When preparing to take the Microsoft AZ-305 exam dumps, knowing where to start can be a little frustrating, but with Prep4SureReview Microsoft AZ-305 practice questions, you will feel fully prepared. Using our Microsoft AZ-305 practice test software, you can prepare for the increased difficulty on Microsoft AZ-305 Exam day. Plus, we have various question types and difficulty levels so that you can tailor your Designing Microsoft Azure Infrastructure Solutions exam dumps preparation to your requirements.

In order to meet all demands of all customers, our company has employed a lot of excellent experts and professors in the field to design and compile the AZ-305 test dump with a high quality. It has been a generally accepted fact that the AZ-305 exam reference guide from our company are more useful and helpful for all people who want to pass exam and gain the related exam. We believe this resulted from our constant practice, hard work and our strong team spirit. With the high class operation system, the AZ-305 study question from our company has won the common recognition from a lot of international customers for us. If you decide to buy our AZ-305 test dump, we can assure you that you will pass exam in the near future.

AZ-305 Questions Answers - AZ-305 Reliable Exam Voucher

For some difficult points of the AZ-305 exam questions which you may feel hard to understand or easy to confuse for too similar with the others. In order to help you memorize the AZ-305 guide materials better, we have detailed explanations of the difficult questions such as illustration, charts and referring website. Every year some knowledge of the AZ-305 Practice Brandumps is reoccurring over and over. You must ensure that you master them completely.

Exam Details

In brief, the Microsoft AZ-305 Exam is designed to assess your ability to monitor solutions, design identity, and governance, create data storage solutions, business continuity, and infrastructure solutions. It will include from 40 to 60 questions of different types, and will last either 100 or 120 minutes (depends on the inclusion of labs). If it includes labs, then its duration will be longer. To pass the exam you should score at least 700 points out of 1000. And of course, you need to pay an exam fee, which is now \$165.

Microsoft Designing Microsoft Azure Infrastructure Solutions Sample Questions (Q158-Q163):

NEW QUESTION # 158

You plan to create an Azure Storage account that will host file shares. The shares will be accessed from on-premises applications that are transaction-intensive.

You need to recommend a solution to minimize latency when accessing the file shares. The solution must provide the highest-level of resiliency for the selected storage tier.

What should you include in the recommendation? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: Premium

Premium: Premium file shares are backed by solid-state drives (SSDs) and provide consistent high performance and low latency, within single-digit milliseconds for most IO operations, for IO-intensive workloads.

Box 2: Zone-redundant storage (ZRS):

Premium Azure file shares only support LRS and ZRS.

Zone-redundant storage (ZRS): With ZRS, three copies of each file stored, however these copies are physically isolated in three distinct storage clusters in different Azure availability zones.

Reference:

<https://docs.microsoft.com/en-us/azure/storage/files/storage-files-planning>

NEW QUESTION # 159

You are developing a multi-tier app named App1 that will be hosted on Azure virtual machines. The peak utilization periods for App1 will be from 8 AM to 9 AM and 4 PM to 5 PM on weekdays.

You need to deploy the infrastructure for App1. The solution must meet the following requirements:

- * Support virtual machines deployed to four availability zones across two Azure regions.

- * Minimize costs by accumulating CPU credits during periods of low utilization.

What is the minimum number of virtual networks you should deploy, and which virtual machine size should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 160

You have a Microsoft Entra tenant named contoso.com that contains multiple enterprise apps.

Your company has a business partner that has a Microsoft Entra tenant named fabrikam.com.

You need to recommend an identity governance solution that will provide users in fabrikam.com with access to the enterprise apps in contoso.com. The solution must meet the following requirements:

- * Ensure that administrators in fabrikam.com can provide the fabrikam.com users with access to the contoso.com enterprise apps.

- * Automatically provision identities for the fabrikam.com users to enable access to the contoso.com enterprise apps.

- * Provide policy-based management of access assignments, approvals, and expirations.

- * Minimize administrative effort.

What should you include in the recommendation? To answer, select the appropriate options in the answer area.

NOTE: Each correct collection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 161

You plan to deploy an application named App1 that will run on five Azure virtual machines. Additional virtual machines will be deployed later to run App1.

You need to recommend a solution to meet the following requirements for the virtual machines that will run App1:

Ensure that the virtual machines can authenticate to Azure Active Directory (Azure AD) to gain access to an Azure key vault, Azure Logic Apps instances, and an Azure SQL database.

Avoid assigning new roles and permissions for Azure services when you deploy additional virtual machines.

Avoid storing secrets and certificates on the virtual machines.

Which type of identity should you include in the recommendation?

- A. a user-assigned managed identity
- B. a service principal that is configured to use a certificate
- C. a system-assigned managed identity
- D. a service principal that is configured to use a client secret

Answer: A

Explanation:

Managed identities for Azure resources is a feature of Azure Active Directory.

User-assigned managed identity can be shared. The same user-assigned managed identity can be associated with more than one Azure resource.

Incorrect Answers:

B: System-assigned managed identity cannot be shared. It can only be associated with a single Azure resource.

<https://docs.microsoft.com/en-us/azure/active-directory/managed-identities-azure-resources/overview>

NEW QUESTION # 162

You have an Azure subscription that contains 100 virtual machines in the North Europe Azure region.

You replicate the virtual machines to the West Europe region by using Azure Site Recovery.

You plan to perform disaster recovery testing once a month. The testing will be performed during an eight-hour period, during which the virtual machines will be accessed, and their functionality validated. The virtual machines will be shut down when testing is not being performed.

You need to estimate the costs of the Site Recovery solution per month. Which costs should the estimate include?

- A. the virtual machine compute costs for only eight hours, the virtual machine storage costs for only eight hours, and the Site Recovery license costs per protected virtual machine for the entire month
- B. the virtual machine compute costs for only eight hours, the virtual machine storage costs for only eight hours, and the Site Recovery license costs per protected virtual machine for only eight hours
- C. the virtual machine compute costs for the entire month, the virtual machine storage costs for all the hours each month, and the Site Recovery license costs per protected virtual machine for the entire month
- D. the virtual machine compute costs for only eight hours, the virtual machine storage costs for the entire month, and the Site Recovery license costs per protected virtual machine for the entire month

Answer: D

NEW QUESTION # 163

.....

Our website of the AZ-305 study guide only supports credit card payment, but do not support card debit card, etc. Pay attention here that if the money amount of buying our AZ-305 study materials is not consistent with what you saw before, you need to see whether you purchased extra copies of the product or were taxed. As our AZ-305 Guide materials are sold all around the world, you can find that the content and language is easy to understand.
