## Oracle Eloqua Marketing 2025 Implementation Professional Sample Questions (Q35-Q40):

### NEW QUESTION # 35

How can data filters be used in custom reports in Oracle Eloqua?

- A. Data filters enable users to exclude specific data from the report.
- B. Data filters can only be applied to pre-defined report templates.
- C. Data filters allow users to narrow down the report results based on specific criteria.
- D. Data filters can only be applied to numerical data fields.

**Answer: C**

Explanation:

In Oracle Eloqua custom reports, users can apply data filters to refine the report results based on specific criteria. These filters can be used to include or exclude data that meets certain conditions, such as filtering by date range, campaign name, contact status, or any other available data field. This feature helps users focus on the specific data they need for analysis or reporting.

### NEW QUESTION # 36

What is the primary purpose of creating users in Oracle Eloqua?

- A. To assign specific roles and permissions to individuals and control their access to features and data within Oracle Eloqua.
- B. To define user groups and their hierarchy within Oracle Eloqua.
- C. To import and export user data between Oracle Eloqua and third-party applications.
- D. To customize the appearance of the Oracle Eloqua user interface for each individual user.

**Answer: A**

Explanation:

The primary purpose of creating users in Oracle Eloqua is to assign specific roles and permissions to individuals. This allows administrators to control the level of access each user has to different features and data within the platform. By assigning roles and permissions, administrators can ensure that users only have access to the functionalities that are necessary for their job responsibilities.

### NEW QUESTION # 37

- A. By linking to external form builder tools.
- B. By importing a pre-designed form template into the microsite.
- C. By manually creating the forms within the microsite elements.
- D. By embedding HTML code provided by Eloqua into the microsite pages.

**Answer: D**

Explanation:

To integrate Oracle Eloqua forms into a microsite, you need to embed the HTML code provided by Eloqua into the microsite's pages. This allows the form to be rendered and function within the microsite, capturing data and triggering marketing automation workflows. Remember, these practice

### NEW QUESTION # 38

How many attendees are typically required for an Oracle Eloqua marketing implementation?

- A. Two

- B. One
- C. Three
- D. It varies depending on the size and complexity of the implementation

**Answer: D**

Explanation:

The number of attendees required for an Oracle Eloqua marketing implementation can vary depending on the size and complexity of the project. Smaller implementations may only require one or two attendees, while larger and more complex implementations might require a team of three or more individuals with various roles and expertise. The number of attendees should be determined based on the specific needs and requirements of each implementation project.

#### **NEW QUESTION # 39**

What is the purpose of the form processing step in a form configuration?

- A. To store the form data in the Eloqua database.
- B. To redirect the user to a different webpage after form submission.
- C. To validate the form data submitted by the user.
- D. To send an automated confirmation email to the user.

**Answer: A**

Explanation:

The form processing step in a form configuration is responsible for storing the form data in the Eloqua database. This allows marketers to access and analyze the data collected from the form submissions. The stored data can be used for various purposes like lead nurturing, segmentation, and campaign targeting.
