AP Physics 1 Practice Exam: Section I (Multiple-Choice) < 207

AP Physics 1 Practice Exam: Section I (Multiple-Choice)

Directions: The multiple-choice section consists of 50 questions to be answered in 90 minutes. You may write scratch work in the test booklet itself, but only the answers on the answer sheet will be scored. You may use a calculator, the equation sheet, and the table of information.

Questions 1–45: Single-Choice Items

Directions: Choose the single best answer from the four choices provided and grid the answer with a pencil on the answer sheet.

1. A circuit consists of a battery and a light bulb. At first, the circuit is disconnected. Then, the circuit is connected, and the light bulb lights. After the light bulb has been lit for a few moments, how has the net charge residing on the circuit elements changed?

(A) The net charge has become more positive.
(B) The net charge has become more negative.
(C) The net charge has not changed.
(D) Whether the net charge becomes more positive or more negative depends on the initial net charge residing on the circuit elements before the bulb was lit.

2. At which position in the above circuit will the charge passing that position in one second be largest?

(A) A
(B) B
(C) C
(D) D

3. Spring scales are used to measure the net force applied to an object; a sonic motion detector is used to measure the object's resulting acceleration. A graph is constructed with the net force on the vertical axis and the acceleration on the

horizontal axis. Which of the following quantities is directly measured using the slope of this graph?

(A) Gravitational mass
(B) Weight
(C) Velocity
(D) Inertial mass

Questions 4 and 5 refer to the information below:

In the laboratory, a 0.5-kg cart collides with a fixed wall, as shown in the preceding diagram. The collision is recorded with a video camera that takes 20 frames per second. A student analyzes the video, placing a dot at the center of mass of the cart in each frame. The analysis is shown above.

4. About how fast was the cart moving before the collision?

(A) 0.25 m/s
(B) 4.0 m/s
(C) 0.20 m/s
(D) 5.0 m/s

5. Which of the following best estimates the change in the cart's momentum during the collision?

(A) 27 N·s
(B) 13 N·s
(C) 1.3 N·s
(D) 2.7 N·s

The Salesforce introduces changes in the AP-207 format and topics, which are reported to our valued customers. In this manner, a constant update feature is being offered to AP-207 exam customers.

Salesforce Energy and Utilities Cloud Accredited Professional Sample Questions (Q50-Q55):

NEW QUESTION # 50

An energy company was onboarded on Energy and Utilities Cloud. They want to see how many Energy and Utilities Cloud licenses are assigned.

What's the most effective way to check for the number of their assigned Energy and Utilities Cloud licenses?

- **A. Go to Setup -> Company Information -> Permission Set Licenses.**
- B. Go to Setup -> installed Packages -> Velocity CMT to see the Energy and Utilities Cloud license information.
- C. Execute a SOQL query to retrieve the license count
- D. Call Salesforce Support to get the Energy and Utilities Cloud information.

Answer: A

Explanation:

The most effective way to check for the number of assigned Salesforce Energy and Utilities Cloud licenses is through the Salesforce Setup menu. By navigating to Setup, then to Company Information, and looking at the Permission Set Licenses section, administrators can quickly view the number of licenses assigned and available for various Salesforce products, including Energy and Utilities Cloud. This method provides a straightforward and accessible means of license management within the Salesforce environment. Reference = Salesforce's official documentation on managing licenses, including viewing assigned licenses through the Company Information section, provides comprehensive guidance: https://help.salesforce.com/articleView?id=users_license_types_available.htm

NEW QUESTION # 51

An energy utility company is implementing the Customer Acquisition Management application. The application should support unauthenticated self-serve portal users.

What's the preferred method to configure the application security to meet the requirement?

- A. A consultant should create new permission sets to grant appropriate access to all required objects.
- B. A consultant should assign an EnergyRuntimeSales sample permission set to the Guest User profile and an EnergyRuntimeSalesCustomerCommunityUser sample permission set to customer community users.
- C. The Customer Acquisition Management application cannot support unauthenticated self-serve portal users
- **D. A consultant should assign an EnergyRuntimeB2CSales sample permission set to the Guest User profile and an EnergyRuntimeB2CSalesCustomerCommunityUser sample permission set to customer community users.**

Answer: D

Explanation:

For the Customer Acquisition Management application to support unauthenticated self-serve portal users, the correct configuration of permission sets is crucial. The EnergyRuntimeB2CSales sample permission set designed for Guest User profiles enables unauthenticated users to interact with necessary parts of the application without compromising security or functionality. Additionally, the EnergyRuntimeB2CSalesCustomerCommunityUser permission set provides authenticated community users with appropriate access rights, ensuring a seamless user experience across both authenticated and unauthenticated scenarios.

