NEW QUESTION # 142

At Ursa Major Solar, there is a single Lightning record page for the Celestial Bodies custom object; however, there is a Lightning component the app builder wants to restrict to mobile app users.

Which feature on the Lightning app builder should be utilized?

- A. Chatter feed
- B. Related list quick links
- C. Highlights panel
- **D. Component visibility filter**

Answer: D

Explanation:

Explanation

Component visibility filter is the feature on the Lightning app builder that should be utilized to restrict a Lightning component to mobile app users. According to the Salesforce documentation, "Use component visibility filters to show or hide components on a record page based on field values or user profile." Chatter feed, highlights panel, and related list quick links are not features for controlling component visibility, but standard components that can be added to a record page.
