Pass4sure Microsoft MS-102 Exam Prep & MS-102 New Braindumps Ebook

Before you take the exam, you only need to spend 20 to 30 hours to practice, so you can schedule time to balance learning and other things. Of course, you care more about your passing rate. If you choose our MS-102 exam guide, under the guidance of our MS-102 exam torrent, we have the confidence to guarantee a passing rate of over 99%. Our MS-102 quiz prep is compiled by experts based on the latest changes in the teaching syllabus and theories and practices. So our MS-102 Quiz prep is quality-assured,

focused, and has a high hit rate. The most important information is conveyed with the minimum number of questions, and you will not miss important knowledge. You can make full use of your usual piecemeal time to learn our MS-102 exam torrent. You will get the best results in the shortest time. Join our study and you will have the special experience.

Microsoft 365 Administrator Sample Questions (Q54-Q59):

NEW QUESTION # 54

You have a Microsoft 365 E3 subscription that uses Microsoft Defender for Endpoint Plan 1.

Which two Defender for Endpoint features are available to the subscription? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. device discovery
- B. digital certificate assessment
- C. advanced hunting
- D. security reports
- E. attack surface reduction (ASR)

Answer: D,E

Explanation:

B: Overview of Microsoft Defender for Endpoint Plan 1, Reporting

The Microsoft 365 Defender portal (<https://security.microsoft.com>) provides easy access to information about detected threats and actions to address those threats.

The Home page includes cards to show at a glance which users or devices are at risk, how many threats were detected, and what alerts/incidents were created.

The Incidents & alerts section lists any incidents that were created as a result of triggered alerts. Alerts and incidents are generated as threats are detected across devices.

The Action center lists remediation actions that were taken. For example, if a file is sent to quarantine, or a URL is blocked, each action is listed in the Action center on the History tab.

The Reports section includes reports that show threats detected and their status.

E: What can you expect from Microsoft Defender for Endpoint P1?

Microsoft Defender for Endpoint P1 is focused on prevention/EPP including:

Next-generation antimalware that is cloud-based with built-in AI that helps to stop ransomware, known and unknown malware, and other threats in their tracks.

(E) Attack surface reduction capabilities that harden the device, prevent zero days, and offer granular control over access and behaviors on the endpoint.

Device based conditional access that offers an additional layer of data protection and breach prevention and enables a Zero Trust approach.

The below table offers a comparison of capabilities are offered in Plan 1 versus Plan 2.

Capabilities	P1	P2
Unified security tools and centralized management	✓	✓
Next-generation antimalware	✓	✓
Attack surface reduction rules	✓	✓
Device control (e.g.: USB)	✓	✓
Endpoint firewall	✓	✓
Network protection	✓	✓
Web control / category-based URL backing	✓	✓
Device-based conditional access	✓	✓
Controlled folder access	✓	✓
APIs, SIEM connector, custom TI	✓	✓
Application control	✓	✓
Endpoint detection and response	✓	✓
Automated investigation and remediation	✓	✓
Threat and vulnerability management	✓	✓
Threat intelligence (Threat Analytics)	✓	✓
Sandbox (deep analysis)	✓	✓
Microsoft Threat Experts**	✓	✓

**Includes Targeted Attack Notifications (TAN) and Experts On Demand (EOD). Customers must apply for TAN. EOD is available for purchase as an add-on.

Incorrect:

Not A: P2 is by far the best fit for enterprises that need an EDR solution including automated investigation and remediation tools, advanced threat prevention and threat and vulnerability management (TVM), and hunting capabilities.

NEW QUESTION # 55

You enable the Azure AD Identity Protection weekly digest email.

You create the users shown in the following table.

Name	Role
Admin1	Security reader
Admin2	User administrator
Admin3	Security administrator
Admin4	Compliance administrator

Which users will receive the weekly digest email automatically?

