Answer: A,B,E

NEW QUESTION # 54

You are a Dynamics 365 Finance and Operations developer. You have the following code: (Line numbers are created for reference only.)
Which values does the info() method return? To answer, select the appropriate option in the answer area.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:
Explanation
Box 1: SID1234
Parameters
All methods have their own scope. A method can take one or more parameters. Within the scope of the method, these parameters are treated as local variables and are initialized with a value from the parameter in the method call. All parameters are passed by value, which means that you can't change the value of the original variable. You can change only the local variable in the method. This local variable is a copy of the original variable.
Box 2: 5
