Salesforce Nonprofit-Cloud-Consultant Exam is a highly respected certification that is recognized by nonprofit organizations around the world. It is designed to help individuals develop the skills and knowledge they need to effectively support nonprofit organizations using Salesforce. Nonprofit-Cloud-Consultant exam is divided into several sections, each of which focuses on a specific area of nonprofit management. This includes fundraising, program management, volunteer management, and more. By passing Nonprofit-Cloud-Consultant Exam, individuals can demonstrate their proficiency in working with nonprofit organizations and using Salesforce to support their mission.

## **Salesforce Certified Nonprofit Cloud Consultant Exam Sample Questions (Q137-Q142):**

### **NEW QUESTION # 137**

A nonprofit organization wants to give specific users the ability to upload gift acknowledgement templates in Nonprofit Cloud for Fundraising. What should be assigned to the users?

- A. The FundraisingAccess and DocGen User permission sets
- B. The OmniStudio User permission set
- C. The FundraisingAccess and DocGen Designer permission sets

**Answer: C**

Explanation:

In the modern Nonprofit Cloud (NPC) for Fundraising, the generation of gift acknowledgments and tax receipts is powered by Document Generation (DocGen) technology. This system allows organizations to move beyond simple mail merges into a robust, server-side document creation process.

To manage these templates effectively, a consultant must understand the distinction between "Designers" and "Users" within the permission set framework.

\* FundraisingAccess: This is the foundational permission set group (or permission set) that grants the user rights to interact with fundraising-specific objects like Gift Transactions, Gift Commitments, and Gift Designations. Without this, the user cannot access the data that needs to be merged into the templates.

\* DocGen Designer: This specific permission set is required for administrative or "super user" tasks. A user with the DocGen Designer permission set is granted the ability to upload, manage, and customize the .docx or .pptx files that serve as the templates. This includes mapping Salesforce fields to the document tokens and organizing the library of available templates for the rest of the team.

\* DocGen User (Contrast): In contrast, the DocGen User permission set is intended for staff who only need to trigger the creation of a document (e.g., clicking a "Generate Receipt" button). They cannot upload new templates or change the underlying logic of existing ones.

Step-by-Step Assignment Logic:

- \* Navigate to Setup > Users > Permission Sets.
- \* Locate the DocGen Designer permission set and assign it to the staff responsible for template creation.
- \* Ensure the user also has the SalesforceCRM Content User license enabled on their User record, as templates are stored and managed within Salesforce Files/Content.
- \* Verify that the FundraisingAccess group is assigned to provide the necessary object-level permissions.

By correctly separating these roles, a consultant ensures that only authorized personnel can modify the official legal and branding language used in the organization's donor communications.

### **NEW QUESTION # 138**

A nonprofit organization processed a gift batch, but the Gift Batch Status is updated to Partially Processed; Failed. Which step should be performed to successfully process the batch?

- A. Resolve the Gift Entry errors and process the batch again.
- B. Manually set the Gift Batch Status to Processed.
- C. Process a dry run of the batch.

**Answer: A**

### NEW QUESTION # 139

A nonprofit client wants to connect directly to other nonprofits using Salesforce who have a very similar business use case. Which resource is designed for this purpose?

- A. Trailblazer Community User Group
- B. Salesforce.org website
- C. AppExchange
- **D. Power of Us Hub Solution Exchange**

**Answer: D**

Explanation:

The Power of Us Hub Solution Exchange is designed for nonprofit organizations using Salesforce to connect directly with other nonprofits that have similar business use cases. Here's how to utilize this resource:

Access the Power of Us Hub:

Navigate to the Power of Us Hub (<https://powerofus.force.com>).

Log in using your Salesforce credentials.

Explore the Solution Exchange:

Go to the "Solution Exchange" section within the Hub.

Browse through various solutions, discussions, and best practices shared by other nonprofits.

Connect with Similar Nonprofits:

Use the search and filter features to find nonprofits with similar use cases.

Participate in discussions, ask questions, and share your experiences.

Utilize Shared Resources:

Access shared resources, templates, and configurations that have been successful for other organizations.

Apply relevant solutions and best practices to your own organization's use case.

The Power of Us Hub Solution Exchange is a valuable resource for collaboration and learning from the experiences of other nonprofits using Salesforce.
