

2V0-17.25 Schulungsangebot - 2V0-17.25 Simulationsfragen & 2V0-17.25 kostenlos downloaden

Pass VMware 2V0-17.25 Exam | Latest 2V0-17.25 Dumps & Practice Exams - Cert007

1.DRAG DROP

Put the following steps in the correct order to optimize resource allocation using Aria Operations.

Navigate to the "Capacity Management" section.	Monitor the environment to ensure optimized resource utilization.	Use the recommendations provided by Aria Operations to reallocate resources.	Select the cluster or resource pool to analyze.	Review the capacity dashboard and identify over- or under-utilized resources.	Log in to Aria Operations.
Step 1	Step 2	Step 3	Step 4	Step 5	Step 6

Answer:

Navigate to the "Capacity Management" section.	Monitor the environment to ensure optimized resource utilization.	Use the recommendations provided by Aria Operations to reallocate resources.	Select the cluster or resource pool to analyze.	Review the capacity dashboard and identify over- or under-utilized resources.	Log in to Aria Operations.
Step 1	Step 2	Step 3	Step 4	Step 5	Step 6

2.DRAG DROP

Match each troubleshooting task with its relevant procedure or tool.

Tasks	Procedures/Tools
Setting a host in maintenance mode	Use the Certificate Manager tool
Resolve host connectivity issues	Right-click the host and select "Enter Maintenance Mode"
Resolve certificate issues	Check physical connections and network configuration
Troubleshoot snapshot issues	Check for orphaned snapshots and consolidate if necessary

Answer:

2 / 11

Heutzutage, wo Zeit in dieser Gesellschaft sehr geschätzt wird, schlage ich Ihnen vor, die effizienten VMware 2V0-17.25 (VMware Cloud Foundation 9.0 Administrator) Fragenkataloge von Zertpruefung zu wählen. Sie können mit weniger Zeit und Geld die VMware 2V0-17.25 Zertifizierungsprüfung nur einmalig bestehen können.

Die VMware 2V0-17.25 Zertifizierungsprüfung ist eine der wertvollsten zeitgenössischen Zertifizierungsprüfung. In den letzten Jahrzehnten ist die Computer-Ausbildung schon ein Fokus geworden. Sie ist ein notwendiger Bestandteil der Informations-Technologie im IT-Bereich. So legen viele IT-fachleute diese Prüfung ab, um ihr Wissen zu erweitern und einen Durchbruch in allen Bereichen zu verschaffen. Und unsere Fragen und Antworten zur VMware 2V0-17.25 Zertifizierungsprüfung sind genau das, was sie brauchen. Dennoch ist es schwer, diesen Test zu bestehen. Wählen Sie die entsprechende Abkürzung, um Erfolg zu garantieren. Wählen Sie Zertpruefung, kommt der Erfolg auf Sie zu. Die Fragen und Antworten zur VMware 2V0-17.25 Zerzifizierung von Zertpruefung werden von den IT-Eliten nach ihren Erfahrungen und Praxien bearbeitet und haben die Zertifizierungserfahrung von mehr als zehn Jahren.

2V0-17.25 Übungsmaterialien, 2V0-17.25 Vorbereitungsfragen

Wollen Sie Ihre Fähigkeit beim Lernen der VMware 2V0-17.25 Zertifizierungsunterlagen verbessern und sich von anderen besser anerkannt? VMware Prüfungen helfen Ihnen, Ihre Fähigkeit zu verbessern. Wenn Sie die 2V0-17.25 Zertifizierung besitzen, können

Sie Ihre Arbeit besser erledigen. Obwohl die 2V0-17.25 Prüfung sehr schwierig ist, können Sie sich nicht um die Vorbereitung der Prüfung sorgen. Nach der Nutzung der Zertpruefung 2V0-17.25 Dumps können Sie die VMware 2V0-17.25 Prüfung zu bestehen und auch die entsprechenden Kenntnisse beherrschen.

VMware 2V0-17.25 Prüfungsplan:

Thema	Einzelheiten
Thema 1	IT Architectures, Technologies, Standards: This section of the exam measures the skills of Cloud Architects and focuses on understanding the broader context of IT architectures, common technologies, and industry standards. While it does not have testable objectives, it sets the foundation for how VMware Cloud Foundation aligns with enterprise cloud strategies.
Thema 2	VMware Cloud Foundation Fundamentals: This section of the exam measures the skills of Private Cloud Engineers and covers the basic building blocks of VMware Cloud Foundation. It includes the vision and use cases for private cloud, along with the value it provides to businesses. Candidates are expected to understand compute fundamentals such as deploying and managing vCenter, ESXi, clusters, and virtual machines. Storage fundamentals include configuring vSphere storage, setting up vSAN clusters, applying storage policies, and understanding resilience options. Networking fundamentals are also assessed, with a focus on configuring connectivity, fabrics, routing, and network services in a VMware environment.
Thema 3	Deploy, Configure, and Operate VMware Cloud Foundation (VCF): This section of the exam measures the skills of VCF Administrators and goes in-depth into deploying, configuring, and managing VMware Cloud Foundation. The deployment portion covers identifying deployment models, configuring private cloud environments, and setting up workload domains and networking. The management objectives focus on lifecycle operations such as fleet management, identity and role-based access, licensing, certificate handling, and importing existing vCenters. Operations are assessed through capabilities like monitoring health, logs, networks, and storage, along with creating dashboards, configuring alerts, and ensuring compliance. The automation portion evaluates skills in using VCF Automation for multi-tenancy, provider networking, content libraries, governance policies, and extensibility to automate business processes. It also includes knowledge of deploying Supervisor-based services within Cloud Foundation.
Thema 4	Plan and Design the VMware by Broadcom Solution: This section of the exam measures the skills of Solution Designers and emphasizes the ability to plan and design VMware by Broadcom solutions. Although no testable objectives are defined here, it reinforces the importance of architectural planning and design considerations for large-scale cloud deployments.

