Trustworthy C-S4TM-2023 Dumps - C-S4TM-2023 Exam Sample

The price for C-S4TM-2023 exam torrent is quite reasonable, you can afford it no matter you are a student or you are an employee in the company. You just need to spend some money, and you can get a certificate. In addition, C-S4TM-2023 exam dumps are high-quality and accuracy, and you can pass the exam successfully by using them. We also pass guarantee and money back guarantee for your failure of the exam after using C-S4TM-2023 Exam Dumps. We offer you free update for 365 days after purchasing, and the update version will be sent to your email address automatically.

SAP C-S4TM-2023 Exam Syllabus Topics:

Topic	Details
Topic 1	• Charge Calculation & Freight Settlement: Setup, integration, and cost distribution are the key sub-topics here. This topic also covers freight contracts and strategic procurement and selling.
Topic 2	• Master Data: Master data definition, including logistical and financial data, is essential for effective transportation management and is covered here.

Topic 3	• SAP Transportation Management Overview and Fundamentals: This topic covers the general processes and functional areas of SAP Transportation Management, including external and embedded systems. It also discusses transportation tasks and their management.
Topic 4	• Transportation Planning: The sub-topics here include network setup, profile configuration, and VSR optimizer calibration for automatic planning, all essential for efficient transportation planning.
Topic 5	• Freight Order Management: Carrier selection, tendering, freight documents, and integrations are covered here. This topic also includes communication with external and internal parties, a key aspect of freight order management.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition - Transportation Management Sample Questions (Q48-Q53):

NEW QUESTION # 48

A carrier has an agreement with a shipper that starts on January 1 for fuel price as 5% of the base freight. The fuel surcharge is pegged to the current price of 3 USD a gallon. The fuel surcharge can change proportionally based on the fuel price on the calculation date. How will you define fuel surcharge calculation in transportation management? Note: There are 2 correct answers to this question.

- A. Use the rating amount or a standard rate table for the fuel surcharge.
- B. Use a rate table for the fuel surcharge with calculation date as a scale.
- C. Use an index table for the fuel surcharge charge item.
- D. Use a determination rule for the index rate table.

Answer: C,D

Explanation:
In SAP S/4HANA Transportation Management, fuel surcharges that vary based on fuel price changes are managed using dynamic calculation methods. According to the SAP documentation:
* Use an index table for the fuel surcharge charge item (A): An index table is used to store fuel price indices (e.g., pegged to 3 USD per gallon) and calculate the surcharge as a percentage (5%) of the base freight, adjusted based on the current fuel price.
* Use a determination rule for the index rate table (D): A determination rule is required to select the appropriate index table based on conditions, such as the calculation date or agreement validity, ensuring the correct fuel price is applied.
The other options are incorrect:
* Use the rating amount or a standard rate table for the fuel surcharge (B) is not suitable, as standard rate tables do not dynamically adjust based on fuel price indices.
* Use a rate table for the fuel surcharge with calculation date as a scale (C) is not typically used, as index tables are preferred for dynamic fuel surcharge calculations.

NEW QUESTION # 49

What is not necessarily the same customer who receives the goods or is responsible for paying the invoice? Please choose the correct answer.

- A. Link enterprise processes and master data
- B. Performance needed to succeed
- C. The customer who places the order
- D. Single version of the truth

Answer: C

NEW QUESTION # 50
Which of the following are functions of a consignment order? Note: There are 2 correct answers to this question.

- A. Charge calculation
- B. Load planning
- C. Tendering
- D. Subcontracting

Answer: A,D

Explanation:
Transportation Management Overview and Fundamentals

NEW QUESTION # 51
What can initiate the creation of a forwarding agreement quotation?
Note; There are 2 correct answers to this question

- A. CRM opportunity
- B. Freight agreement
- C. Forwarding agreement quotation assignment
- D. Freight agreement request for quotation (RFQ)

Answer: A,C

NEW QUESTION # 52
You want to print a road waybill document, a loading list, and labels for your freight orders with freight order type FOT1. You also want to send emails and XML messages to the carriers of freight orders of this type.
What is the MINIMUM number of PPF (Post-Processing Framework) action profiles that you need to define for this purpose?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:
In SAP S/4HANA Transportation Management, the Post-Processing Framework (PPF) is used to automate actions such as printing documents, sending emails, and generating XML messages. According to the SAP documentation, a single PPF action profile can be assigned to a freight order type (e.g., FOT1) and can include multiple actions, such as printing a road waybill, printing a loading list, printing labels, sending emails, and sending XML messages. Each action is defined within the action profile, and the profile is then linked to the freight order type in Customizing. Since all the required actions (printing documents and sending messages) can be configured within one action profile, the minimum number of PPF action profiles needed is1
.
The other options are incorrect:
* A (4), C (2), and D (3)suggest multiple action profiles, which are unnecessary since a single profile can handle all actions.
