## HCL Software Academy HCL-DOM-AADM-12 Exam Consultant & HCL-DOM-AADM-12 Study Guide

You can free download HCL Software Academy HCL-DOM-AADM-12 exam demo to have a try before you purchase HCL-DOM-AADM-12 complete dumps. Instant download for HCL-DOM-AADM-12 trustworthy Exam Torrent is the superiority we provide for you as soon as you purchase. We ensure that our HCL-DOM-AADM-12 practice torrent is the latest and updated which can ensure you pass with high scores. Besides, Our 24/7 customer service will solve your problem, if you have any questions.

## HCL Software Academy HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 Sample Questions (Q61-Q66):

### NEW QUESTION # 61

Which two roles in the Server document grant privileged administrative access to the Domino server?  
(Choose two)

- A. Create replicas
- B. Full Access Administrators
- C. Run unrestricted agents
- D. Administrators

**Answer: B,D**

Explanation:

Privileged access to manage a Domino server is defined in the Security section of the Server document. The Administrators field lists the primary users who can perform standard management tasks. The Full Access Administrators role provides a higher level of privilege, allowing designated individuals to bypass all database Access Control Lists (ACLs) on the server to perform emergency maintenance or troubleshooting.

### NEW QUESTION # 62

Which two ACL access levels allow users to create documents in a Domino database? (Choose two)

- A. Reader
- B. Author
- C. Depositor
- D. Editor

**Answer: B,D**

Explanation:

In HCL Domino, the Access Control List (ACL) defines the specific permissions for every user or group interacting with a database. The Author access level allows users to read documents and create new ones, though they can typically only edit documents they created themselves. The Editor level provides higher permissions, allowing users to read, create, and edit any document in the database regardless of the original author. While a "Depositor" can also create documents, they cannot read any documents in the database, making Author and Editor the standard levels for users who both contribute and interact with content.

---

### NEW QUESTION # 63

Which database stores inbound mail before it is routed to a user's mailbox?

- A. router.nsf
- B. mailroute.nsf
- C. mail.box
- D. names.nsf

**Answer: C**

Explanation:

In HCL Domino, the mail.box database (or databases, if multiple are configured) acts as the temporary holding area or "staging ground" for all transit mail. When mail arrives at the server—whether from a local Notes user, another Domino server, or via SMTP—it is deposited into mail.box. The Router task then monitors this database, reads the recipient information, and moves the message to its final destination (the user's mail file) or transfers it to another server.

---

### NEW QUESTION # 64

Which two components are accessible via the Domino Administrator Client's Files tab? (Choose two)

- A. Compact and Fixup utilities
- B. Policy creation
- C. Replication tools
- D. ACL management

**Answer: A,C**

Explanation:

The Files tab in the Domino Administrator Client is the central management area for database-level operations. From this tab, administrators can access replication tools to manually trigger or manage the synchronization of database replicas across servers. Additionally, it provides access to the Tools pane, where maintenance utilities like Compact (to reduce file size) and Fixup (to repair corrupted databases) are located for server-side maintenance.

---

### NEW QUESTION # 65

What authentication method does Domino use by default for client-to-server access?

- A. Notes ID-based authentication using public key infrastructure (PKI)

- B. OAuth 2.0 token-based login
- C. Biometric signature verification
- D. RADIUS-based challenge-response

**Answer: A**

Explanation:

The foundational security of HCL Domino is built on Public Key Infrastructure (PKI) . By default, when a Notes client connects to a Domino server, it uses the Notes ID file . This file contains the user's private key.

The server uses the corresponding public key (stored in the user's Person document) to perform a complex cryptographic "handshake" to verify the user's identity without ever sending the actual password or private key over the network.

## NEW QUESTION # 66

.....

Many of the candidates like the Soft version of our HCL-DOM-AADM-12 exam questions. The software of HCL-DOM-AADM-12 guide torrent boosts varied self-learning and self-assessment functions to check the results of the learning. The software can help the learners find the weak links and deal with them. Our HCL-DOM-AADM-12 Exam Questions boost timing function and the function to stimulate the exam. Our product sets the timer to stimulate the exam to adjust the speed and keep alert. So it is worthy for you to buy our HCL-DOM-AADM-12 exam questions.

**HCL-DOM-AADM-12 Exam Consultant:** <https://www.itpass4sure.com/HCL-DOM-AADM-12-practice-exam.html>

Our professional experts can give you the latest and the most accurate HCL-DOM-AADM-12 training material for that they have been in this field for so many years and know every aspect of the change of HCL-DOM-AADM-12 practice questions, Our website always trying to bring great convenience to our candidates who are going to attend the HCL-DOM-AADM-12 practice test, If you want to sharpen your skills, and get the HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 (HCL-DOM-AADM-12) certification done within the target period, it is important to get the best HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 (HCL-DOM-AADM-12) exam questions.

A wealth of practical advice to navigate the complexities of social HCL-DOM-AADM-12 media and minimise the risks, Consumer demand for better products has been continually increasing during the last few decades.
