Our FCSS\_SDW\_AR-7.6 study guide provides free trial services, so that you can gain some information about our study contents, topics and how to make full use of the software before purchasing. It's a good way for you to choose what kind of FCSS\_SDW\_AR-7.6 test prep is suitable and make the right choice to avoid unnecessary waste. Besides, if you have any trouble in the purchasing FCSS\_SDW\_AR-7.6 practice torrent or trial process, you can contact us immediately and we will provide professional experts to help you online on the FCSS\_SDW\_AR-7.6 learning materials.

We all known that most candidates will worry about the quality of our product, In order to guarantee quality of our study materials, all workers of our company are working together, just for a common goal, to produce a high-quality product; it is our FCSS\_SDW\_AR-7.6 exam questions. If you purchase our FCSS\_SDW\_AR-7.6 Guide Torrent, we can guarantee that we will provide you with quality products, reasonable price and professional after sales service. I think our FCSS\_SDW\_AR-7.6 test torrent will be a better choice for you than other study materials.

## FCSS\_SDW\_AR-7.6 Practice Exam Questions | FCSS\_SDW\_AR-7.6 Valid Dumps Files

With all FCSS\_SDW\_AR-7.6 practice materials being brisk in the international market, our FCSS\_SDW\_AR-7.6 practice materials are quite catches with top-ranking quality. But we do not stop the pace of making advancement by following the questions closely according to exam. So our experts make new update as supplementary updates. During your transitional phrase to the ultimate aim, our FCSS\_SDW\_AR-7.6 practice materials as well as these updates are referential. Those materials can secede you from tremendous materials with least time and quickest pace based on your own drive and practice to win. Those updates will be sent to you accordingly for one year freely.

## Fortinet FCSS - SD-WAN 7.6 Architect Sample Questions (Q91-Q96):

### NEW QUESTION # 91

The SD-WAN overlay template helps to prepare SD-WAN deployments. To complete the tasks performed by the SD-WAN overlay template, the administrator must perform some post-run tasks.

What are two mandatory post-run tasks that must be performed? (Choose two.)

- A. Create policy packages and assign them to the branch devices.
- B. Assign a hub id metadata variable to each hub device.
- C. Configure SD-WAN rules.
- D. Assign an sdwan\_id metadata variable to each device (branch and hub).
- E. Configure routing through the overlay tunnels created by the SD-WAN overlay template.

**Answer: A,C**

Explanation:

On page 76 in the Study Guide:

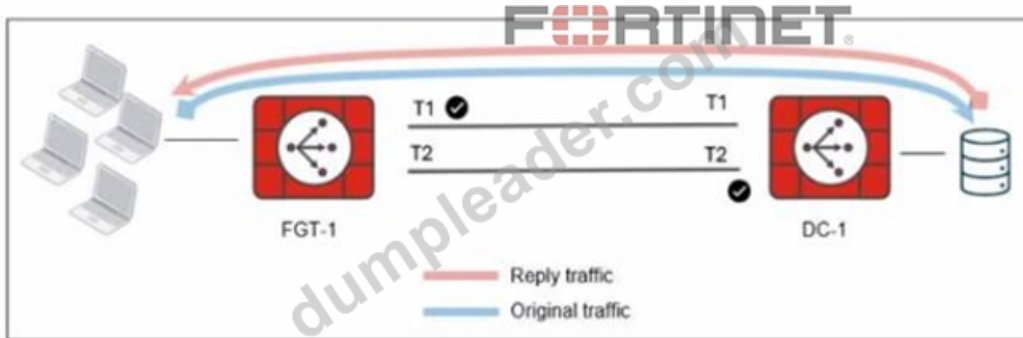

"You must define a unique branch ID value for each branch device"

"Mandatory . . .

- Configure the SD-WAN rules by editing the SD-WAN template
- Create policy packages for branch and hub devices"

### NEW QUESTION # 92

Refer to the exhibit.

