

1Z0-1122-25 Study Guide: Oracle Cloud Infrastructure 2025 AI Foundations Associate & 1Z0-1122-25 Dumps Torrent & 1Z0-1122-25 Latest Dumps

BONUS!!! Download part of TestPassed 1Z0-1122-25 dumps for free: https://drive.google.com/open?id=1HR9#4MWv8_FQOw0SRuiJp47k2k3QY1r

As you all know that practicing with the wrong preparation material will waste your valuable money and many precious study hours. So you need to choose the most proper and verified preparation material with caution. Preparation material for the Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25) exam questions from TestPassed helps to break down the most difficult concepts into easy-to-understand examples. Also, you will find that all the included questions are based on the last and updated 1Z0-1122-25 exam dumps version.

Oracle 1Z0-1122-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Intro to ML Foundations: This section evaluates the knowledge of Machine Learning Engineers in understanding machine learning principles and methodologies. It explores the basics of supervised learning, focusing on regression and classification techniques, along with unsupervised learning methods such as clustering and anomaly detection. It also introduces reinforcement learning fundamentals, helping professionals grasp the different approaches used to train AI models.
Topic 2	<ul style="list-style-type: none">Intro to OCI AI Services: This section tests the expertise of AI Solutions Engineers in working with OCI AI services and related APIs. It provides insights into key AI services such as language processing, computer vision, document understanding, and speech recognition, allowing professionals to leverage Oracle's AI ecosystem for building intelligent applications.
Topic 3	<ul style="list-style-type: none">Intro to AI Foundations: This section of the exam measures the skills of AI Practitioners and Data Analysts in understanding the fundamentals of artificial intelligence. It covers key concepts, AI applications across industries, and the types of data used in AI models. It also explains the differences between artificial intelligence, machine learning, and deep learning, providing clarity on how these technologies interact and complement each other.
Topic 4	<ul style="list-style-type: none">Intro to DL Foundations: This section assesses the expertise of Deep Learning Engineers in understanding deep learning frameworks and architectures. It covers fundamental concepts of deep learning, introduces convolutional neural networks (CNN) for image processing, and explores sequence models like recurrent neural networks (RNN) and long short-term memory (LSTM) networks for handling sequential data.

Topic 5	<ul style="list-style-type: none"> • Intro to Generative AI & LLMs: This section tests the abilities of AI Developers to understand generative AI and large language models. It introduces the principles of generative AI, explains the fundamentals of large language models (LLMs), and discusses the core workings of transformers, prompt engineering, instruction tuning, and LLM fine-tuning for optimizing AI-generated content.
Topic 6	<ul style="list-style-type: none"> • Get started with OCI AI Portfolio: This section measures the proficiency of Cloud AI Specialists in exploring Oracle Cloud Infrastructure (OCI) AI services. It provides an overview of OCI AI and machine learning services, details AI infrastructure capabilities and explains responsible AI principles to ensure ethical and transparent AI development.

Oracle Cloud Infrastructure 2025 AI Foundations Associate Exam Questions save your study time and help you prepare in less duration. We have hundreds of most probable questions which have a chance to appear in the real Oracle Cloud Infrastructure 2025 AI Foundations Associate exam. The Oracle 1Z0-1122-25 exam questions are affordable and 365 days free updated, and you can use them without any guidance. However, in case of any trouble, our support team is always available to sort out the problems. We will provide you with the information covered in the current test and incorporate materials that originate from Oracle 1Z0-1122-25 Exam Dumps.

Oracle Cloud Infrastructure 2025 AI Foundations Associate Sample Questions (Q40-Q45):

NEW QUESTION # 40

Which feature is NOT available as part of OCI Speech capabilities?

- A. Uses extensive data science experience to operate
- B. Supports multiple languages including English, Spanish, and Portuguese
- C. Transcribes audio and video files into text
- D. Provides timestamped, grammatically accurate transcriptions

Answer: A

Explanation:

OCI Speech capabilities are designed to be user-friendly and do not require extensive data science experience to operate. The service provides features such as transcribing audio and video files into text, offering grammatically accurate transcriptions, supporting multiple languages, and providing timestamped outputs. These capabilities are built to be accessible to a broad range of users, making speech-to-text conversion seamless and straightforward without the need for deep technical expertise.

