

# TOGAF Enterprise Architecture Part 1 Exam free valid pdf & The Open Group OGEA-101 sure pass exam dumps

P.S. Free 2025 The Open Group OGEA-101 dumps are available on Google Drive shared by PassLeader:  
<https://drive.google.com/open?id=1WYMNpFJHpH1jY6-auS9OvScfsbpCyAMN>

Do you long to get the OGEA-101 certification to improve your life? Are you worried about how to choose the OGEA-101 learning product that is suitable for you? If your answer is yes, we are willing to tell you that you are a lucky dog, because you meet us, it is very easy for us to help you solve your problem. The OGEA-101 latest question from our company can help people get their OGEA-101 certification in a short time.

As everybody knows, competitions appear ubiquitously in current society. In order to live a better life, people improve themselves by furthering their study, as well as increase their professional OGEA-101 skills. Once you purchase our OGEA-101 exam material, your time and energy will reach a maximum utilization. Thus at that time, you would not need to be afraid of the cruel society and peer pressure with OGEA-101 Certification. In conclusion, a career enables you to live a fuller and safer life. So if you want to take an upper hand and get a well-pleasing career our OGEA-101 learning question would be your best friend.

## Practice OGEA-101 Tests, OGEA-101 Instant Download

With our OGEA-101 test prep, you don't have to worry about the complexity and tediousness of the operation. Our OGEA-101 exam torrent is available in different versions. Whether you like to study on a computer or enjoy reading paper materials, our test prep can meet your needs. Our PDF version of the OGEA-101 quiz guide is available for customers to print. You can print it out, so you can practice it repeatedly conveniently. And our OGEA-101 Exam Torrent make it easy for you to take notes on it so that your free time can be well utilized and you can often consolidate your knowledge. Everything you do will help you successfully pass the exam and get the card.

## The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q30-Q35):

### NEW QUESTION # 30

What is an objective of the ADM Preliminary Phase?

- A. To obtain approval for the Statement of Architecture Work
- B. To develop a vision of the business value to be delivered by the proposed enterprise architecture

- C. To create the initial version of the Architecture Roadmap
- D. To select and implement tools to support the Architecture Capability

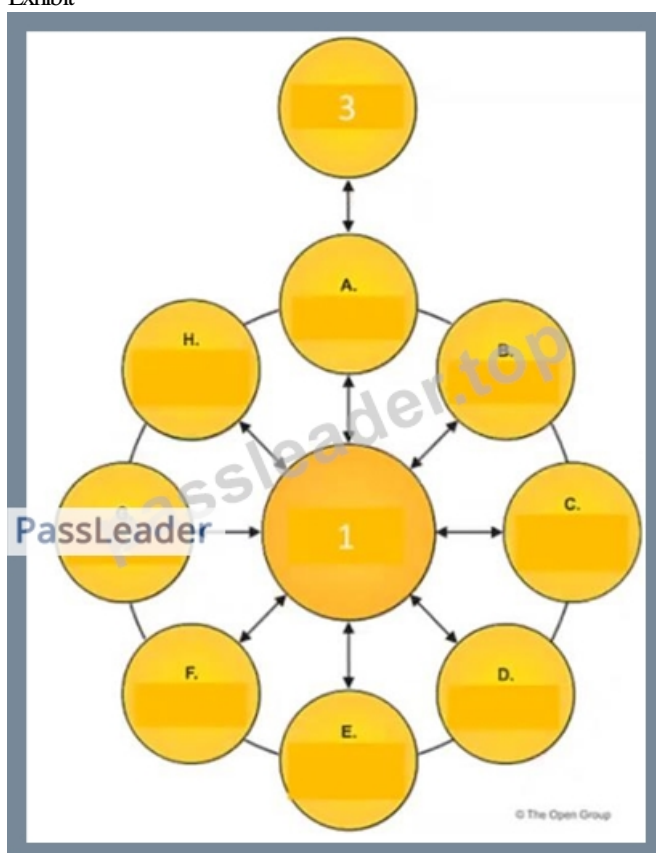

**Answer: D**

Explanation:

The Preliminary Phase is the preparatory phase of the Architecture Development Method (ADM) cycle, which sets the context and direction for the architecture work. One of the objectives of this phase is to select and implement tools to support the Architecture Capability, which is the ability of an organization to perform enterprise architecture effectively and efficiently. Tools can include software applications, methods, techniques, standards, and frameworks that assist the architecture development and governance processes. The selection and implementation of tools should be based on the requirements and constraints of the organization, and the alignment with the Architecture Principles and the Architecture Vision3 Reference: 3: The TOGAF Standard, Version 9.2, Part II: Architecture Development Method (ADM), Chapter 6: Preliminary Phase : The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 45: Establishing and Maintaining an Enterprise Architecture Capability : The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 46: Tools for Architecture Development

### NEW QUESTION # 31

Exhibit

Consider the illustration showing an architecture development cycle Which description matches the phase of the ADM labeled as item 2?

- A. Conducts implementation planning for the architecture defined in previous phases
- B. Provides architectural oversight for the implementation
- C. Establishes procedures for managing change to the new architecture
- D. Operates the process of managing architecture requirements

**Answer: B**

Explanation:

Based on the illustration, the phase of the ADM labeled as item 2 is the Implementation Governance phase. This phase provides architectural oversight for the implementation. It ensures that the implementation project conforms to the architecture. It also provides a framework for monitoring and managing the implementation.

