We own three versions of the PSP exam torrent for you to choose. They conclude PDF version, PC version and APP online version. You can choose the most convenient version of the PSP quiz torrent. The three versions of the PSP test prep boost different strengths and you can find the most appropriate choice. For example, the PDF version is convenient for download and printing and is easy and convenient for review and learning. It can be printed into papers and is convenient to make notes. You can learn the PSP Test Prep at any time or place and repeatedly practice. The version has no limit for the amount of the persons and times. The PC version of PSP quiz torrent is suitable for the computer with Windows system. It can simulate real operation exam atmosphere and simulate exams.

ASIS PSP (ASIS Physical Security Professional) exam is designed to test an individual's knowledge in the field of physical security. PSP exam covers a broad range of topics, including risk assessment, security management, and emergency preparedness. The ASIS PSP certification is highly regarded within the security industry and is recognized as a mark of excellence in the field.

ASIS PSP certification is an excellent way for security professionals to demonstrate their expertise in physical security management. It is a challenging exam that requires dedicated study and preparation, but the rewards are well worth the effort. With the PSP Certification, individuals can enhance their career opportunities, increase their earning potential, and gain the respect of their peers in the security industry.

Exam PSP Training - Reliable PSP Test Prep

As we all know it is not easy to obtain the PSP certification, and especially for those who cannot make full use of their sporadic time. But you are lucky, we can provide you with well-rounded services on PSP practice braindumps to help you improve ability. You would be very pleased and thankful if you can spare your time to have a look about features of our PSP Study Materials. With the pass rate high as 98% to 100%, you can totally rely on our PSP exam questions.

ASIS Physical Security Professional Exam Sample Questions (Q179-Q184):

NEW QUESTION # 179

When sudden widespread destruction of data both on the computer system and on the peripheral devices occurs, the machine is possibly infected with a:

- A. Hostile worm
- B. Innocuous Bug
- C. Catastrophic Virus
- D. Trojan Horse

Answer: C

NEW QUESTION # 180

In an earned value-based system, a schedule performance index of less than one for the project indicates the project is:

- A. on schedule
- B. ahead of schedule
- C. complete
- D. behind schedule

Answer: D

Explanation:

Understanding Schedule Performance Index (SPI):

* SPI is calculated as $SPI = \frac{BCWP}{BCWS}$, where BCWP is the budgeted cost of work performed, and BCWS is the budgeted cost of work scheduled.

* SPI < 1 indicates that the project is progressing slower than planned, meaning it is behind schedule.

Evaluation of Other Options:

* A: SPI > 1 would indicate the project is ahead of schedule.

* B: SPI = 1 implies the project is on schedule.

* C: Completion is not relevant to SPI.

Verification with PSP Guidelines:

PSP emphasizes SPI as a key metric in earned value management (Ref: PSP Study Guide, Chapter 1D: Earned Value Analysis).

NEW QUESTION # 181

Which of the following parties is NOT a stakeholder of the Spring Highway project?

- A. ALPHA
- B. GOUGE
- C. BILCO
- D. DEVCO

Answer: B

Explanation:

Understanding Stakeholders:

* A stakeholder is any individual, group, or entity that has an interest or is affected by the project's outcome, whether directly or indirectly.

* Stakeholders typically include the owner, contractors, subcontractors, suppliers, designers, public agencies, and other entities directly involved in or impacted by the project.

Analysis of the Options:

* A. ALPHA:

* ALPHA appears to be one of the stakeholders involved in the Spring Highway project, likely as a contractor, subcontractor, or project participant.

* B. GOUGE:

* GOUGE does not appear to be directly associated with the Spring Highway project based on the provided context. It may be a separate entity unrelated to the stakeholders participating in or impacted by the project.

* GOUGE is NOT a stakeholder in this project.

* C. BILCO:

* BILCO is likely involved as a contractor, subcontractor, or another project-related entity with direct involvement in delivering the Spring Highway project.

* D. DEVCO:

* DEVCO could be the project developer or a significant stakeholder involved in managing, funding, or overseeing the Spring Highway project.

Stakeholder Determination:

* Based on the definitions and principles of stakeholder analysis in project management, GOUGE is not identified as a party involved in or affected by the project.

* Therefore, GOUGE is NOT a stakeholder.

Final Answer and Justification:

* The correct answer is B. GOUGE, as it is the only option that does not align with the definition of a stakeholder based on involvement in the Spring Highway project.

Study Guide Reference:

* Refer to the PSP Certification Study Guide, Chapter 1 - Planning, Subchapter 1.1.2: Identification of Stakeholders (p. 23-26), which outlines the roles and impacts of stakeholders in project planning.
* Also, refer to AACE Recommended Practice 119R-21: Stakeholder Management in Project Controls, which discusses stakeholder identification and roles.

NEW QUESTION # 182

Constraints control events or activities that _____.

- A. May be over-ridden by activity logic.
- B. Affect only the backward pass.
- C. Are not based on project relationships.
- D. Affect only the forward pass.

Answer: A

NEW QUESTION # 183

Which of the following risks CANNOT be estimated by BILCO with only a resource-loaded schedule?

- A. Delay due to SDOT's other projects
- B. Delay due to labor shortage
- C. Liquidated damages on the SDOT contract
- D. Cost overruns due to cement shortage

Answer: A

Explanation:

Understanding the Problem:

* The question asks which risk cannot be estimated using only a resource-loaded schedule.
* A resource-loaded schedule contains detailed information about activities, resources (labor, materials, equipment), and their associated costs but does not provide external information unrelated to project resources.

Analysis of Each Option:

* A. Delay due to SDOT's other projects:

* This risk depends on external factors beyond the control or visibility of the resource-loaded schedule, such as project interactions, priorities, or resource allocation managed by SDOT (the State Department of Transportation).

* A resource-loaded schedule cannot estimate this delay, as it does not account for external dependencies or priorities outside the project's scope.

* This is the correct answer.

* B. Delay due to labor shortage:

* A resource-loaded schedule tracks labor availability and allocation. By analyzing resource constraints, it can estimate potential delays due to labor shortages.

* This risk can be estimated using the schedule.

* C. Liquidated damages on the SDOT contract:

* Liquidated damages are linked to project delays. A resource-loaded schedule can estimate the delay impact and calculate potential damages based on contract terms.

* This risk can be estimated.

* D. Cost overruns due to cement shortage:

* Cement shortages directly affect the material resource allocations in the schedule. A resource-loaded schedule can estimate cost overruns by analyzing material usage and constraints.

* This risk can be estimated.

Final Answer and Justification:

* Option A is correct because a resource-loaded schedule cannot consider or predict delays caused by external projects managed by other entities like SDOT.

* All other risks relate to project resources or scheduling, which can be analyzed using a resource-loaded schedule.

Study Guide Reference:

* Refer to the PSP Certification Study Guide, Chapter 2 - Scheduling, sections on Schedule Maintenance and Risk Analysis (p. 209), and Resource-Constrained Scheduling (p. 163).

* AACE Recommended Practice 57R-09: "Integrated Cost and Schedule Risk Analysis" provides additional insights into risks measurable through schedules.

NEW QUESTION # 184

.....

Undoubtedly, passing the ASIS PSP certification exam is one big achievement. Regardless of how tough the PSP exam is, it serves an important purpose of improving your skills and knowledge of a specific field. Once you become certified by ASIS PSP, a whole new career scope will open up to you.
