

# Reliable and Accurate USGBC LEED-Green-Associate Exam Questions

## LEED GREEN ASSOCIATE EXAM QUESTIONS WITH 100% VERIFIED ANSWERS 2024-2025

Aeroponics - ANSWER The process of growing plants in suspension in an air or mist environment without the use of soil

Biogas - ANSWER An alternative fuel that is generated from decomposing organic matter, such as food and animal waste, which is processed in an anaerobic digester

Carbon Monoxide (CO) - ANSWER An odorless, colorless, and toxic gas that is produced from vehicle exhaust, incomplete combustion or fuel in boilers or furnaces, and improperly vented appliances

Greenhouse Gases - ANSWER Gases that trap heat in the atmosphere. The most abundant of the greenhouse gases, carbon dioxide, is released through the burning of fossil fuels and the manufacturing of cement

LEED - ANSWER Leadership in Energy and Environmental Design. The USGBC LEED green building program is the preeminent program for the design, construction, maintenance, and operation of high-performance green buildings | Third-party green building certification program and the globally recognized standard for the design, construction and operation of high-performance green buildings and neighborhoods.

Lean Process Improvement - ANSWER The principle of continuously improving any process through the elimination of waste in every step of manufacturing

LEED AP - ANSWER The advanced level of LEED credentials that requires an advanced knowledge in green building as well as expertise in a particular LEED rating system

What's more, part of that ActualPDF LEED-Green-Associate dumps now are free: [https://drive.google.com/open?id=1bZkZIuTPNhxaIqS\\_JWM0hXN2pcPq1Z--](https://drive.google.com/open?id=1bZkZIuTPNhxaIqS_JWM0hXN2pcPq1Z--)

The web-based LEED-Green-Associate practice test can be taken via any operating system without the need to install additional software. Also, this LEED-Green-Associate web-based practice exam is compatible with all browsers. Both USGBC LEED-Green-Associate Practice Tests of ActualPDF keep result of your attempts and assist you in fixing errors. Moreover, you can alter settings of these LEED-Green-Associate practice exams to suit your learning requirements.

Now, the test syllabus of the LEED-Green-Associate exam is changing every year. More and more people choose to prepare the exam to improve their ability. So the LEED-Green-Associate exam becomes more difficult than before. For our experts, they are capable of seizing the tendency of the real exam. The questions and answers of our LEED-Green-Associate Guide materials will change every year according to the examination outlines. And we always keep them to be the latest and accurate.

## LEED Green Associate Exam Sure Questions & LEED-Green-Associate Torrent Vce & LEED Green Associate Exam Updated Pdf

Our service tenet is to let the clients get the best user experiences and be satisfied. From the research, compiling, production to the

sales, after-sale service, we try our best to provide the conveniences to the clients and make full use of our LEED-Green-Associate guide materials. We organize the expert team to compile the LEED-Green-Associate Practice Guide elaborately and constantly update them. To let the clients have a fundamental understanding of our LEED-Green-Associate training materials, we provide the free trials of our LEED-Green-Associate exam questions before their purchasing.

## USGBC LEED-Green-Associate Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Materials and Resources: This section of the exam measures the skills of sustainable materials specialists and focuses on reuse, life-cycle impacts, waste management, and environmentally preferable purchasing practices. It highlights the importance of material selection in reducing environmental impacts.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Integrative Strategies: This section of the exam measures the skills of project managers and focuses on the integrative process in LEED projects. It includes understanding the roles of various team members and standards that support LEED, such as ASHRAE and ENERGY STAR guidelines. This section highlights the importance of collaboration and systems thinking in achieving sustainable design.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>LEED Process: This section of the exam measures the skills of sustainability consultants and covers the foundational aspects of LEED, including organization fundamentals, the structure of LEED rating systems, and the LEED certification process. It emphasizes understanding the goals and objectives of each credit category and how they contribute to sustainable building practices.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Location and Transportation: This section of the exam measures the skills of urban planners and covers site selection criteria and alternative transportation strategies. It emphasizes choosing sites that minimize environmental impact and promote sustainable transportation options.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Sustainable Sites: This section of the exam measures the skills of landscape architects and focuses on on-site assessment and design strategies that reduce environmental impact. It includes topics like habitat conservation, rainwater management, and exterior lighting.</li> </ul>

## USGBC LEED Green Associate Exam Sample Questions (Q158-Q163):

### NEW QUESTION # 158

Which of the following strategies meets energy demand with renewable energy?