NEW QUESTION # 41

What is "in-context learning" in the realm of Large Language Models (LLMs)?

- A. Providing a few examples of a target task via the input prompt
- B. Training a model on a diverse range of tasks
- C. Modifying the behavior of a pretrained LLM permanently
- D. Teaching a model through zero-shot learning

Answer: A

Explanation:

"In-context learning" in the realm of Large Language Models (LLMs) refers to the ability of these models to learn and adapt to a specific task by being provided with a few examples of that task within the input prompt. This approach allows the model to understand the desired pattern or structure from the given examples and apply it to generate the correct outputs for new, similar inputs. In-context learning is powerful because it does not require retraining the model; instead, it uses the examples provided within the context of the interaction to guide its behavior.

NEW QUESTION # 42

Which capability is supported by the Oracle Cloud Infrastructure Vision service?

- A. Detecting vehicle number plates to issue speed citations
- B. Detecting and preventing fraud in financial transactions
- C. Generating realistic images from text
- D. Analyzing historical data for unusual patterns

Answer: A

Explanation:

The Oracle Cloud Infrastructure (OCI) Vision service is designed for image analysis tasks, which includes the capability to detect and recognize objects, such as vehicle number plates. This functionality is particularly useful for applications such as automated enforcement of traffic laws, where the system can identify vehicles exceeding speed limits and issue citations based on the detected number plates. This capability leverages advanced computer vision techniques to process and analyze visual data, making it suitable for applications in public safety, transportation, and law enforcement.

NEW QUESTION # 43

Which AI Ethics principle leads to the Responsible AI requirement of transparency?

- A. Prevention of harm
- B. Explicability
- C. Respect for human autonomy
- D. Fairness

Answer: B

Explanation:

Explicability is the AI Ethics principle that leads to the Responsible AI requirement of transparency. This principle emphasizes the importance of making AI systems understandable and interpretable to humans. Transparency is a key aspect of explicability, as it ensures that the decision-making processes of AI systems are clear and comprehensible, allowing users to understand how and why a particular decision or output was generated. This is critical for building trust in AI systems and ensuring that they are used responsibly and ethically.

NEW QUESTION # 44

What does "fine-tuning" refer to in the context of OCI Generative AI service?

- A. Upgrading the hardware of the AI clusters
- B. Doubling the neural network layers
- C. Adjusting the model parameters to improve accuracy
- D. Encrypting the data for security reasons

Answer: C

Explanation:

Fine-tuning in the context of the OCI Generative AI service refers to the process of adjusting the parameters of a pretrained model to better fit a specific task or dataset. This process involves further training the model on a smaller, task-specific dataset, allowing the model to refine its understanding and improve its performance on that specific task. Fine-tuning is essential for customizing the general capabilities of a pretrained model to meet the particular needs of a given application, resulting in more accurate and relevant outputs. It is distinct from other processes like encrypting data, upgrading hardware, or simply increasing the complexity of the model architecture.

NEW QUESTION # 45

.....

The TestPassed is one of the top-rated and leading platforms that offer real and exam trainers verified Oracle Cloud Infrastructure 2025 AI Foundations Associate 1Z0-1122-25 practice test questions. These Oracle Cloud Infrastructure 2025 AI Foundations Associate 1Z0-1122-25 exam questions are designed after deep research and verified by qualified Oracle 1Z0-1122-25 exam preparation experts. So rest assured that you will get the top-notch TestPassed 1Z0-1122-25 exam questions. These TestPassed 1Z0-1122-25 exam questions are the ideal Oracle Cloud Infrastructure 2025 AI Foundations Associate 1Z0-1122-25 exam preparation material that will prepare you to perform well for the final Oracle Cloud Infrastructure 2025 AI Foundations Associate 1Z0-1122-25 Certification Exam. So rest assured that with the TestPassed 1Z0-1122-25 exam questions you will get everything that is necessary for 1Z0-1122-25 exam preparation and success. Take a decision right now and just get registered in Oracle 1Z0-1122-25 certification exam and start preparation with TestPassed 1Z0-1122-25 exam questions. The TestPassed is committed since the beginning to offer the top-notch Oracle Cloud Infrastructure 2025 AI Foundations Associate 1Z0-1122-25 exam questions to Oracle Cloud Infrastructure 2025 AI Foundations Associate 1Z0-1122-25 exam candidates.