VMware Cloud Foundation 9.0 Administrator 2V0-17.25 Prüfungsfragen mit Lösungen (Q51-Q56):

51. Frage

An administrator is using VMware Aria Automation to automate the provisioning of virtual machines in their VMware Cloud Foundation environment. They notice that the automation workflows are failing frequently and want to troubleshoot the issue. What step should the administrator take in VMware Aria Operations for Logs to diagnose the cause of the automation workflow failures?

- A. Use the Interactive Analytics feature to search for error messages related to the workflows.
- B. Check the Audit Logs to see if there are any unauthorized access attempts.
- C. Review the Alert Definitions to ensure alerts for workflow failures are configured.
- D. Access the Dashboard to get an overview of system health and performance metrics.

Antwort: A

Begründung:

To diagnose the cause of automation workflow failures in VMware Aria Automation, the Interactive Analytics feature in VMware Aria Operations for Logs allows administrators to search for error messages and filter logs related to the specific workflows. This feature enables detailed analysis of log data to identify any underlying issues causing the failures.

52. Frage

An administrator needs to track changes in VM hardware configuration over time for compliance.

Which vSphere feature can provide a historical record of modifications such as CPU, memory, or network interface changes?

- A. Host Profiles
- **B. vCenter Events and Tasks**
- C. vSphere HA Alarms
- D. Resource Pools

Antwort: B

Begründung:

vCenter Events and Tasks record modifications like VM hardware reconfigurations. Host Profiles (B) are for host-level configs, Resource Pools (C) manage compute shares/limits, and HA Alarms (D) focus on failover events.

53. Frage

An administrator is deploying an NSX Edge cluster from SDDC Manager. The administrator plans to configure the Border Gateway Protocol (BGP) to enable dynamic routing with the upstream physical networking.

Which three values must be provided when configuring BGP? (Choose three.)

- **A. BGP Router ID**
- **B. BGP Peer IP**
- **C. BGP Autonomous System Number (ASN)**
- D. BGP Password
- E. BGP Route Topology

Antwort: A,B,C

Begründung:

The BGP Autonomous System Number (ASN) is a unique identifier that must be configured for BGP to define the routing domain. The BGP Router ID is used to uniquely identify the BGP router in the network. The BGP Peer IP is required to establish a BGP peering relationship with an upstream router or another BGP-enabled device.

54. Frage

Which Container Network Interface (CNI) is selected by default in a VMware Kubernetes Service (VKS) workload cluster?

- **A. Antrea**
- B. Calico
- C. Flannel
- D. Cilium

Antwort: A

Begründung:

The VCF 9.0 Kubernetes Service documentation confirms that Antrea is the default CNI used for VMware Kubernetes Service (VKS) workload clusters.

"When deploying a new VKS workload cluster, the Antrea Container Networking Interface is automatically enabled by default to provide pod-to-pod and pod-to-service networking. Antrea is fully integrated with NSX-T for advanced policy control." Flannel, Calico, and Cilium are widely used CNIs in upstream Kubernetes but are not the default in VCF. Administrators can optionally integrate with third-party CNIs, but the supported default choice is Antrea.

55. Frage

A virtual private cloud administrator is regularly tasked to provision and manage new application workloads with dedicated subnets.

Which two capabilities of VMware Cloud Foundation (VCF) can be used to alleviate the workload of the administrator with minimal interaction with the networking team? (Choose two.)

- A. Configure vSAN storage policies for each application.
- **B. Use of NSX overlay networks.**

- C. Deploy Aria Automation to enable self-service provisioning.
- D. Use vSphere Resource Pools to allocate networking resources to different applications.

Antwort: B,C

Begründung:

Deploying VMware Aria Automation enables self-service blueprints that allow the administrator or application owners to provision workloads, including dedicated networks, without direct requests to the networking team.

NSX overlay networks decouple the virtual network from the physical underlay, enabling the creation of tenant-specific subnets on demand without changes to the physical network.

56. Frage

Das Leben ist mit den Wahlen gefüllt. Wahl kann nicht unbedingt Ihnen das absolute Glück bringen, aber sie kann Ihnen viele Chancen bringen. Wenn Sie die Chance verpasst haben, können Sie nur bereuen. Die Fragenpool zur VMware 2V0-17.25 Zertifizierungsprüfung von Zertpruefung sind die Grundbedarfsbedürfnisse für jeden Kandidaten. Mit ihr können Sie alle Probleme lösen. Die Fragenpool zur VMware 2V0-17.25 Zertifizierungsprüfung von Zertpruefung sind umfassend und zielgerichtet, am schnellsten aktualisiert und die vollständigsten. Mit Zertpruefung brauchen Sie sich nicht mehr um die 2V0-17.25 Zertifizierungsprüfung befürchten. Sie werden alle 2V0-17.25 Prüfungen ganz mühelos bestehen.
