PRINCE2 P3O Foundation Project Office2013 Exam Sample Questions (Q66-Q71):

NEW QUESTION # 66
Which is a function of strategic mapping software?

- A. Matches programmes and projects to portfolio benefits and outcomes
- B. Models an organization's systems and processes
- C. Supports a common, integrated approach to risk management
- D. Distributes and shares learning among the PPM community

Answer: A

Explanation:
The P3O Foundation (2013) manual states that strategic mapping software matches programmes and projects to portfolio benefits and outcomes. Section 6.3.4 notes, "Strategic mapping software is used to match programmes and projects to the benefits and outcomes defined in the portfolio, ensuring alignment with strategic goals." This differs from learning distribution (A), process

modeling (B), or risk management (D), which serve other purposes. The 2013 edition highlights its role in visualizing strategic links, supporting P3O' s decision-making process. This functionality enhances portfolio optimization and value delivery.

NEW QUESTION # 67
Which is a benefit of the portfolio prioritization and optimization technique?

- A. Provides resource capacity to the portfolio when required
- B. Documents repeatable processes enabling increased PPM maturity
- C. Highlights programme issues requiring intervention
- D. Supports senior management investment decisions by aligning programmes to strategy

Answer: D

Explanation:
The P3O Foundation (2013) manual identifies that the portfolio prioritization and optimization technique supports senior management investment decisions by aligning programmes with strategy. Section 6.3.1 states,
"This technique supports senior management by prioritizing and optimizing the portfolio to align programmes and projects with strategic objectives, aiding investment decisions." This differs from highlighting issues (A), documenting processes (B), or providing capacity (C), which are secondary outcomes. The 2013 edition emphasizes its strategic decision-making role, ensuring resources focus on high-value initiatives. This enhances portfolio effectiveness.
Reference: P3O Foundation (2013) manual, Section 6.3.1, AXELOS.

NEW QUESTION # 68
What role provides facilitated workshops to promote consistent project management practice?

- A. Secretariat/administrator
- B. Head of Project
- C. Project Officer
- D. Project Specialist

Answer: D

Explanation:
The Project Specialist role provides facilitated workshops to promote consistent project management practice, according to the P3O Foundation (2013) manual. Section 3.5.6 states, "The Project Specialist facilitates workshops to ensure consistent application of project management practices and standards across the organization." This differs from the Project Officer (B), who supports execution, Head of Project (C), who oversees projects, and Secretariat (D), who provides administrative support. The 2013 edition emphasizes the Specialist's training and facilitation role, enhancing PPM maturity. This ensures standardized practices are adopted effectively.
Reference: P3O Foundation (2013) manual, Section 3.5.6, AXELOS.

NEW QUESTION # 69
Which factor will NOT influence the size of a P3O?

- A. Training requirements for its members of staff
- B. Number and type of functions it will deliver
- C. Budget of the programmes and projects it will
- D. Size of the programmes and projects it will support

Answer: A

Explanation:
The size of a P3O, according to the P3O Foundation (2013) manual, is influenced by factors such as the number and type of functions (A), the size of programmes and projects (B), and the budget available (C), as these directly impact resource and structural needs. Section 5.2.1 states, "The size and complexity of a P3O are determined by the scope of functions, the scale of supported programmes/projects, and the allocated budget." However, training requirements for staff (D) do not directly determine the P3O's size but rather its operational capability and efficiency post-establishment. The 2013 guidance focuses on structural and financial

factors for sizing, with training addressed as a support function (Section 7.4) to enhance skills, not as a size determinant. This distinction ensures the P3O is scaled appropriately to its strategic role, not its training needs.
Reference: P3O Foundation (2013) manual, Sections 5.2.1 and 7.4, AXELOS.

NEW QUESTION # 70
Which describes the focus of a Portfolio Office in relation to programmes?

- A. Implements a programme correctly
- B. Ensures that investment is made in the right programmes
- C. Provides support to a programme
- D. Defines the standards to be followed by a programme

Answer: B

Explanation:
The P3O Foundation (2013) manual describes the Portfolio Office's focus as ensuring investment in the right programmes. Section 5.3.2 states, "The Portfolio Office focuses on ensuring that investment is directed toward the right programmes by aligning them with strategic objectives and optimizing the portfolio." This differs from implementation (A), programme support (B), or standard definition (C), which are programme or COE roles. The 2013 edition emphasizes this strategic investment role to maximize value, supporting P3O's governance function. This ensures resource allocation aligns with organizational priorities.
