16.0.0/24     *[Direct/0] 9w0d 02:07:24
                   > via xe-0/0/3.0
...
```

- A. The no-readvertise feature is specified.
- **B. The static routes do not have a valid next hop.**
- C. The as-path parameter must be specified.
- D. A community string must be configured.

**Answer: B**

#### NEW QUESTION # 106

You are combining two existing interfaces into a single LAG interface, but you do not see the LAG interface being created. Which two actions are required to solve this problem? (Choose two.)

- **A. Ensure that the first LAG interface name is ae0.**
- B. Ensure that the first LAG interface name is ae1.
- C. Ensure that LAG is enabled on each member interface.
- **D. Ensure that LAG is enabled on the chassis.**

**Answer: A,D**

#### NEW QUESTION # 107

Referring to the exhibit, which two configuration changes must you apply for packets to reach from R1 to R3 using IS-IS? (Choose two.)

- A. On R3 enable Level 1 on the ge-0/0/4 interface
- B. On R1, enable Level 1 on the ge-0/0/1 interface.
- C. On R3 disable Level 2 on the ge-0/0/4 interface.
- D. On R1, disable Level 2 on the ge-0/0/1 interface.

**Answer: A,B**

Explanation:

A) On R1, enable Level 1 on the ge-0/0/1 interface. In IS-IS, both levels (Level 1 and Level 2) are enabled by default when you enable IS-IS on an interface. Level 1 systems route within an area.

If the destination is outside an area, Level 1 systems route toward a Level 2 system. Therefore, enabling Level 1 on the ge-0/0/1 interface on R1 would allow packets to reach from R1 to R3.

D) On R3 enable Level 1 on the ge-0/0/4 interface Similarly, enabling Level 1 on the ge-0/0/4 interface on R3 would allow packets to reach from R1 to R3. These explanations are based on the IS-IS configuration documents and learning resources available at Juniper Networks<sup>1</sup> and Cisco.

## NEW QUESTION # 108

.....

With the pass rate of more than 98%, our JN0-351 training materials have gained popularity in the market. We also pass guarantee and money back guarantee for you fail to pass the exam by using the JN0-351 exam dumps, or you can replace other 2 valid exam dumps, at the same time, you can also get the free update for JN0-351 Training Materials. In addition, we use the international recognition third party for payment, therefore your money safety is guaranteed. We support online payment with credit card.
