This way, you can become more confident and comfortable while taking the actual exam.

## **SAP Certified Associate - SAP S/4HANA Cloud Private Edition - Transportation Management Sample Questions (Q27-Q32):**

### **NEW QUESTION # 27**

What is automatically determined based on the object being transferred from ERP when location data is created via the CIF. Please choose the correct answer.

- A. MES Access
- B. Give operators
- C. Intuitive mobile
- D. The location type

**Answer: D**

### **NEW QUESTION # 28**

Your customer wants to use the cost distribution function to include transportation costs in the material valuation. Which of the following documents can support this requirement? Note: There are 3 correct answers to this question.

- A. Stock transport order
- B. Inbound delivery
- C. Outbound delivery
- D. Sales order
- E. Purchase order

**Answer: A,B,E**

Explanation:

In SAP S/4HANA Transportation Management, the cost distribution function allows transportation costs to be included in the material valuation, typically through integration with Materials Management (MM).

According to the SAP documentation, the following documents support this requirement:

\* Purchase order (B): Purchase orders can include transportation costs as part of the procurement process, enabling these costs to be distributed to the material valuation in MM.

\* Stock transport order (C): Stock transport orders, used for inter-plant or inter-company stock transfers, support the inclusion of transportation costs in the material valuation, as these costs are relevant to the transfer process.

\* Inbound delivery (E): Inbound deliveries, which represent the receipt of goods, can incorporate transportation costs from freight settlement documents, allowing these costs to be distributed to the material valuation.

The other options are incorrect:

\* Sales order (A) is used in sales and distribution to trigger transportation requirements but does not directly support cost distribution for material valuation.

\* Outbound delivery (D) is relevant for shipping goods but is not typically used to distribute transportation costs to material valuation, as this is more applicable to inbound processes.

### **NEW QUESTION # 29**

What are some SAP recommended guiding principles to achieve clean core operations? Note: There are

3 correct answers to this question.

- A. Define roles and responsibilities as part of a process transformation office.
- B. Establish release management.
- C. Establish an organizational structure, technical foundation, and transformation methodology for clean core.
- D. Integrate clean core practices in the end-to-end value process chain.
- E. Establish regular housekeeping tasks and procedures.

**Answer: A,B,D**

Explanation:

Master Data

#### **NEW QUESTION # 30**

Which of the following strategies can you assign to optimizer settings?

- A. VSRI\_1STEP
- B. VSR\_DEF
- C. VSS\_DEF
- D. VSR\_CHECK

**Answer: B**

#### **NEW QUESTION # 31**

You have completed the configuration tasks for cost distribution and freight settlement in SAP TM and SAP ERP. The settlement documents were successfully transferred to SAP ERP.

Which of the following business documents in SAP ERP would you check to verify that the amounts and postings are correct?

There are 2 correct answers to this question.

- A. Agency billing document
- B. Freight invoice
- C. Service entry sheet
- D. Shipment cost document

**Answer: C,D**

#### **NEW QUESTION # 32**