Reference = The setup and configuration of these permission sets are discussed in the Salesforce Energy and Utilities Cloud security and user management documentation, ensuring applications like Customer Acquisition Management are accessible yet secure.

NEW QUESTION # 52

An energy company wants to send to its customers various types of communication via digital channels. Which is the preferred cloud that works in conjunction with Energy and Utilities Cloud to achieve mass communication?

- A. Communications Cloud
- B. Sales Cloud
- **C. Marketing Cloud**
- D. Service Cloud

Answer: C

Explanation:

Salesforce Marketing Cloud is the preferred solution for energy companies looking to send various types of communication via digital channels to their customers in conjunction with Energy and Utilities Cloud. Marketing Cloud provides a comprehensive suite of tools designed for mass communication, allowing for the creation, management, and delivery of personalized customer

communications across multiple digital channels. This integration enhances customer engagement and satisfaction by delivering timely and relevant information. Reference = Salesforce Marketing Cloud documentation highlights its capabilities for mass communication and integration with other Salesforce products, including Energy and Utilities Cloud, to provide a unified platform for customer engagement: <https://www.salesforce.com/products/marketing-cloud/overview/>

NEW QUESTION # 53

An energy company is looking to track relationships with their electricity and gas business-to-consumer (B2C) subscribers and differentiate them from their business-to-business (B2B) corporate accounts.

Which two functionalities should the energy and utilities consultant use for the customer data model?

- A. Use Contacts just for B2B scenarios.
- B. Use the Account Contact Relation object
- C. Enable Person Accounts to model consumers.
- D. Use the Consumer Account record type

Answer: C,D

Explanation:

To track relationships with electricity and gas B2C subscribers and differentiate them from B2B corporate accounts effectively, consultants should utilize two specific functionalities within Salesforce Energy and Utilities Cloud. The first is enabling Person Accounts to model consumers. Person Accounts are ideal for B2C scenarios because they allow for the representation of individual consumers in a manner that's separate from the more complex B2B corporate accounts, which are typically modeled using standard Account records. Secondly, using the Consumer Account record type can further differentiate between these two distinct types of customers. This functionality allows for the customization of fields, page layouts, and processes specific to the consumer sector, facilitating more targeted management and engagement strategies.

Reference = The Salesforce Energy and Utilities Cloud documentation offers guidance on configuring the customer data model to support diverse customer types, including B2B and B2C. Specific sections on Account and Contact Management provide insights into the use of Person Accounts and record types for segmenting and managing customer relationships effectively.

NEW QUESTION # 54

An energy company wants to show users monthly billed usage information when the user starts the Move Out guided business processes in Energy and Utility Cloud. The usage information is stored in a third-party system with available APIs.

Which three steps must the consultant complete to achieve the required outcome?

Choose 3 answers

- A. Create a new Move Out process to invoke the Integration Procedure and present the result to the user.
- B. Modify the standard Move Out process to invoke the Integration Procedure and present the result to the user,
- C. Configure integration with Customer Information System.
- D. Configure integration with Meter Data Management System
- E. Configure Integration Procedure to fetch the data from the third-party system using available APIs.

Answer: A,B,E

NEW QUESTION # 55

.....

The most interesting thing about the learning platform is not the number of questions, not the price, but the accurate analysis of each year's exam questions. Our AP-207 guide dump through the analysis of each subject research, found that there are a lot of hidden rules worth exploring, this is very necessary, at the same time, our AP-207 training materials have a super dream team of experts, so you can strictly control the proposition trend every year. In the annual examination questions, our AP-207 study questions have the corresponding rules to summarize, and can accurately predict this year's test hot spot and the proposition direction. This allows the user to prepare for the test full of confidence.
