ISC Certified Cloud Security Professional Sample Questions (Q126-Q131):

NEW QUESTION # 126

Which of the following pertains to fire safety standards within a data center, specifically with their enormous electrical consumption?

- A. BICSI
- B. IDCA
- C. Uptime Institute
- **D. NFPA**

Answer: D

Explanation:

Explanation/Reference:

Explanation:

The standards put out by the National Fire Protection Association (NFPA) cover general fire protection best practices for any type of facility, but also specific publications pertaining to IT equipment and data centers.

NEW QUESTION # 127

Which of the following is considered a physical control?

- A. Carpets
- **B. Fences**
- C. Ceilings
- D. Doors

Answer: B

Explanation:

Fences are physical controls; carpets and ceilings are architectural features, and a door is not necessarily a control: the lock on the door would be a physical security control. Although you might think of a door as a potential answer, the best answer is the fence; the exam will have questions where more than one answer is correct, and the answer that will score you points is the one that is most correct.

NEW QUESTION # 128

A honeypot can be used for all the following purposes except _____.

Response:

- A. Distracting attackers
- **B. Luring attackers**
- C. Delaying attackers
- D. Gathering threat intelligence

Answer: B

NEW QUESTION # 129

Jurisdictions have a broad range of privacy requirements pertaining to the handling of personal data and information.

Which jurisdiction requires all storage and processing of data that pertains to its citizens to be done on hardware that is physically located within its borders?

- A. Japan
- B. United States
- **C. Russia**
- D. European Union

Answer: C

Explanation:

Explanation

The Russian government requires all data and processing of information about its citizens to be done solely on systems and applications that reside within the physical borders of the country. The United States, European Union, and Japan focus their data privacy laws on requirements and methods for the protection of data, rather than where the data physically resides.

NEW QUESTION # 130

Which of the following service capabilities gives the cloud customer the least amount of control over configurations and deployments?

- A. Infrastructure
- B. Desktop
- C. Platform
- D. Software

Answer: D

Explanation:

The software service capability gives the cloud customer a fully established application, where only minimal user configuration options are allowed.
