We guarantee you 100% to pass the exam. Make the tough decision to choose our PassLeader Salesforce PDII-JPN exam training materials please.

## Salesforce Sample Questions (Q48-Q53):

### NEW QUESTION # 48

開発者は、スケジュールされたApexがDML制限に達しているという問題の調査を依頼されました。調査の結果、スケジュールされたApexによって処理されるレコード数が最近10,000件を超えていることが分かりました。この制限例外エラーを解消するには、開発者はどのように対処すればよいのでしょうか？

- A. @future アノテーションを使用します。
- B. プラットフォーム イベントを使用します。
- C. Queueable インターフェースを実装します。
- D. Batchable インターフェースを実装します。

**Answer: D**

**Explanation:**

The issue described involves hitting DML limits due to a high volume of records (over 10,000) being processed in a single transaction. In Salesforce, a single synchronous transaction or a standard Scheduled Apex job has strict governor limits on the

number of DML statements (150) and the total number of records processed (10,000 for DML rows).

To resolve this, the developer should implement the Database.Batchable interface. Batch Apex is specifically designed to handle large data volumes by breaking the processing into smaller, manageable chunks (batches) of records (default 200). Each batch runs within its own transaction context, resetting the governor limits for that specific batch. This prevents the "Too many DML rows" exception. While Queueable (Option D) and @future (Option C) provide asynchronous processing, they are not inherently designed to iterate over large datasets in the same robust, governor-limit-safe manner as Batch Apex, particularly when the record count exceeds the thousands.

#### NEW QUESTION # 49

有効な Apex REST アノテーションはどれですか？（2つ選んでください。）

- A. @HttpUpsert
- B. @HttpAction
- C. @Http バッチ
- D. @HttpDelete

Answer: C,D

#### NEW QUESTION # 50

CreateOneAccount クラスが1つのアカウントを作成し、Queueable インターフェースを実装すると仮定すると、どの構文が Apex コードをテストしますか？

- A. 

```
List<Account> accts;
Test.startTest();
System.enqueueJob( new CreateOneAccount() );
Test.stopTest();
accts = [SELECT Id FROM Account];
System.assertEquals( 1, accts.size() );
```

- B. 

```
List<Account> accts;
System.enqueueJob( new CreateOneAccount() );
Test.startTest();
System.assertEquals(1, accts.size() );
Test.stopTest();
```

- C. 

```
List<Account> accts;
System.enqueueJob( new CreateOneAccount() );
Test.getFlexQueueOrder();
System.assertEquals( 1, accts.size() );
```

- D. 

```
List<Account> accts;
System.enqueueJob( new CreateOneAccount() );
accts = [SELECT Id FROM Account];
System.assertEquals(1, accts.size() );
```

Answer: A

#### NEW QUESTION # 51

ユニバーサルコンテナズは、Salesforce標準モバイルアプリを利用して、iOSとAndroid向けの採用アプリを開発したいと考えています。カスタムユーザーインターフェース設計を採用しており、オフラインアクセスは不要です。アプリ開発にはどのようなアプローチが推奨されますか？

- A. ビジュアルフォース
- B. Lightning Experience ビルダー
- C. Lightning Web コンポーネント
- D. Salesforce SDK

**Answer: C**

Explanation:

When developing custom functionality to be surfaced within the standard Salesforce Mobile App, Lightning Web Components (LWC) (Option B) is the recommended approach. LWCs are the modern, high- performance standard for Salesforce development, utilizing modern web standards (ES6+, Web Components) that run natively in the browser.

LWC is preferred over the other options for several reasons:

\* Performance: LWCs are lightweight and provide a much faster, more responsive user interface than Visualforce (Option D), which is critical for mobile user experience.

\* Standardization: Since the app will be accessed via the standard Salesforce mobile app, LWCs integrate seamlessly into the mobile navigation, tabs, and action menus.

\* Customization: LWCs provide full control over the CSS and HTML, allowing the developer to meet the "custom user interface design" requirement while still leveraging the Lightning Data Service for efficient data handling.

Option A (Salesforce SDK) is for building "Custom/Native" standalone apps, not for extending the standard Salesforce app. Option C (Experience Builder) is primarily for external sites (Communities). LWC provides the perfect balance of "custom design" and "native integration" for internal mobile users.

## NEW QUESTION # 52

以下の Aura コンポーネントを参照してください。

コンポーネントのマークアップ:

```
<aura:component>
  <aura:attribute name="contactInfo" type="Object"/>
  <aura:attribute name="showContactInfo" type="boolean" default="true"/>
  <aura:handler name="init" value="{!this}" action="{!c.init}"/>

  <!-- ... other code ... -->
  <aura:if isTrue="{!v.showContactInfo}">
    <c:contactInfo value="{!v.contactInfo}"/>
  </aura:if>
</aura:component>
```

コントローラーJS:

```
init: function(cmp, helper) {
  // ...other code ...
  var show = helper.getShowContactInfo();
  cmp.set("v.showContactInfo", show);
},
// other code...
})
```

開発者は、コンポーネントの読み込みが遅いという苦情を受け取りました。

コンポーネントの動作を高速化するために、開発者はどの変更を実装できますか？

- A. <c:contactInfo> の内容をコンポーネントに移動します。
- B. showContactInfo のデフォルトを「false」に変更します。
- C. showContactInfo の変更イベント ハンドラーを追加します。
- D. contactInfo のタイプを「マップ」に変更します。

**Answer: B**

## NEW QUESTION # 53

.....

Salesforce PDII-JPN exam dumps are important because they show you where you stand. After learning everything related to the (PDII-JPN) certification, it is the right time to take a self-test and check whether you can clear the (PDII-JPN) certification exam or not. People who score well on the (PDII-JPN) practice questions are ready to give the final (PDII-JPN) exam.

**Test PDII-JPN Simulator Online:** <https://www.passleader.top/Salesforce/PDII-JPN-exam-braindumps.html>

Salesforce PDII-JPN Valid Dump Just make sure that you study the Questions and Answers product of respective Exam for three to five days before you appear in actual Exam, We will send our PDII-JPN actual questions within 10 minutes after your payment, Salesforce PDII-JPN Valid Dump But passing an exam needs efficiency and skills to master the most useful points of knowledge in limited time, In order to meet the different need from our customers, the experts and professors from our company designed three different versions of our PDII-JPN exam questions for our customers to choose, including the PDF version, the online version and the software version.

Printing Google Spreadsheets, The first is Reliable PDII-JPN Exam Cram that there's no restriction on which domains a CA can sign, Just make sure that you study the Questions and Answers product Reliable PDII-JPN Exam Cram of respective Exam for three to five days before you appear in actual Exam.

## Updated Salesforce PDII-JPN Valid Dump Are Leading Materials & Effective PDII-JPN:

We will send our PDII-JPN Actual Questions within 10 minutes after your payment, But passing an exam needs efficiency and skills to master the most useful points of knowledge in limited time.

In order to meet the different need from our PDII-JPN customers, the experts and professors from our company designed three different versions of our PDII-JPN exam questions for our customers to choose, including the PDF version, the online version and the software version.
