## CCSK New APP Simulations | CCSK Latest Exam Experience

Choose CCSK exam Topics Pdf to prepare for your coming test, and you will get unexpected results. CCSK pdf version is very convenient to read and review. If you like to choose the paper file for study, the CCSK pdf file will be your best choice. The Cloud Security Alliance CCSK Pdf Dumps can be printed into papers, so that you can read and do marks as you like. Thus when you open your dumps, you will soon find the highlights in the CCSK papers. What's more, the 99% pass rate can help you achieve your goals.

## Cloud Security Alliance Certificate of Cloud Security Knowledge v5 (CCSKv5.0) Sample Questions (Q138-Q143):

**NEW QUESTION # 138**
If there are gaps in network logging data, what can you do?

- A. Nothing. There are simply limitations around the data that can be logged in the cloud.
- B. Nothing. The cloud provider must make the information available.
- C. Ask the cloud provider to open more ports.
- D. Ask the cloud provider to close more ports.
- E. You can instrument the technology stack with your own logging.

**Answer: E**

**NEW QUESTION # 139**
What technology is commonly used to establish an encrypted tunnel between a remote user's device and a private network over the public Internet?

- A. Virtual Local Area Network (VLAN)
- B. Virtual Private Network (VPN)
- C. Network Address Translation (NAT)
- D. Domain Name System (DNS)

**Answer: B**

Explanation:
Correct Option: A. Virtual Private Network (VPN)
A Virtual Private Network (VPN) is a widely used technology that enables secure communication over untrusted networks like the public Internet. It works by creating an encrypted tunnel between the user's device and the internal private network, thereby ensuring data confidentiality, integrity, and authentication.
From CSA Security Guidance v4.0 - Domain 7: Infrastructure Security:
"Remote access solutions, such as VPNs, are commonly used to provide users with secure access to cloud or on-premises resources. VPNs create encrypted tunnels that protect data in transit, preventing unauthorized disclosure or tampering over public networks."
- Domain 7: Infrastructure Security, CSA Security Guidance v4.0
This makes VPNs a fundamental security control when users are working remotely and need access to sensitive or internal systems.
Why the Other Options Are Incorrect:
B . Domain Name System (DNS)
➤ DNS translates domain names to IP addresses. It does not provide encryption or secure tunneling.
C . Network Address Translation (NAT)
➤ NAT modifies IP address information but does not encrypt data or create tunnels.
D . Virtual Local Area Network (VLAN)
➤ VLANs segment network traffic within a LAN. They do not secure remote communications over the Internet.

**NEW QUESTION # 140**
One of the key technologies that have made cloud computing viable is:

- A. Storage controllers
- B. Distributed networking
- C. Virtualization
- D. VLANs

**Answer: C**

Explanation:
Virtualization technologies enable cloud computing to become a real and scalable service offering due to the savings, sharing, and allocations of resources across multiple tenants and environments.

**NEW QUESTION # 141**
Like security and compliance. BC/DR is not a shared responsibility.

- A. True
- B. False

**Answer: A**

Explanation:
This is True
Like security and compliance, BC/DR is a shared responsibility. There are aspects that the cloud provider has to manage, but the cloud customer is also ultimately responsible for how they use and manage the cloud service. This is especially true when planning for outages of the cloud provider (or parts of the cloud provider's service).
Ref Reference: CSA Security GuidelinesV.4(reproduced here for the educational purpose)

## NEW QUESTION # 142

Which of the following is key component of regulated PII components?

- A. Mandatory Breach Reporting
- B. Data disclosure
- C. E-discovery
- D. Cloud Service Provider Consent

**Answer: A**

Explanation:
The key component and differentiator related to regulated PII is mandatory breach reporting requirements. At present. 47 states and territories within the United States, including the District of Columbia. Puerto Rico. and the Virgin Islands, have legislation in place that requires both private and government entities to notify and inform individuals of any security breaches involving PII.

## NEW QUESTION # 143

......

When you take Cloud Security Alliance CCSK practice exams again and again you get familiar with the Certificate of Cloud Security Knowledge v5 (CCSKv5.0) (CCSK) real test pressure and learn to handle it for better outcomes. Features of the web-based and desktop CCSK Practice Exams are similar. The only difference is that the Certificate of Cloud Security Knowledge v5 (CCSKv5.0) (CCSK) web-based version works online.

**CCSK New APP Simulations**: https://www.testkingfree.com/Cloud-Security-Alliance/CCSK-practice-exam-dumps.html

It is well acknowledged that people who have a chance to participate in the simulation for Cloud Security Alliance CCSK real test, they must have a fantastic advantage over other people to get good grade in the exam, 100% Refund Policy For CCSK Exam, Cloud Security Alliance Practice CCSK Questions If you failed, we promise to full refund, CCSK Practice test software for self-assessment.

The Bridge ID and System ID Extension, This book contains a CCSK complete set of guidelines for acquiring, assembling, installing, and operating an information security laboratory.

It is well acknowledged that people who have a chance to participate in the simulation for Cloud Security Alliance CCSK real test, they must have a fantastic advantage over other people to get good grade in the exam.
