

Splendid PL-300 Exam Braindumps are from High-quality Learning Quiz - VCEPrep

P.S. Free 2026 Microsoft PL-300 dumps are available on Google Drive shared by VCEPrep: <https://drive.google.com/open?id=1nWxd5kv--prY44AMVBjv4ojsyzWB9Nrw>

If you are motivated to pass PL-300 certification exams and you are searching for the best practice material for the PL-300 exam; then you are at the right place. We provide 100% guaranteed success for PL-300 exams. With our PL-300 PDF dumps questions and practice test software, you can increase your chances of getting successful in multiple PL-300 Exams. PL-300 brain dumps exams can provide you a golden ticket to land a dream job in popular companies.

Microsoft PL-300 exam is a valuable certification for professionals who want to demonstrate their expertise in using Microsoft Power BI for data analysis. Passing the exam validates a candidate's skills and knowledge in using Power BI to create effective data models, reports, and visualizations, and to perform advanced data analysis using DAX and Power Query.

The Microsoft PL-300 exam itself covers a range of topics, including data modeling, data visualization, data transformation, and data integration. Candidates are expected to be familiar with the various tools and features of Power BI, and to be able to use them to solve real-world business problems. PL-300 Exam is comprised of multiple-choice questions, and candidates have two hours to complete it. Those who pass the exam will receive a Microsoft Certified: Power BI Data Analyst Associate certification, which can help them to advance their careers as data analysts.

PL-300 reliable training dumps & PL-300 latest practice vce & PL-300 valid study torrent

It is our promissory announcement that you will get striking by these viable ways. So do not feel giddy among tremendous materials in the market ridden-ed by false materials. With great outcomes of the passing rate upon to 98-100 percent, our PL-300 practice materials are totally the perfect one. Different from all other bad quality practice materials that cheat you into spending much money on them, our PL-300 practice materials are the accumulation of professional knowledge worthy practicing and remembering.

Microsoft PL-300 Certification is ideal for individuals who are looking to advance their careers in data analytics and business

intelligence. It is also suitable for IT professionals who want to enhance their skills in data analysis and visualization. Microsoft Power BI Data Analyst certification demonstrates that the individual has the necessary skills to design and develop Power BI solutions, which are essential for businesses to make informed decisions.

Microsoft Power BI Data Analyst Sample Questions (Q166-Q171):

NEW QUESTION # 166

You are creating a dashboard by using the Power BI service.

You have an existing report page that contains three charts.

You need to add the charts to the dashboard while maintaining the interactivity between the charts.

What should you do?

- A. Edit interactions in the report and set all interactions to Filter.
- B. Edit the dashboard theme and pin each chart as a tile.
- C. Pin the report page as a live tile.
- D. Pin each chart as a tile.

Answer: C

Explanation:

One way to add a new dashboard tile is by pinning an entire report page. This is an easy way to pin more than one visualization at a time. Also, when you pin an entire page, the tiles are live; you can interact with them right there on the dashboard. And changes you make to any of the visualizations back in the report editor, like adding a filter or changing the fields used in the chart, are reflected in the dashboard tile as well.

Pinning live tiles from reports to dashboards is only available in Power BI service (app.powerbi.com).

<https://docs.microsoft.com/en-us/power-bi/create-reports/service-dashboard-pin-live-tile-from-report>

NEW QUESTION # 167

You have a Power BI semantic model that contains item, price, and country data. The data is displayed in a report that uses filters.

You need to calculate the average item price for a given country. The solution must support the existing filters.

Which type of quick measure should you use?

- A. Weighted average per category
- B. Average per category
- C. Rolling average
- D. Total for category (filters applied)

Answer: B

Explanation:

NEW QUESTION # 168

You need to create a solution to meet the notification requirements of the warehouse shipping department.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct select is worth one point:

Answer Area

Answer:

Explanation:

Answer Area

Populate a report by using a card visualization that shows the percentage of late orders in the report, then configure a data alert.

bookmark dashboard phone view. These are the selections for the second missing value.

NEW QUESTION # 169

Hotspot Question

You are designing the data model for a Power BI semantic model.

You have the following tables in the star schema.

Name	Description
Date	Contains one row for each day from the last five years: Each row contains attributes for the year, quarter, month, week of the year, and day of the week. Date is the unique identifier of a row.
Patient	Contains one row per patient: Each row contains attributes for the patient key, patient source ID, first name, last name, date of birth, gender, address, city, state, and country. Patient key is the unique identifier of a row.
Test	Contains one row per test: Each row contains attributes for the test key, test source ID, type, and name. The test key is the unique identifier of a row.
Test Result	Contains one row per administered test: Each row contains attributes for the date the test was administered, test key, patient key, result value, and comments.

Which table is the fact table of the star schema, and which column in the Patient table is the surrogate key of the star schema? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Fact table:

Surrogate key:

Answer:

Explanation:

Answer Area

Microsoft

Fact table:

Date
Patient
Test
Test Result

Surrogate key:

Date of birth
Last name
Patient key
Patient source ID

NEW QUESTION # 170

You create a report by using Microsoft Power BI Desktop.

The report uses data from a Microsoft SQL Server Analysis Services (SSAS) cube located on your company's internal network.

You plan to publish the report to the Power BI Service.

What should you implement to ensure that users who consume the report from the Power BI Service have the most up-to-date data from the cube?

- A. a scheduled refresh of the dataset
- **B. an On-premises data gateway**
- C. a subscription
- D. an OData feed

Answer: B

NEW QUESTION # 171
