Oracle Time and Labor Cloud 2025 Implementation Professional Sample Questions (Q130-Q135):

NEW QUESTION # 130

Which feature is controlled by the general system settings during initial Time and Labor setup?

- **A. Time card UI preferences**
- B. Labor distribution calculations
- C. Worker eligibility for approvals
- D. Payroll event group mappings

Answer: A

NEW QUESTION # 131

What are Workforce Compliant Rules in Oracle Time and Labor?

- A. Rules that ensure compliance with labor regulations
- B. Rules that track employee birthdays
- C. Rules for managing employee records
- D. Rules that enforce payroll processing

Answer: A

NEW QUESTION # 132

A senior system designer has asked you to create time consumer sets for both Project Costing and Project Execution Management by using the delivered time category of All Projects Entries and for time to be transferred only when approved.

How should you achieve this?

- A. This cannot be done because although the time consumer set can be configured to transfer time cards to Project Execution Management only when approved, the time category of All Projects Entries cannot be used.
- B. You would modify the delivered All Projects Entries time category to contain only absence entries and use this in both time consumer sets. Transferring only on approval is the default behavior for both time consumers.
- C. This cannot be done because only absence entries can be transferred to Project Execution Management and time cards transferred to Project Execution Management are transferred when they are submitted.
- D. This cannot be done because although All Project Entries can be used for the time category, time cards can be transferred to Project Execution Management only when they are submitted.

Answer: C

NEW QUESTION # 133

You need a Time Entry Rule to run only when one or more of a certain group of Time Attribute values have been entered in the time card. How should you achieve this?

- A. Define an MCM Group that contains the required time attribute values and use this in the time Entry Rule set to define when the rule will run.
- B. Define an HCM Group that contains the required time attribute values and use this in the Time Entry Rule formula to define when the rule will run.
- C. Define a Time Category that will evaluate to True when the condition for executing the rule has been met and use this in the Time Entry Rule Template to define when the rule will run.
- D. Define a Time Category that will evaluate to True when the condition for executing the rule has been met and use this in the Time Entry Rule formula to define when the rule will run.
- E. Define a Time Category that will evaluate to True when the condition for executing the rule has been met and use this in the Time Entry Rule set to define when the rule will run.

Answer: E

NEW QUESTION # 134

What is the primary objective of the setup required to validate, approve, and transfer reported time from Time and Labor to Payroll for payment?

- A. Tracking employee work hours
- B. Managing employee records
- C. Configuring overtime rules
- D. Accurate and timely payment to employees

Answer: D
