Are you aware of the importance of the GB0-713 certification? If your answer is not, you may place yourself at the risk of being eliminated by the labor market. Because more and more companies start to pay high attention to the ability of their workers, and the GB0-713 certification is the main reflection of your ability. If you want to maintain your job or get a better job for making a living for your family, it is urgent for you to try your best to get the GB0-713 Certification. We are glad to help you get the certification with our best GB0-713 study materials successfully.

H3C Deploy and Manage the H3C CAS virtualization platform V3.0 Sample Questions (Q18-Q23):

NEW QUESTION # 18

There are 4 900G SAS hard disks. In the storage system, the raid10 strategy is adopted. The maximum volume capacity that these 4 hard disks can form is

- A. 1800G
- B. 2700G
- C. 3600G
- D. 900G

Answer: A

NEW QUESTION # 19

Servers are classified into the following categories according to their processor architecture:

- A. X86 server
- B. I A-64 Server
- C. RISC architecture server
- D. Blade Server

Answer: A,B,C

NEW QUESTION # 20

Which of the following statements about virtual machine templates is correct?

- A. The virtual machine template is saved in the "/vms/templet" local directory of the CVM host by default
- B. The number of CPUs, memory size, and storage capacity in the virtual machine template cannot be modified
- C. A virtual machine template is a copy of a virtual machine that is used to easily create and configure multiple new virtual machines.
- D. There are two ways to create a virtual machine template: convert to a template and clone to a template. The clone to template must be executed when the virtual machine is shut down.

Answer: A,C

NEW QUESTION # 21

The following services are IaaS:

- A. Deliver applications to users through the network, and users can directly access the application through clients such as IE
- B. Users purchase servers, storage, and networks to build their own enterprise data centers
- C. Deliver basic hardware resources such as servers, storage, and networks to users through the network. After users obtain virtual machines, they can deploy operating systems and application software
- D. Deliver the software development and compilation platform to users through the network, and users can develop and compile software on it

Answer: C

NEW QUESTION # 22

Which of the following statements about CVM management functions is correct?

- A. Cloud services are based on the virtualization function provided by CVM components, abstracting physical resources such as computing, storage, and network into elastic virtual resource pools that are provided on demand.
- B. The operation log records in detail all operations performed by operators on the CVM and provides a download function
- C. The virtual machine view management function allows maintenance personnel to customize the virtual machine directory based on actual business scenarios
- D. Host auto-discovery task management automatically searches for hosts that can be added and adds them to the cluster to which the task belongs.

Answer: A,B,C,D
