Don't doubt about it. More useful certifications mean more ways out. If you pass the NSE5_FSM-6.3 exam, you will be welcome by all companies which have relating business with NSE5_FSM-6.3 exam torrent.

Fortinet NSE 5 - FortiSIEM 6.3 Sample Questions (Q56-Q61):

NEW QUESTION # 56

In the advanced analytical rules engine in FortiSIEM, multiple subpatterns can be referenced using which three operation?(Choose three.)

- A. FOLLOWED_BY
- B. ELSE
- C. NOT
- D. OR
- E. AND

Answer: A,D,E

Explanation:

* Advanced Analytical Rules Engine: FortiSIEM's rules engine allows for complex event correlation using multiple subpatterns.

* Operations for Referencing Subpatterns:

FOLLOWED_BY: This operation is used to indicate that one event follows another within a specified time window.

OR: This logical operation allows for the inclusion of multiple subpatterns, where the rule triggers if any of the subpatterns match.

AND: This logical operation requires all referenced subpatterns to match for the rule to trigger.

* Usage: These operations allow for detailed and precise event correlation, helping to detect complex patterns and incidents.

* Reference: FortiSIEM 6.3 User Guide, Advanced Analytics Rules Engine section, which explains the use of different operations to reference subpatterns in rules.

NEW QUESTION # 57

A FortiSIEM administrator wants to collect both SIEM event logs and performance and availability metrics (PAM) events from a Microsoft Windows server

Which protocol should the administrator select in the AccessProtocol drop-down list so that FortiSIEM will collect both SIEM and PAM events?

- A. LDAPS
- **B. WMI**
- C. LDAP start TLS
- D. TELNET

Answer: B

NEW QUESTION # 58

How was the FortiGate device discovered by FortiSIEM?

- **A. Through auto lag discovery**
- B. Through GUI log discovery
- C. using the pull events method
- D. Through syslog discovery

Answer: A

NEW QUESTION # 59

Which FortiSIEM components can do performance availability and performance monitoring?

- A. Supervisor only
- **B. Supervisor, worker, and collector**
- C. Collectors only
- D. Supervisor and workers only

Answer: B

Explanation:

Performance and Availability Monitoring: Various components in FortiSIEM are responsible for monitoring the performance and availability of devices and services.

Components:

* Supervisor: Oversees the entire FortiSIEM infrastructure and coordinates the activities of other components.

* Worker: Processes and analyzes the collected data, including performance and availability metrics.

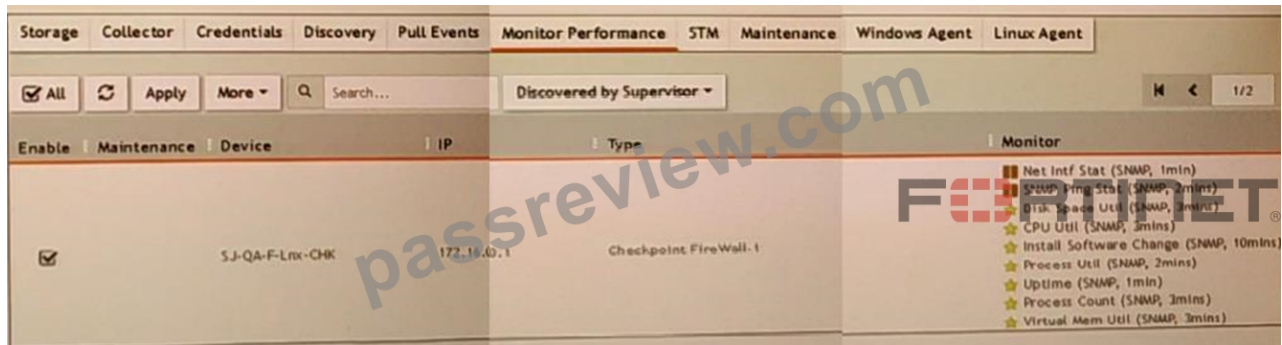

* Collector: Gathers performance and availability data from devices in the network.

Collaborative Functioning: These components work together to ensure comprehensive monitoring of the network's performance and availability.

References: FortiSIEM 6.3 User Guide, Performance and Availability Monitoring section, which explains the roles of the supervisor, worker, and collector in monitoring tasks.

NEW QUESTION # 60

Refer to the exhibit.

What do the yellow stars listed in the Monitor column indicate?

- A. A yellow star indicates that a metric was applied during discovery, but data collection has not started
- B. A yellow star indicates that a metric was applied during discovery, and data has been collected successfully
- C. A yellow star indicates that a metric was applied during discovery, but FortiSIEM is unable to collect data.
- D. A yellow star indicates that a metric was not applied during discovery and, therefore, FortiSIEM was unable to collect data.

Answer: A

Explanation:

* Monitor Column Indicators: In FortiSIEM, the Monitor column displays the status of various metrics applied during the discovery process.

* Yellow Star Meaning: A yellow star next to a metric indicates that the metric was successfully applied during discovery and data has been collected for that metric.

* Successful Data Collection: This visual indicator helps administrators quickly identify which metrics are active and have data available for analysis.

* Reference: FortiSIEM 6.3 User Guide, Device Monitoring section, which explains the significance of different icons and indicators in the Monitor column.

NEW QUESTION # 61
