Where there is life, there is hope. Never abandon yourself. You still have many opportunities to counterattack. If you are lack of knowledge and skills, our HPE0-S59 guide questions are willing to offer you some help. Actually, we are glad that our HPE0-S59 Study Materials are able to become you top choice. Just look at the warm feedbacks from our HPE0-S59 learning braindumps, we are very popular in the whole market. And our HPE0-S59 exam guide won't let you down.

HP HPE0-S59 (HPE Compute Solutions) certification exam is designed to validate the skills and knowledge of IT professionals in HPE Server Solutions. HPE0-S59 exam tests individuals' understanding of HPE compute technologies and solutions, including server architectures, software-defined infrastructure, cloud-based solutions, and more. The HPE0-S59 Exam enables candidates to demonstrate their expertise in designing, deploying, and managing server solutions based on HPE technology.

## HPE Compute Solutions Sample Questions (Q18-Q23):

### NEW QUESTION # 18

Your customer plans to add four HPE Synergy frames to an existing management ring. All installed frames are equipped with two 2-port FLM modules, while new frames will be equipped with 4-port FLM modules.

Which statement about mixing different FLM modules is true?

- A. Existing 2-port FLM modules must be replaced with 4-port FLM modules
- B. A management ring with mixed FLM modules cannot have more than 12 frames
- C. A management ring can contain mixed frame link module configurations
- D. Mixing different FLM modules is allowed if all of them have the same firmware version

**Answer: B**

### NEW QUESTION # 19

Which compute node parameters are captured within server hardware type?

- A. installed operating system
- B. Mezzanine card configuration
- C. Number of the CPUs
- D. Size of the memory Installed

**Answer: A**

### NEW QUESTION # 20

Hotspot Question

Click the option that will allow you to change the ESXi image used in an OS Deployment Plan.

**Answer:**

Explanation:

### NEW QUESTION # 21

Your customer plans to deploy HPE OneView for VMware vCenter Server together with HPE Storage Integration Pack for VMware vCenter. The customer wants to use them to manage HPE Synergy Gen10 compute modules, HPE ProLiant Gen 10 servers and an MSA array.

Which statement about compatibility of the existing environment with the planned software components is true?

- A. Both HPE Synergy Gen10 full-height compute module plugins will require a license
- B. HPE OneView for VMware vCenter Server does not support standalone HPE ProLiant servers
- C. To use the required plugins HPE ProLiant Gen10 systems must be managed using HPE OneView
- D. HPE Storage integration Pack for VMware vCenter does not support MSA arrays

**Answer: C**

Explanation:

The HPE Storage Integration Pack for VMware vCenter is designed to provide management capabilities for HPE storage arrays

within the VMware vCenter environment. However, it does not support MSA arrays. This means that while you can manage HPE Synergy Gen10 compute modules and HPE ProLiant Gen10 servers, the MSA array will not be manageable through the HPE Storage Integration Pack.

## NEW QUESTION # 22

Refer to the exhibit.

□ Which statement about this logical interconnect group is true?

- A. For an uplink set, ports from different modules can be selected
- B. An additional license is required to change the enclosure count
- C. Both modules are located in different frames for redundancy
- D. interconnect modules are installed in interconnect bays 1 and 4

Answer: B

### NEW QUESTION # 23
