Our 3V0-32.23 Exam Questions are able to solve all your problems of preparing the exam. Of course, our study materials are able to shorten your learning time. You will have more spare time to do other things. And we can ensure you to pass the 3V0-32.23 exam.

VMware Cloud Management and Automation Advanced Design Sample Questions (Q207-Q212):

NEW QUESTION # 207

The architect for a software defined data center (SDDC) project is implementing a vRealize Automation solution. The company has multiple locations but wants management to be centralized in its main offices. Each of the cities needs to have its own roles to ensure resources, create blueprints and perform daily functions.

Which design recommendation would meet the requirements of this scenario?

- A. Create a single business group and separate the users from the various cities using entitlements.
- B. Create a single tenant for all of the cities and separate the users from the various cities using entitlements.
- C. Create a business group for each of the cities and create a single tenant for all of the cities.
- D. Create a tenant for each of the cities and create a single business group for all of the cities.

Answer: D

NEW QUESTION # 208

A Cloud Architect is tasked with publishing a vRealize Automation catalog item that enables Human Resources (HR) personnel to provision Active Directory user accounts. HR will continue to use vRealize Automation to make changes to the user accounts after initial creation.

Which two components must be included in this design? (Choose two.)

- A. Custom Property
- B. Resource Mapping
- C. Resource Action
- D. Custom Resource

Answer: C,D

NEW QUESTION # 209

Development team members would like to deploy multiple software packages within a blueprint. One of these software packages, Tax Processing 1.0, has licensing requirements. Any member of the finance team can authorize the installation per request, but the entire team must be notified.

Which approval policies would satisfy this request?

A.

- Policy Type: Service Catalog - Catalog Item Request - Software Component
- Item: Tax Processing 1.0
- When is Approval Required = Always
- Approvers = Finance team
- All Must Approve

B.

- Policy Type: Service Catalog - Catalog Item Request - Software Component
- Item: Tax Processing 1.0
- When is Approval Required = Always
- Approvers = Finance team
- Anyone can Approve

C.

- Policy Type: Service Catalog - Catalog Item Request
- Item: Tax Processing 1.0
- When is Approval Required = Always
- Approvers = Finance team
- Anyone can Approve

D.

- Policy Type: Service Catalog - Catalog Item Request - Software Component
- When is Approval Required = (Single Clause)
- Business Group = Development Team
- Approvers = Finance team
- Anyone can Approve

- A. Option A
- B. Option D
- C. Option B
- D. Option C

Answer: C

NEW QUESTION # 210

In the context of a Cloud Management logical design, how does VMware Aria Automation contribute to efficiency?

- A. Automating repetitive tasks and workflows
- B. Monitoring server temperature and humidity
- C. Managing customer relationship databases
- D. Streamlining procurement of physical servers

Answer: A

NEW QUESTION # 211

A cloud architect is tasked with designing a single blueprint solution to reduce vRealize Automation blueprint sprawl caused by large numbers of virtual machine (VM) templates.

What should the architect do to achieve the desired results?

- A. Create custom properties CloneFrom and CloneFromID in the business group for group-specific default values for a VM
