

Using Reliable 2V0-17.25 Exam Simulator Makes It As Relieved As Sleeping to Pass VMware Cloud Foundation 9.0 Administrator

P.S. Free 2026 VMware 2V0-17.25 dumps are available on Google Drive shared by TestBraindump:
<https://drive.google.com/open?id=1T4acs-9qzzbAClh85bndobXfbSALtqIJ>

One of features of 2V0-17.25 training materials of us is that we can help you pass the exam just one time, and we also pass guarantee and money back guarantee for you fail to pass the exam. You just need to send your failure scanned to us, and we will give you full refund. In addition, 2V0-17.25 exam dumps contain both questions and answers, which can help you have a quickly check after you finish your practice. We also have online and offline chat service stuff, they possess the professional knowledge about the 2V0-17.25 Training Materials, if you have any questions just contact us.

VMware 2V0-17.25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">VMware Cloud Foundation Fundamentals: This section of the exam measures the skills of Private Cloud Engineers and covers the basic building blocks of VMware Cloud Foundation. It includes the vision and use cases for private cloud, along with the value it provides to businesses. Candidates are expected to understand compute fundamentals such as deploying and managing vCenter, ESXi, clusters, and virtual machines. Storage fundamentals include configuring vSphere storage, setting up vSAN clusters, applying storage policies, and understanding resilience options. Networking fundamentals are also assessed, with a focus on configuring connectivity, fabrics, routing, and network services in a VMware environment.
Topic 2	<ul style="list-style-type: none">IT Architectures, Technologies, Standards: This section of the exam measures the skills of Cloud Architects and focuses on understanding the broader context of IT architectures, common technologies, and industry standards. While it does not have testable objectives, it sets the foundation for how VMware Cloud Foundation aligns with enterprise cloud strategies.
Topic 3	<ul style="list-style-type: none">Deploy, Configure, and Operate VMware Cloud Foundation (VCF): This section of the exam measures the skills of VCF Administrators and goes in-depth into deploying, configuring, and managing VMware Cloud Foundation. The deployment portion covers identifying deployment models, configuring private cloud environments, and setting up workload domains and networking. The management objectives focus on lifecycle operations such as fleet management, identity and role-based access, licensing, certificate handling, and importing existing vCenters. Operations are assessed through capabilities like monitoring health, logs, networks, and storage, along with creating dashboards, configuring alerts, and ensuring compliance. The automation portion evaluates skills in using VCF Automation for multi-tenancy, provider networking, content libraries, governance policies, and extensibility to automate business processes. It also includes knowledge of deploying Supervisor-based services within Cloud Foundation.

Topic 4	<ul style="list-style-type: none"> • Plan and Design the VMware by Broadcom Solution: This section of the exam measures the skills of Solution Designers and emphasizes the ability to plan and design VMware by Broadcom solutions. Although no testable objectives are defined here, it reinforces the importance of architectural planning and design considerations for large-scale cloud deployments.

High Pass-Rate Reliable 2V0-17.25 Exam Simulator Offer You The Best Test Assessment | VMware Cloud Foundation 9.0 Administrator

As is known to us, our company is professional brand established for compiling the 2V0-17.25 study materials for all candidates. The 2V0-17.25 study materials from our company are designed by a lot of experts and professors of our company in the field. We can promise that the 2V0-17.25 study materials of our company have the absolute authority in the study materials market. We believe that the study materials designed by our company will be the most suitable choice for you. You can totally depend on the 2V0-17.25 Study Materials of our company when you are preparing for the exam.

VMware Cloud Foundation 9.0 Administrator Sample Questions (Q106-Q111):

NEW QUESTION # 106

What is the first step to take when updating the vSAN database in a VMware Cloud Foundation environment?

- A. Download the latest HCL database from VMware
- **B. Backup the vSAN database**
- C. Check the VMware Compatibility Guide for supported versions
- D. Place the vSAN cluster in maintenance mode

Answer: B

Explanation:

The first step when updating the vSAN database (or performing any update to the vSAN environment) is to back up the vSAN database. This ensures that if any issues arise during the update process, the administrator can restore the environment to a previous state. This step is crucial to ensure data protection and prevent data loss.

NEW QUESTION # 107

When designing a host cluster for high availability (HA) and resource optimization, which features or considerations should be taken into account?

- **A. vSAN policies for storage redundancy**
- **B. DRS for automated load balancing**
- **C. Network segmentation for vMotion traffic**
- D. Enabling SSH for all users by default

Answer: A,B,C

Explanation:

HA and resource optimization focus on load balancing (DRS), storage redundancy (vSAN), and proper network design (segmentation for vMotion). Granting SSH access to all users by default (D) is a security risk and not a standard best practice for an HA design.

NEW QUESTION # 108

Which of the following measures can help optimize memory usage in a busy ESXi host cluster?

- **A. Correct sizing of VMs to avoid over-allocation**
- **B. Using memory reservations on every VM**

- C. Configuring Transparent Page Sharing (TPS)
- D. Installing and enabling VMware Tools Balloon driver in the guest

Answer: A,C,D

Explanation:

TPS (A) deduplicates identical memory pages, the balloon driver (C) reclaims unused guest memory, and right-sizing (D) avoids over-allocation. Memory reservations on every VM (B) can cause resource contention if overused.

NEW QUESTION # 109

Which component is used to provision Kubernetes workload clusters?

- A. Carvel
- B. Cluster API
- C. Harbor
- D. cert-manager

Answer: B

Explanation:

The Cluster API provides declarative, Kubernetes-style APIs for cluster creation, configuration, and management. Inputs include resources describing the cluster, VMs, and add-ons.

Provisioning flows also present ClusterClass/Cluster API as the supported "cluster type" when creating a Kubernetes cluster via self-service. These extracts confirm that Cluster API is the foundational component used by VMware Kubernetes Service (VKS) on vSphere Supervisor to bootstrap and manage Kubernetes workload clusters in VCF 9.0.

NEW QUESTION # 110

Before creating an Organization for All Applications in VCF Automation to support Kubernetes workloads, which two prerequisites must be completed? (Choose two.)

- A. vSphere Supervisor must be activated in the workload domain.
- B. A Region must be configured in the Provider Management Portal.
- C. vSphere Supervisor must be activated in the Management workload domain.
- D. Workload domain must be configured for NSX Federation.
- E. VKS must be activated in the Management workload domain.

Answer: B,C

Explanation:

Supervisor Activation: "Kubernetes-based workloads require Supervisor to be enabled in the Management Domain before deploying organizations." Region Configuration: "Organizations for All Applications must be deployed into a preconfigured Region, defined in the Provider Management Portal."

NEW QUESTION # 111

.....

TestBraindump has designed highly effective VMware 2V0-17.25 exam questions and an online 2V0-17.25 practice test engine to help candidates successfully clear the VMware Cloud Foundation 9.0 Administrator exam. These two simple, easy, and accessible learning formats instill confidence in candidates and enable them to learn all the basic and advanced concepts required to pass the VMware Cloud Foundation 9.0 Administrator (2V0-17.25) Exam.
