- A. Wire brushed
- B. Hydro blasted
- C. Grit blasted to SA 2
- D. The type of surface preparation depends on individual circumstances and could be any of the above

Answer: A

NEW QUESTION # 11

Discuss the role of API-510 in disaster recovery planning for facilities with pressure vessels.

Answer:

Explanation:

API-510 plays a vital role in disaster recovery planning for facilities with pressure vessels by providing guidelines on emergency inspection and assessment protocols that need to be followed after a disaster. This includes immediate assessment of potential damage to vessels, implementation of temporary safety measures, and detailed inspections to determine the impact on the structural integrity of the vessels. API-510 also advises on the documentation and reporting procedures that are crucial for effective recovery planning, helping facilities resume safe operations as quickly and safely as possible.
