最新的 ECIH Certification 212-89 免費考試真題 (Q180-Q185):

問題 #180
Jacob is an employee at a firm called Dolphin Investment. While he was on duty, he identified that his computer was facing some problems, and he wanted to convey the issue to the concerned authority in his organization. However, this organization currently does not have a ticketing system to address such types of issues. In the above scenario, which of the following ticketing systems can be employed by Dolphin Investment to allow Jacob to inform the concerned team about the incident?

- A. ManageEngine ServiceDesk Plus

- B. MISP
- C. ThreatConnect
- D. IBM XForco Exchange

答案：A

解題說明：
In the scenario where Dolphin Investment needs to implement a ticketing system for employees like Jacob to report IT-related issues, ManageEngine ServiceDesk Plus is the most suitable option among the choices provided. ManageEngine ServiceDesk Plus is a comprehensive IT help desk software that facilitates issue tracking, incident management, and efficient resolution of IT-related problems and requests. It enables users to submit tickets through various channels, including email, web portal, phone, or chat, and allows IT support teams to manage these tickets through a centralized platform. This system is designed to streamline the process of reporting, tracking, and resolving IT issues and incidents, making it an ideal solution for organizations looking to establish a formalized incident reporting and resolution process. Other options like IBM X-Force Exchange, ThreatConnect, and MISP focus more on threat intelligence sharing and security incident analysis rather than functioning as an IT help desk or ticketing system.References:Incident Handler (ECIH v3) courses and study guides often discuss the importance of having an effective incident reporting and management system in place, and ManageEngine ServiceDesk Plus is frequently cited as a practical solution for organizations seeking to implement such a system.

問題 #181
Computer Forensics is the branch of forensic science in which legal evidence is found in any computer or any digital media device. Of the following, who is responsible for examining the evidence acquired and separating the useful evidence?

- A. Evidence Manager
