- A. demonstrates commitment to the team.
- **B. may evolve through the learn and adapt cycle.**
- C. is required to complete release planning.
- D. requires the delivery team to align goals to support the product vision.

Answer: B

Explanation:

Iteration planning may evolve through the learn and adapt cycle, allowing the team to refine plans based on new insights, feedback, and changing priorities to improve delivery effectiveness.

NEW QUESTION # 49

Which technique is used to analyze customers' perspective on the product experience across all touchpoints?

- A. Personas
- B. Focus groups
- C. Customer journey maps
- D. Interviews

Answer: C

Explanation:

Customer journey maps analyze the customer's perspective on the product experience across all touchpoints, highlighting pain points, opportunities, and moments of delight to improve overall satisfaction.

NEW QUESTION # 50

One activity that helps the product ownership analysis (POA) practitioner target customers is:

- A. passive customer work shadowing.
- B. organizing customer information.
- C. the creation of customer stories.
- D. modelling customer behaviour.

Answer: D

Explanation:

Modeling customer behavior helps the POA practitioner understand patterns, preferences, and needs, enabling targeted approaches that ensure the product addresses the right customer segments effectively.

NEW QUESTION # 51

- A. Deliver as many things that were originally planned as possible
- B. Assess every change from a cost perspective
- C. Refuse all changes once the backlog is complete
- D. Anticipate and accept changes

Answer: D

Explanation:

A POA practitioner helps optimize the product development process by anticipating and accepting changes, enabling the team to adapt quickly to evolving needs while maintaining focus on delivering value.

NEW QUESTION # 52

If there are similar questions about performance and security with the ready state product backlog items (PBIs), the product ownership analysis (POA) practitioner can utilize this information to:

- A. conduct extra sessions with the iteration manager to elaborate on the root cause.
- B. keep monitoring the items as the average age of stories has not been crossed by these PBIs yet.
- C. inform the delivery team and customers about these PBIs.
- D. refine performance and security related requirements so that the acceptance criteria can be modified accordingly.

Answer: D

Explanation:

When similar performance and security issues appear in ready state PBIs, the POA practitioner should refine related requirements so acceptance criteria are updated accordingly. This ensures the PBIs address the concerns before development, improving clarity and alignment with quality standards.
