## Pass Guaranteed NEX - High Hit-Rate Test Nursing Entrance Exam (Math, Science and Verbal) Valid

As a market leader, our company is able to attract quality staffs on our NEX exam materials , it actively seeks out those who are energetic, persistent, and professional to various NEX certificate and good communicator. And we believe that the key of our company's success is its people, skills, and experience on NEX Study Guide. Over 50% of the account executives and directors have been with the Group for more than ten years. We have strong strenght to lead you to success!

## NLN Nursing Entrance Exam (Math, Science and Verbal) Sample Questions (Q17-Q22):

### NEW QUESTION # 17

Word Knowledge

The word "restrict" most nearly means:

- A. Limit
- B. Allow
- C. Encourage
- D. Expand

**Answer: A**

Explanation:

Restrict means to limit or control. Option C is the correct synonym. This word commonly appears in medical and safety contexts.

---

### NEW QUESTION # 18

Word Knowledge

The word "temporary" most nearly means:

- A. Brief
- B. Frequent
- C. Severe
- D. Permanent

**Answer: A**

Explanation:

Temporary refers to something lasting for a short period of time. Option B correctly reflects this meaning.

Recognizing time-related descriptors is common on the NEX exam.

---

### NEW QUESTION # 19

Which activity is the least effective method of preventing the spread of diarrheal infections?

- A. Cleaning hands with an antibacterial solution
- B. Isolating the patient
- C. Wearing a mask
- D. Washing hands with soap and water

**Answer: C**

Explanation:

Diarrheal infections are most often spread through the fecal-oral route, commonly due to contaminated hands, food, or water. Washing hands with soap and water is the most effective method for preventing transmission.

Antibacterial solutions and patient isolation also reduce spread. Wearing a mask is effective for preventing respiratory infections but offers little protection against diarrheal diseases. The NEX Science exam emphasizes appropriate infection-control strategies based on the mode of transmission, making mask use the least effective option in this scenario.

---

### NEW QUESTION # 20

Five samples were taken of a population of four-year-old children.

The table shows the sample sizes and mean heights (cm):

Based on these samples, what is the mean height of the population of four-year-old children?

- A. 0
- B. 1
- C. 104.5
- D. 2

**Answer: C**

Explanation:

This question tests weighted averages. Because the sample sizes are different, you cannot simply average the mean heights. Instead, multiply each sample mean by its sample size, add the results, and divide by the total number of children.

Total children =  $20 + 20 + 25 + 70 + 20 = 155$

Total height =  $(20 \times 95) + (20 \times 100) + (25 \times 100) + (70 \times 110) + (20 \times 105)$

=  $1,900 + 2,000 + 2,500 + 7,700 + 2,100$

= 16,200

Mean height =  $16,200 \div 155 \approx 104.5$  cm

Therefore, option C is correct. The NEX exam frequently tests understanding that larger samples should carry more weight when calculating population estimates.

---

### NEW QUESTION # 21

Reading Comprehension

Passage:

Time management is an important skill for students in demanding programs. Creating schedules, prioritizing tasks, and setting realistic goals can reduce stress and improve academic performance.

Which strategy is mentioned as a way to improve time management?

- A. Avoiding deadlines
- B. Working without schedules
- C. Prioritizing tasks
- D. Studying without breaks

**Answer: C**

Explanation:

The passage discusses several strategies that help improve time management, including creating schedules, prioritizing tasks, and setting realistic goals. Option B directly reflects one of these strategies. The other options contradict or ignore the recommendations in the passage. Avoiding deadlines and working without schedules would worsen time management, and studying without breaks is not mentioned. On the NEX exam, reading comprehension questions often focus on identifying practical strategies or recommendations explicitly stated in the passage. Selecting prioritizing tasks demonstrates accurate understanding of the author's suggestions.

---

## NEW QUESTION # 22

.....

Up to now, more than 98 percent of buyers of our NEX practice braindumps have passed it successfully. And our NEX training materials can be classified into three versions: the PDF, the software and the app version. Though the content is the same, but the displays are different due to the different study habits of our customers. So we give emphasis on your goals, and higher quality of our NEX Actual Exam.