- A. Incinerating waste to heat a home
- B. Installing a solar hot water heater**
- C. Implementing a composting program in an office break room
- D. Purchasing Renewable Energy Certificates (RECs) from a clean coal plant

**Answer: B**

Explanation:

Installing a solar hot water heater is a strategy that meets energy demand with renewable energy. Solar hot water heaters use the sun's energy to heat water, reducing the need for non-renewable energy sources. References: LEED Green Associate Candidate Handbook, U.S. Green Building Council resources

### NEW QUESTION # 159

Which of the following benefits pertain to purchasing and installing locally sourced, environmentally preferable products?

- A. Products are long lasting and durable
- B. Factories that support human health and workers' rights are used
- C. Products contain recycled content
- D. The environmental harm associated with transportation is reduced**

**Answer: D**

Explanation:

The environmental harm associated with transportation is reduced when purchasing and installing locally sourced, environmentally preferable products. Locally sourced products are products that are extracted, harvested, recovered, or manufactured within a certain distance from the project site. Environmentally preferable products are products that have reduced environmental impacts compared to similar products in terms of energy use, water use, materials use, waste generation, emissions, toxicity, and durability. Purchasing and installing locally sourced, environmentally preferable products reduces the amount of fuel consumption, greenhouse gas emissions, air pollution, and road congestion associated with transporting products over long distances. The LEED Green Associate Candidate Handbook states that one of the strategies for achieving materials and resources efficiency is to "use local or regional materials (extracted, processed and manufactured within 100 miles)" [1, p. 15]. References: LEED Green Associate Candidate Handbook,

[Environmentally Preferable Purchasing | U.S. Environmental Protection Agency]

**NEW QUESTION # 160**

Who is the most responsible for monitoring ongoing energy performance over the life of the building?

- A. Facility Manager
- B. LEED AP
- C. Contractor
- D. Commissioning (Cx) Agent

**Answer: A**

Explanation:

The Facility Manager is typically responsible for monitoring ongoing energy performance over the life of a building. They oversee the operation and maintenance of building systems, including HVAC, lighting, and other energy-using equipment, and can implement energy management strategies to optimize performance. Reference: LEED Green Associate Candidate Handbook, U.S. Green Building Council resources

**NEW QUESTION # 161**

The amount of landfill-destined waste generated during project construction can be reduced by requiring the general contractor to

- A. burn paper and cardboard materials on-site
- B. follow requirements for using dimensional construction materials, prefabrication or material efficient framing
- C. use contractor vehicles to disperse waste materials to multiple disposal sites within the project region
- D. take advantage of municipal waste pick-up to reduce the weight of the project's construction material scraps

**Answer: B**

Explanation:

Explanation

The amount of landfill-destined waste generated during project construction can be reduced by requiring the general contractor to follow requirements for using dimensional construction materials, prefabrication or material efficient framing. These methods reduce the amount of material waste by minimizing cutting, fitting, and trimming on site, and by using standardized or modular components that can be easily reused or recycled.

The LEED Green Associate Candidate Handbook states that one of the strategies for achieving materials and resources efficiency is to "reduce construction waste through efficient framing techniques" [1, p. 15]. References: LEED Green Associate Candidate Handbook, [Reducing Construction Waste | U.S. Environmental Protection Agency]

**NEW QUESTION # 162**

What do team members enhance by collaboration during the integrative process?

- A. Life-cycle costs
- B. Efficiency and effectiveness of systems
- C. Construction costs
- D. Project duration

**Answer: B**

### Explanation:

## Explanation

The integrative process involves collaboration among all project team members, from initial planning through design and construction, to enhance the efficiency and effectiveness of systems. This process allows for better coordination among disciplines, leading to more efficient use of resources, improved environmental performance, reduced project costs, and enhanced occupant satisfaction.

## NEW QUESTION # 163

• • • • •

Our company conducts our LEED-Green-Associate real questions as high quality rather than unprincipled company which just cuts and pastes content into their materials and sells them to exam candidates. We have always been the vanguard of this field over ten years. It means we hold the position of supremacy of LEED-Green-Associate practice materials by high quality and high accuracy. Besides, all exam candidates who choose our LEED-Green-Associate real questions gain unforeseen success in this exam, and continue buying our LEED-Green-Associate practice materials when they have other exam materials' needs. It is our running tenet to offer the most considerate help and services for exam candidates just like you. By virtue of our LEED-Green-Associate Study Tool, many customers get comfortable experiences of whole package of services and of course passing the LEED-Green-Associate exam successfully. Just hold the supposition that you may fail the exam even by the help of our LEED-Green-Associate study tool, we can give full refund back or switch other versions for you to relieve you of any kind of losses. What is more, we offer supplementary content like updates for one year after your purchase.
