

Juniper JN0-481 Free Dumps & JN0-481 Testking

2026 Latest PDFDumps JN0-481 PDF Dumps and JN0-481 Exam Engine Free Share: https://drive.google.com/open?id=11_zVgeD9JsCvF16H-wQCd3hgvZ2sMRL

With our JN0-481 exam questions, you can pass the exam with 100% success guaranteed. More importantly, if you purchase our JN0-481 practice materials, we believe that your life will get better and better. So why still hesitate? Act now, join us, and buy our study materials. You will feel very happy that you will be about to change well because of our JN0-481 Study Guide. Now you can go to free download the demos to check the content and function. It is easy and convenient.

We know that tenet from the bottom of our heart, so all parts of service are made due to your interests. You are entitled to have full money back if you fail the exam even after getting our JN0-481 test prep. Our staff will help you with genial attitude. We esteem your variant choices so all these versions of JN0-481 Study Materials are made for your individual preference and inclination. Please get to know our JN0-481 study materials as follows.

Well-Prepared JN0-481 Free Dumps & Pass-Sure JN0-481 Testking & Reliable Juniper Data Center, Specialist (JNCIS-DC)

Do you want your IT capability to be most authoritatively recognized? One of the best method is to pass the JN0-481 certification exam. The JN0-481 exam software designed by our PDFDumps will help you master JN0-481 Exam skills. Besides, abundant materials, user-friendly design and one-year free update after payment are the best favor for you to pass JN0-481 exam.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q76-Q81):

NEW QUESTION # 76

Referring to the exhibit, how many rack types are used in the staged blueprint?

□

- A. six
- B. seven
- C. three
- **D. two**

Answer: D

Explanation:

Referring to the exhibit, the image shows the Racks table under the Staged menu in the Juniper Apstra UI. The Racks table displays the details of the racks that are used in the blueprint, such as the name, rack type, and date. The rack type is a resource that defines the type and number of leaf devices, access switches, and/or generic systems that are used in rack builds. The image shows seven racks in the table, but only two rack types: BorderLeaf and ServerRack.

NEW QUESTION # 77

When an agent installation is successful, devices are placed into which state using the Juniper Apstra UI?

- A. IS-ACTIVE
- B. OOS-READY
- C. OOS-QUARANTINED
- D. IS-MAINT

Answer: C

Explanation:

When an agent installation is successful, devices are placed into the Out of Service Quarantined (OOS-QUARANTINED) state using the Juniper Apstra UI. This state means that the device is not yet managed by Apstra and has not been assigned to any blueprint. The device configuration at this point is called Pristine Config. To make the device ready for use in a blueprint, you need to acknowledge the device, which changes its state to Out of Service Ready (OOS-READY).

NEW QUESTION # 78

Referring to the exhibit, what needs to change in the IP fabric to make it a valid IP fabric?

- A. The IP fabric connections must be increased to a speed greater than 10 Gbps.
- B. The IP fabric must consist of only one device model throughout the fabric.
- C. The connection between the two spine nodes must be increased to 40 Gbps.
- D. The connection between the two spine nodes must be removed.

Answer: D

Explanation:

To make the IP fabric a valid IP fabric, the connection between the two spine nodes must be removed. This is because an IP fabric is a network topology that uses a spine-leaf architecture, where the spine devices are only connected to the leaf devices, and the leaf devices are only connected to the spine devices. This creates a non-blocking, high-performance, and scalable network that supports Layer 3 routing protocols such as BGP or OSPF. The connection between the two spine nodes in the exhibit violates the spine-leaf design principle and introduces unnecessary complexity and potential loops in the network.

NEW QUESTION # 79

The 10.100.0.0/16 route is being advertised into your BGP IP fabric. ECMP load balancing has been properly enabled on all devices.

In this scenario, how many routes will the leaf device in AS 65000 receive for the 10.100.0.0/16 prefix?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:

The leaf device in AS 65000 will receive three routes for the 10.100.0.0/16 prefix, one from each spine device in AS 65001, AS 65002, and AS 65003. Since ECMP load balancing is enabled, the leaf device will install all three routes in its routing table and distribute the traffic among them.

NEW QUESTION # 80

Which attribute enables Juniper Apstra to scale and manage thousands of devices with a single server instance?

- A. Apstra is a distributed state system.
- B. Apstra is installed as a cloud resource.
- C. Apstra is based on NGINX.

- D. Apstra is available as an OVA.

Answer: A

Explanation:

The attribute that enables Juniper Apstra to scale and manage thousands of devices with a single server instance is that Apstra is a distributed state system. This means that Apstra uses a graph database to store the network topology and configuration data in a distributed and replicated manner across multiple server nodes. This allows Apstra to handle large-scale networks with high performance, reliability, and availability. Apstra also uses a stateful orchestration engine that ensures the network state is always consistent with the intent of the blueprint, which is the logical representation of the network design and behavior. Apstra can automatically detect and resolve any discrepancies between the desired and actual network state, as well as handle any changes or failures in the network.

NEW QUESTION # 81

.....

In the complicated and changeable information age, have you ever been tried hard to find the right training materials of JN0-481 exam certification? We feel delighted for you to find PDFDumps, and more delighted to find the reliable JN0-481 Exam Certification training materials. It will help you get your coveted JN0-481 exam certification.
