Professional ability is very important both for the students and for the in-service staff because it proves their practical ability in the area. Therefore choosing a certificate exam which boosts great values to attend is extremely important for them and the test 2V0-13.25 certification is one of them. Passing the test certification can prove your outstanding major ability in some area and if you want to pass the 2V0-13.25 test smoothly you'd better buy our 2V0-13.25 test guide. And our 2V0-13.25 exam questions boost the practice test software to test the clients' ability to answer the questions.

VMware 2V0-13.25 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> IT Architectures, Technologies, Standards: This section of the exam measures the skills of IT Architects and covers the ability to distinguish business requirements from technical ones. It expects candidates to understand the differences between conceptual, logical, and physical designs while also differentiating requirements, assumptions, constraints, and risks. Core concepts of availability, manageability, performance, recoverability, and security (AMPRS) are tested. Learners also need to document risk mitigation strategies, design decisions, and create a validation strategy that ties requirements to practical implementation.
Topic 2	<ul style="list-style-type: none"> VMware Products and Solutions: This section of the exam evaluates the knowledge of VMware Solution Specialists and focuses on VMware Cloud Foundation (VCF). Candidates must be able to identify and differentiate between various VCF architecture options in given scenarios. The emphasis is on understanding the key products and how they integrate into enterprise design choices.
Topic 3	<ul style="list-style-type: none"> Install, Configure, Administrate the VMware Solution: This section of the exam is relevant to System Administrators. Although it has no directly testable objectives, it underlines the expectation that candidates are familiar with installation, configuration, and administration tasks that form the foundation for VMware Cloud Foundation solutions.
Topic 4	<ul style="list-style-type: none"> Plan and Design the VMware Solution: This section measures the skills of Cloud Infrastructure Designers. It focuses on gathering and analyzing business requirements and then transforming them into conceptual, logical, and physical models of VMware Cloud Foundation. Candidates are expected to identify prerequisites and make design decisions across fleet topologies, networking, management domains, workload domains, automation, and operations. The section also includes designing for availability within and across zones, creating strategies for manageability such as lifecycle, scalability, and capacity, and ensuring performance and recoverability through BCDR strategies. Additional emphasis is given to designing secure environments, workload migration strategies, and creating consumption, automation, and monitoring strategies to support modern applications and governance.
Topic 5	<ul style="list-style-type: none"> Troubleshoot and Optimize the VMware Solution: This section of the exam measures the skills of Operations Engineers. There are no explicitly testable objectives provided in this domain, but candidates are expected to understand troubleshooting and optimization principles to maintain the VMware environment effectively in real-world deployments.

VMware 2V0-13.25 Latest Exam Questions - 2V0-13.25 Reguler Update

Our 2V0-13.25 study materials are easy to be mastered and boost varied functions. We compile Our 2V0-13.25 preparation questions elaborately and provide the wonderful service to you thus you can get a good learning and preparation for the 2V0-13.25 Exam. After you know the characteristics and functions of our 2V0-13.25 training materials in detail, you will definitely love our exam dumps and enjoy the wonderful study experience.

VMware Cloud Foundation 9.0 Architect Sample Questions (Q80-Q85):

NEW QUESTION # 80

As part of an initial stakeholder meeting, one of the stakeholders has stated the following:

* The initial design must be completed within the next 3 months so that hardware can be ordered within the current budget cycle.

How would the architect classify and record this statement?

- A. A constraint
- B. A risk
- C. A requirement
- D. An assumption

Answer: A

Explanation:

This is a constraint, as it defines a non-negotiable time limit imposed by the customer's budgeting timeline. It restricts the design phase's schedule and deliverables. In VMware conceptual modeling, timing constraints are explicitly captured as constraints rather than requirements or assumptions.
Reference: VMware Cloud Foundation Conceptual Design Guide - Project Timeline and Constraints

NEW QUESTION # 81

Which Broadcom solutions are critical when administering VMware resources across multiple data centers?

- A. Fibre Channel HBA
- B. vSAN
- C. Broadcom 25GbE Ethernet Adapter
- D. vSphere Distributed Switch (VDS)

Answer: B,C,D

Explanation:

Broadcom 25GbE Ethernet Adapters, vSphere Distributed Switch (VDS), and vSAN are critical for managing VMware resources across multiple data centers.

NEW QUESTION # 82

Which Broadcom solutions are required to support VMware's disaster recovery strategy?

- A. vSphere HA
- B. Broadcom 25GbE Ethernet Adapter
- C. vSAN
- D. Broadcom RAID Controller

Answer: A,C,D

Explanation:

vSphere HA, Broadcom RAID Controllers, and vSAN are essential for supporting VMware's disaster recovery strategy.

NEW QUESTION # 83

Which VMware Cloud Foundation components are essential for hybrid cloud integration?

- A. VMware HCX
- B. VMware vSAN
- C. VMware NSX
- D. VMware vSphere

Answer: A,D

Explanation:

VMware HCX and vSphere are essential for hybrid cloud integration in VMware Cloud Foundation.

NEW QUESTION # 84

The following requirements were identified in an architecture workshop for a virtual infrastructure design project.

REQ001: All virtual machines must satisfy the Recovery Point Objective (RPO) of fifteen (15) minutes or less in a disaster recovery (DR) situation
REQ002: Service level availability must satisfy 99.999% measured yearly.

Which two test cases will validate these requirements?

- A. Simulate or invoke an outage of the primary datacenter. All virtual machines must be restored within one (1) hour or less.
- B. Simulate or invoke an outage of the primary datacenter. All virtual machines must not lose more than one (1) hour of data prior to the outage.
- C. Simulate or invoke an outage of the primary datacenter. All virtual machines must not lose more than fifteen (15) minutes of data prior to the outage.

- **D. Simulate or invoke an outage of the primary datacenter. All virtual machines must be restored within fifteen (15) minutes or less.**

Answer: C,D

Explanation:

REQ001 specifies an RPO of 15 minutes or less, meaning the maximum data loss in a DR scenario is 15 minutes. REQ002 demands 99.999% availability, but test cases focus on DR validation, so RPO is primary here.

Option C directly tests RPO: if VMs lose no more than 15 minutes of data, the requirement is met, aligning with vSphere Replication or vSAN stretched clusters in VCF 5.2, which can achieve such RPOs.

Option A tests restoration within 15 minutes, which, while related to Recovery Time Objective (RTO), also implies minimal data loss if achieved, indirectly validating RPO in a failover context.

Option B (1 hour of data loss) exceeds the 15-minute RPO, failing REQ001.

Option D (1-hour restoration) tests RTO, not RPO, and isn't tied to data loss limits. VCF DR solutions emphasize these metrics, making A and C the precise validations.

Reference: VMware Cloud Foundation 5.2 Disaster Recovery Guide, Section on RPO and RTO Validation; VMware Site Recovery Manager 8.6 Documentation, Test Case Design.

NEW QUESTION # 85

.....

The 2V0-13.25 study materials from our company are compiled by a lot of excellent experts and professors in the field. In order to help all customers pass the exam in a short time, these excellent experts and professors tried their best to design the study version, which is very convenient for a lot of people who are preparing for the 2V0-13.25 Exam. You can find all the study materials about the exam by the study version from our company.
