### The Open Group TOGAF Business Architecture Foundation Exam Sample Questions (Q55-Q60):

#### NEW QUESTION # 55

In what TOGAF ADM phase is the information map linked to other business blueprints?

- A. Phase A
- **B. Phase E**
- C. Phase B
- D. Preliminary Phase

**Answer: B**

Explanation:

Phase E Explanation of Correct answer: In Phase E (Opportunities and Solutions) of the TOGAF Explanation:ADM, the information map is linked to other business blueprints such as the Business Capability Map, the Value Stream Map, and the Business Process Model Phase E Explanation of Correct answer: In Phase E (Opportunities and Solutions) of the TOGAF Explanation:ADM, the information map is linked to other business blueprints such as the Business Capability Map, the Value Stream Map, and the Business Process Model2. This helps to identify and prioritize opportunities for business improvement and transformation2.

In the TOGAF Architecture Development Method (ADM), the information map is linked to other business blueprints during Phase B, Business Architecture. This phase involves the development of a business architecture to support an agreed Architecture Vision. It is during this phase that the information architecture is developed in detail, which involves mapping the information to the business, hence linking the information map to other business blueprints.

#### NEW QUESTION # 56

Consider the diagram of an architecture development cycle.

Which description matches the phase of the ADM labeled as item 1?

- A. Establishes procedures for managing change to the new architecture.
- B. Operates the process of managing architecture requirements.
- **C. Conducts implementation planning for the architecture defined in previous phases.**
- D. Provides architectural oversight for the implementation.

**Answer: C**

Explanation:

In the context of the TOGAF ADM (Architecture Development Method), the phase labeled as item 1, which conducts implementation planning for the architecture defined in previous phases, corresponds to Phase E: Opportunities and Solutions. Here's a detailed explanation:

Phase E: Opportunities and Solutions:

Objective: This phase focuses on identifying delivery vehicles (projects, programs, or portfolios) that can deliver the target architecture identified in previous phases. It bridges the gap between the architecture vision and the detailed implementation.

Implementation Planning: In this phase, the architect develops the detailed Implementation and Migration Plan. This includes identifying work packages, sequencing activities, and preparing for the transition to the target architecture.

Key Activities:

Identify Opportunities and Solutions: This involves identifying potential solutions that address the gaps identified during the architecture definition phases (Phases B, C, and D).

Work Package Definition: Work packages are defined, which include specific projects or initiatives required to implement the architecture.

Transition Planning: Detailed plans for transitioning from the baseline to the target architecture are developed, ensuring that all necessary steps and resources are accounted for.

TOGAF Reference:

Phase E Deliverables: Key deliverables of this phase include the Implementation and Migration Plan, project charters, and work package descriptions.

Alignment with Business Strategy: This phase ensures that the implementation plans are aligned with the business strategy and objectives, providing a clear path for executing the architecture vision.

Benefits:

Structured Implementation: Conducting implementation planning ensures that the architecture is implemented in a structured and controlled manner, reducing risks and enhancing the likelihood of success.

Resource Allocation: It helps in efficient allocation of resources by identifying the specific projects and initiatives needed to achieve the target architecture.

In summary, Phase E of the TOGAF ADM focuses on conducting implementation planning for the architecture defined in previous phases, ensuring a structured and controlled approach to executing the architecture vision and achieving the desired business outcomes.

#### NEW QUESTION # 57

Consider the following description of the purpose of an ADM Phase:

To develop a domain architecture approved by the stakeholders for the problem being addressed, together with a set of gaps, and work to clear the gaps understood by the stakeholders Which ADM Phase does this describe?

- A. Phase E
- B. Phase A
- C. Preliminary Phase
- **D. Phase D**

**Answer: D**

#### NEW QUESTION # 58

Consider the following Business Capability Example:

| Name        | Recruitment Management   |
|-------------|--|
| Description | The ability to solicit, qualify, and provide support for hiring new employees into the organization.   |
| Components  | <p><b>A</b> User: Recruiter<br/>Stakeholders: Manager, Candidate Employee</p> <p><b>B</b> Evaluate New Hire Requisitions; Recruit/Source Candidates;<br/>Screen and Select Candidates; Hire Candidate</p> <p><b>C</b> Candidate/Applicant Details; Position Descriptions;<br/>Recruitment Agency Data; Industry Standard Role Definitions</p> <p><b>D</b> Recruitment Management Application; HR Application;<br/>Social Media Application</p> |

Which of the following are A and C?

- **A. Roles, Information.**
- B. Who. What.
- C. Organization. Data.
- D. Actors, Actions.

**Answer: A**
