NEW QUESTION # 81

Configure autoFs

Configure autoFs to automatically mount the home directory of a remote user as described below:

- materials.example.com (172.25.254.254) exports /rhome via NFS to your system. This filesystem contains a pre-configured home directory for the user remotemailer1.

- The home directory of remotemailer1 is materials.example.com/rhome/remotemailer1.

- The home directory of remotemailer1 should be automatically mounted locally at /rhome/remotemailer1.

- The home directory must be writable by the user.

- The password for remotemailer1 is "flectrag".

Answer:

Explanation:

```
# Preparations (not required for the exam)
```

```
# Go back to foundation0, remote into classroom, create the remotemailer1 user and directory.