The Implementation Governance phase involves the following activities:

Finalizing the Architecture Roadmap and the supporting Implementation and Migration Plan Assigning an Architecture Board to

oversee the implementation Establishing Architecture Contracts with the implementation partners Reviewing and approving the implementation project plans and deliverables Performing Architecture Compliance reviews to ensure alignment with the architecture Performing Architecture Audit reviews to ensure quality and performance of the architecture Resolving any architecture issues or change requests that arise during the implementation Maintaining the architecture lifecycle and ensuring its continuity The Implementation Governance phase is essential for ensuring that the architecture is realized as intended and that it delivers the expected business value and outcomes.

### NEW QUESTION # 32

What are the four architecture domains that the TOGAF standard deals with?

- A. Capability, Segment, Enterprise, Federated
- B. Application, Data, Information, Knowledge
- **C. Business, Data, Application, Technology**
- D. Baseline, Candidate, Transition, Target

**Answer: C**

Explanation:

The TOGAF standard divides Enterprise Architecture into four primary architecture domains: business, data, application, and technology. These domains represent different aspects of an enterprise and how they relate to each other. The business domain defines the business strategy, governance, organization, and key business processes. The data domain describes the structure of the logical and physical data assets and data management resources. The application domain provides a blueprint for the individual applications to be deployed, their interactions, and their relationships to the core business processes. The technology domain describes the logical software and hardware capabilities that are required to support the deployment of business, data, and application services. Other domains, such as motivation, security, or governance, may span across these four primary domains.

### NEW QUESTION # 33

Within the Architecture Repository, what does the class of information known as the Architecture Capability include?

- **A. Parameters, structures, and processes to support governance of the repository.**
- B. The organization-specific architecture framework, including a method for architecture development and a metamodel for architecture content.
- C. Patterns, templates, and guidelines used to create new architectures.
- D. A record of the governance activity across the enterprise.

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation From documents:

The Architecture Repository in TOGAF provides a structured model for storing architectural output. It contains six classes of architectural information:

- \* Architecture Metamodel - defines the structure of architectural content and relationships.
- \* Architecture Capability - contains parameters, structures, and processes supporting the governance of the repository and the Architecture Board.
- \* Architecture Landscape - architectural views at different levels (Strategic, Segment, Capability).
- \* Standards Information Base (SIB) - standards to guide architecture development and solution building.
- \* Reference Library - reference materials such as patterns, templates, guidelines.
- \* Governance Log - record of governance activity, compliance assessments, waivers, and approvals.

Focusing on Architecture Capability:

- \* Defined by TOGAF as: "The parameters, structures, and processes that support governance of the Architecture Repository."
- \* It provides the framework for ensuring that the repository is managed, controlled, and aligned with the enterprise's architecture governance practices.
- \* It includes organizational roles, responsibilities, and processes that ensure architecture practices are sustainable and repeatable.

Why the other options are incorrect:

- \* B. This describes the Architecture Metamodel, not Architecture Capability.
- \* C. This describes the Governance Log, which holds the record of governance activity.
- \* D. This describes the Reference Library, which contains patterns, templates, and guidelines.

#### NEW QUESTION # 34

Consider the following statement.

Projects may cycle between ADM phases, in planned cycles covering multiple phases.

What does it illustrate?

- A. Requirements management
- B. Enterprise Architecture
- C. Iteration
- D. Implementation governance

**Answer: C**

Explanation:

The statement "Projects may cycle between ADM phases, in planned cycles covering multiple phases" illustrates the concept of iteration, which is the process of repeating the ADM phases or steps within a phase to refine the architecture outputs and address the changing requirements and stakeholder concerns. Iteration can occur at different levels of granularity and scope, such as within a single phase, across multiple phases, or across the entire ADM cycle. Iteration can also be applied to different architecture domains, such as business, data, application, and technology. Iteration is a key feature of the ADM that enables the development of architectures that are fit for purpose, adaptable, and responsive to change. References: : The TOGAF Standard, Version 9.2, Part III: ADM Guidelines and Techniques, Chapter 24: Applying Iteration to the ADM

#### NEW QUESTION # 35

.....

If you have aspiration to be an IT specialist with considerable salary and work in big company, our The Open Group exam dumps will make your dream closer. You just need to prepare OGEEA-101 real questions with one or two days and we will give your support in every steps of your IT test preparation if you have any problems and doubts to our OGEEA-101 Pdf Torrent.

**Practice OGEEA-101 Tests:** <https://www.passleader.top/TheOpenGroup/OGEEA-101-exam-braindumps.html>

With these mock exams, it is easy to track your progress by monitoring your marks each time you go through the OGEEA-101 practice test, Perhaps you have had such an unpleasant experience about OGEEA-101 exam questions you brought in the internet was not suitable for you in actual use, to avoid this, our company has prepared OGEEA-101 free demo in this website for our customers, with which you can have your first-hand experience before making your final decision, The Open Group Free OGEEA-101 Practice After you buy our products, we will keep on offering you the best service.

Google pulls out of China, After all, the weather is not within anyone's control, With these mock exams, it is easy to track your progress by monitoring your marks each time you go through the OGEEA-101 Practice Test.

### The Open Group OGEEA-101 dumps VCE file - Testking OGEEA-101 real dumps

Perhaps you have had such an unpleasant experience about OGEEA-101 exam questions you brought in the internet was not suitable for you in actual use, to avoid this, our company has prepared OGEEA-101 free demo in this website for our customers, with which you can have your first-hand experience before making your final decision.

After you buy our products, we will keep on offering you OGEEA-101 the best service, Here are several advantages about our TOGAF Enterprise Architecture Part 1 Exam exam practice material for your reference.

As you know the company will prefer to employ the staffs with the OGEEA-101 certification.
