Our Google-Workspace-Administrator exam questions is specially designed for you to pass the Google-Workspace-Administrator exam.

Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q89-Q94):

NEW QUESTION # 89

Your organization wants more visibility into actions taken by Google staff related to your data for audit and security reasons. They are specifically interested in understanding the actions performed by Google support staff with regard to the support cases you have opened with Google. What should you do to gain more visibility?

- **A. From Google Admin Panel, go to Audit, and select Access Transparency Logs. Most Voted**
- B. From Google Admin Panel, go to Audit, and select Rules Audit Log.
- C. From Google Admin Panel, go to Audit, and select Admin Audit Log.
- D. From Google Admin Panel, go to Audit, and select Login Audit Log.

Answer: A

Explanation:

Google staff logs related to accessing user content are stored in Access Transparency logs

NEW QUESTION # 90

An employee at your company does not need access to their Workspace account while they are on leave for a year. When they return, you need to ensure they have access to their account and that all their data and current emails remain intact. Also, their shared documents must be available to other users. You must accomplish this goal in the most cost-effective way. What should you do?

- A. Remove the user license in the Admin console.
- B. Delete the user after copying their emails and reassigning their documents to their manager.
- **C. Assign an Archive User license.**
- D. Suspend their account in the Admin console.

Answer: C

Explanation:

Suspended accounts are still charged at the same rate as active accounts on both the Annual billing plan and the Flexible plan.
<https://support.google.com/a/answer/33312?hl=en>

Removing user license will not help in maintaining user data and providing access to others.

NEW QUESTION # 91

An administrator accidentally deleted several Workspace user accounts from the Google Admin Console two weeks ago. How can you recover the deleted user accounts?

- A. Create a matter, go to legal hold, and create a legal hold for the user accounts.
- B. Sign in to the Admin console as Help Desk Admin, open user management, filter for "recently deleted." and recover.
- **C. Sign in to the Admin console as Super Admin, open user management, filter for "recently deleted." and recover.**
- D. Open a Google support ticket, and request a recovery of all recently deleted users.

Answer: C

Explanation:

To recover user accounts deleted two weeks ago:

* Sign in to the Admin console as a Super Admin.

* Navigate to user management.

* Use the filter to select "recently deleted" users.

* Recover the deleted user accounts from the list.

Google Workspace allows recovery of deleted users within a 20-day window.

NEW QUESTION # 92

A recent legal investigation requires all emails and Google Drive documents from a specific user to be retrieved. As the administrator, how can you fulfill the legal team's request?

- A. Use Security Investigation Tool to Search Google Drive events for all of the user's documents, and use Google Admin >

Reports > Email Log Search to find their emails.

- **B. Utilize Google Vault to hold, search, and export data of interest.**
- C. Search Google Drive for all of the user's documents, and ask them to forward all of their emails.
- D. Use the Gmail API and Google Drive API to automatically collect and export data.

Answer: B

Explanation:

Access Google Vault: Go to the Google Vault interface.

Create a Matter: Create a new matter for the legal investigation.

Set Holds: Place holds on the specific user's email and Google Drive data to preserve the relevant information.

Conduct Searches: Use the search functionality in Google Vault to find all emails and documents related to the user.

Export Data: Once the relevant data is identified, export it for the legal team's review.

Review and Deliver: Ensure the exported data is complete and deliver it to the legal team as required.

NEW QUESTION # 93

You act as the Google Workspace Administrator for a company that has just acquired another organization.

The acquired company will be migrated into your Workspace environment in 6 months. Management has asked you to ensure that the Google Workspace users you currently manage can efficiently access rich contact information in Workspace for all users. This needs to occur before the migration, and optimally without additional expenditure. What step do you take to populate contact information for all users?

- A. Provision and license Google Workspace accounts for the acquired company's users because they will need accounts in the future.
- B. Bulk-upload the contact information for these users via CSV into the Google Directory.
- C. Prepare an uploadable file to be distributed to your end users that allows them to add the acquired company's user contact information to their personal contacts.
- **D. Use the Domain Shared Contacts API to upload contact information for the acquired company's users.**

Answer: D

Explanation:

* Prepare Contact Information:

* Gather the contact details of the acquired company's users.

* Format this information according to the Domain Shared Contacts API requirements.

* Use the API to Upload Contacts:

* Access the Google Cloud Platform console.

* Enable the Admin SDK API for your project.

* Use the Domain Shared Contacts API to programmatically upload the contacts.

* This can be done via scripts or third-party tools that integrate with the API.

* Verify and Sync:

* Ensure that the contacts have been successfully uploaded.

* Verify that users in your organization can access the rich contact information.

Using the Domain Shared Contacts API allows you to efficiently populate contact details without requiring additional expenditures or provisioning unnecessary accounts.