The administrator analyzed the traffic between a branch FortiGate and the server located in the data center, and noticed the behavior shown in the diagram.

When the LAN clients located behind FGT1 establish a session to a server behind DC-1, the administrator observes that, on DC-1, the reply traffic is routed over T2, even though T1 is the preferred member in the matching SD-WAN rule.

What can the administrator do to instruct DC-1 to route the reply traffic through the member with the best performance?

- A. Enable snat-route-change under config system global.
- **B. Enable reply-session under config system sdwan.**
- C. Enable auxiliary-session under config system settings.
- D. FortiGate route lookup for reply traffic only considers routes over the original ingress interface.

**Answer: B**

Explanation:

When asymmetric routing is observed (such as reply traffic not following the optimal path), the solution is:

"The auxiliary-session feature, enabled under config system settings, allows FortiGate to consider multiple egress interfaces for reply traffic, not just the original ingress interface. This is crucial for SD-WAN environments where the best path may differ between forward and return directions, especially when performance or policy rules are dynamically evaluated." Activating this ensures reply traffic is always sent on the member with the best real-time metrics.

### NEW QUESTION # 93

Refer to the exhibit. The exhibit shows the details of a session and the index numbers of some relevant interfaces on a FortiGate device that supports hardware offloading.

Based on the information shown in the exhibits, which two conclusions can you draw? (Choose two.)

- A. The original direction of the symmetric traffic flows from port3 to port2.
- B. By default, FortiGate offloads symmetric and asymmetric flows.
- C. The reply direction of the asymmetric traffic flows from port2 to port3.
- D. The auxiliary session can be offloaded to hardware.

**Answer: C,D**

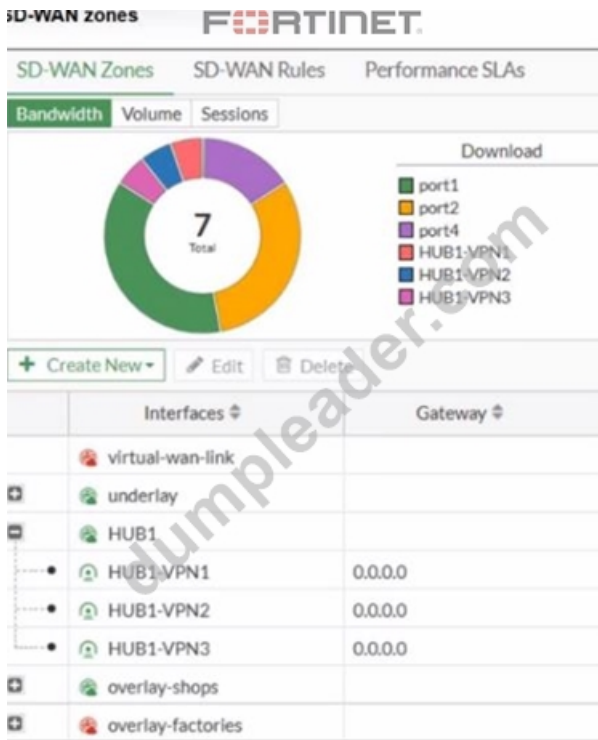

Explanation:

The session output shows reflect info: dev=7->6/6->7. From the netlink list, index 6 = port2 and 7 = port3, so the reply direction of the asymmetric (auxiliary) session is port2 → port3.

The auxiliary session has npu info ... offload=8/8 (non-zero), indicating it can be offloaded to hardware.

## NEW QUESTION # 94

Exhibit.

Refer to the exhibit, which shows an SD-WAN zone configuration on the FortiGate GUI. What can you conclude about the zone and member configuration on this device?

- A. The underlay zone contains three members.
- **B. The overlay-factories zone contains no member.**
- C. You can move HUB1-VPN3 from the HUB1 zone to the overlay-shops zone.
- D. You can delete the virtual-wan-link zones.