- A. Admin3 only
- B. Admin1, Admin2, Admin3, and Admin4
- C. Admin1 and Admin3 only
- D. Admin2, Admin3, and Admin4 only
- E. Admin2 and Admin3 only

Answer: C

Explanation:

By default, all Global Admins receive the email. Any newly created Global Admins, Security Readers or Security Administrators will automatically be added to the recipients list.

NEW QUESTION # 56

You configure a data loss prevention (DLP) policy named DLP1 as shown in the following exhibit.

The screenshot shows the 'Choose the types of content to protect' configuration page for a DLP policy named DLP1. The page includes a header with the Microsoft logo and the title. Below the header, there is a description: 'This policy will protect that matches these requirements. You can choose sensitive info types and existing labels'. The main configuration area is titled 'Content contains' and includes a dropdown menu set to 'Any of these'. Under 'Sensitive info type', 'Credit Card Number' is selected, with a 'Match accuracy' range from 85 (min) to 100 (max). Under 'Retention labels', '1 year' is selected. There is an 'Add' button and a '+ Add group' button at the bottom.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

The screenshot shows two statements with dropdown menus for selection. The first statement is 'DLP1 cannot be applied to [answer choice]'. The dropdown menu is open, showing three options: 'Exchange email', 'SharePoint sites', and 'OneDrive accounts'. The second statement is 'DLP1 will be applied only to documents that have [answer choice]'. The dropdown menu is open, showing three options: 'both a credit card number and the 1 year label applied', 'either a credit card number or the 1 year label applied', and 'between 85 and 100 credit card numbers'.

Answer:

Explanation:

The screenshot shows the same two statements as the previous one, but with the correct selections highlighted. The first statement is 'DLP1 cannot be applied to [answer choice]'. The dropdown menu is open, and 'SharePoint sites' is selected. The second statement is 'DLP1 will be applied only to documents that have [answer choice]'. The dropdown menu is open, and 'either a credit card number or the 1 year label applied' is selected.

Explanation

DLP1 cannot be applied to [answer choice].

▼

- Exchange email
- SharePoint sites
- OneDrive accounts

DLP1 will be applied only to documents that have [answer choice].

▼

- both a credit card number and the 1 year label applied
- either a credit card number or the 1 year label applied
- between 85 and 100 credit card numbers

Using a retention label in a policy is only supported for items in SharePoint Online and OneDrive for Business.

NEW QUESTION # 57

You have a Microsoft 365 tenant.

Company policy requires that all Windows 10 devices meet the following minimum requirements:

Require complex passwords.

Require the encryption of data storage devices.

Have Microsoft Defender Antivirus real-time protection enabled.

You need to prevent devices that do not meet the requirements from accessing resources in the tenant.

Which two components should you create? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. a configuration policy
- B. a configuration profile
- C. a conditional access policy
- D. a compliance policy
- E. a security baseline profile

Answer: C,D

Explanation:

Reference:

NEW QUESTION # 58

You have a Microsoft 365 tenant that contains a Windows 10 device named Device1 and the Microsoft Endpoint Manager policies shown in the following table.

Name	Type	Block execution of potentially obfuscated scripts (js/vbs/ps)
Policy1	Attack surface reduction (ASR)	Audit mode
Policy2	Microsoft Defender ATP Baseline	Disable
Policy3	Device configuration profile	Not configured

- A. only the settings of Policy3
- B. only the settings of Policy2
- C. no settings
- D. only the settings of Policy1

Answer: A

NEW QUESTION # 59

BootcampPDF, as a provider, specializing in providing all candidates with MS-102 exam-related materials, focus on offering the most excellent dumps for the candidates. In contrast with other websites, BootcampPDF is more trustworthy. Why? Because BootcampPDF has many years of experience and our Microsoft experts have been devoted themselves to the study of Microsoft certification exam and summarize MS-102 Exam rules. Thus, BootcampPDF exam dumps have a high hit rate. Meanwhile, it guarantees the qualification rate in the exam. Therefore, BootcampPDF got everyone's trust.

[illegible]
