NEW QUESTION # 11

A company is kicking off a large multi-year transformation program. In a presentation to the company's project manager, an architect is describing the importance of considering long-term objectives, adopting a product mindset, and building a reusable platform with foundational capabilities.

The project manager quickly responds that while that approach sounds great, it is a major culture shift and they have only been asked to deliver this first project and do not have budget for such things.

How should the architect respond to this challenge?

- A. Disagree that this is a major culture shift for the organization and escalate to the program manager
- B. Accept that it is a culture shift, but highlight that it is one of the core principles of Catalyst which is proven to deliver the right results and therefore must be adopted
- C. Accept that this is a step too far for the organization and focus on the successful delivery of the first project and revisit at a later stage
- D. Highlight that the upfront effort of delivering a reusable platform with foundational capabilities while developing this project can be low and will bring significant benefit and savings to the overall transformation program

Answer: D
