BCS Foundation Certificate in Business Analysis V4.0 Sample Questions (Q48-Q53):

NEW QUESTION # 48

It is unclear to a project sponsor why a particular requirement has been included in a recently released version of a system. Which of the following will allow him to identify who originally asked for the requirement?

- **A. The source of the requirement.**
- B. The justification of the requirement.
- C. The validation of the requirement.
- D. The resolution of the requirement.

Answer: A

NEW QUESTION # 49

Which of the following is NOT one of the perspectives considered by the 'Balanced Business Scorecard'?

- **A. Competition.**
- B. Learning and Growth.
- C. Customer.
- D. Financial.

Answer: A

NEW QUESTION # 50

Which of the following only includes explicit corporate knowledge?

- A. Culture, norms, historical data.
- B. Job descriptions, tasks, targets.
- **C. Style guides, procedures, processes**
- D. Skills, values, communities of practice

Answer: C

NEW QUESTION # 51

In which section of a requirements document would technical requirements be recorded?

- A. Glossary of terms
- B. Function models
- **C. Requirements catalogue**
- D. Data model

Answer: C

Explanation:

The Requirements Catalogue (or the Requirements Specification section) is the comprehensive, organised list of all types of requirements. Technical Requirements are the non-functional constraints placed on the solution's design or build (e.g., specific hardware, operating system compatibility, integration protocols). While these inform other models, they are typically documented and tracked with other requirements (Functional and Non-functional) in the master Requirements Catalogue, often within the Non-functional or System Requirements section of the catalogue structure. Options A, B, and C are supporting documents or models, not the primary repository for a list of technical requirements.

(Reference: BCS Requirements Engineering - Requirements Catalogue Structure)

NEW QUESTION # 52

An analyst investigating a finance system wishes to build rapport with individual stakeholders and investigate in detail each stakeholder's views.

Which of the following techniques should the analyst use?

- A. Document analysis.
- B. Special purpose records.
- C. Questionnaires.
- **D. Interviewing.**

Answer: D

NEW QUESTION # 53

.....
