NEW QUESTION # 28
Which two statements are true about shared members in Valid Intersection rules? (Choose two.)

- A. If a shared member is selected for a rule, the primary instance of the member is selected as well.
- B. Selecting a shared member for a rule does not include its primary instance.
- C. Selecting the primary instance of a member does not include shared members.
- D. If the primary instance of the member is selected for a rule, all shared members for the instances are included.

Answer: B,D

Explanation:
The following statements are true about shared members in Valid Intersection rules:
If the primary instance of the member is selected for a rule, all shared members for the instances are included. This means that data can be entered or calculated for any shared member of the primary member.
Selecting a shared member for a rule does not include its primary instance. This means that data can be entered or calculated only for the specific shared member, not for the primary member or other shared members. The other statements are not true about shared members in Valid Intersection rules. If a shared member is selected for a rule, the primary instance of the member is not selected as well. Selecting the primary instance of a member does include shared members.Oracle Financial Consolidation and Close 2023 Implementation Essentials Study Guide, page 69; [Oracle Financial Consolidation and Close Cloud Service Administrator's Guide], page 9-6.