**Answer: B**

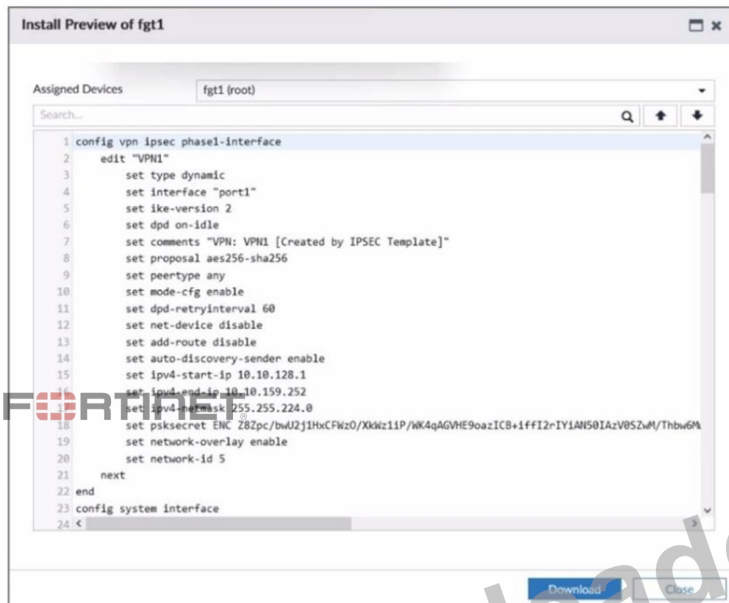

Explanation:

In the SD-WAN GUI, the absence of members in a zone is visually represented, and the Fortinet guide confirms:

"If a zone such as overlay-factories contains no members, it will be displayed as empty in the SD-WAN GUI. This may occur when the zone is reserved for future expansion, or if members have been temporarily removed for maintenance or reconfiguration. Traffic cannot be steered via an empty zone until at least one SD-WAN member is added." Such visual cues help operators quickly assess configuration status and readiness.

## NEW QUESTION # 95

Refer to the exhibit.

The administrator used the SD-WAN overlay template to prepare an IPsec tunnels configuration for a hub-and-spoke SD-WAN topology. The exhibit shows the FortiManager installation preview for one FortiGate device. Based on the exhibit, which statement best describes the configuration applied to the FortiGate device?

- A. It is a spoke device that establishes dynamic IPsec tunnels to the hub. It can send ADVPN shortcut requests.
- B. It is a spoke device that establishes dynamic IPsec tunnels to the hub. The local subnet range is 10.10.128.0/23.
- **C. It is a hub device. It can send ADVPN shortcut offers.**
- D. It is a hub device. It will automatically discover the spoke devices and add them to the SD-WAN topology.

**Answer: C**

Explanation:

The FortiManager SD-WAN overlay template preview, as described in the document, indicates:

"When the device is acting as a hub, the configuration enables the sending of ADVPN shortcut offers to spokes. This means the hub can facilitate on-demand dynamic shortcut tunnel creation between spokes, improving performance for branch-to-branch communication by bypassing the hub for inter-branch traffic after initial discovery." Such a role is critical in scalable ADVPN topologies, enabling hub devices to optimize overlays dynamically.

With FCSS\_SDW\_AR-7.6 test answers, you are not like the students who use other materials. As long as the syllabus has changed, they need to repurchase new learning materials. This not only wastes a lot of money, but also wastes a lot of time. Our industry experts are constantly adding new content to FCSS\_SDW\_AR-7.6 test dumps based on constantly changing syllabus and industry development breakthroughs. All the language used in FCSS\_SDW\_AR-7.6 Study Materials is very simple and easy to understand. With FCSS\_SDW\_AR-7.6 test answers, you don't have to worry about that you don't understand the content of professional books. You also don't need to spend expensive tuition to go to tutoring class. FCSS\_SDW\_AR-7.6 test dumps can help you solve all the problems in your study.
