They work collectively and put all their efforts, experience, and knowledge and ensure the top standard of AD0-E911 exam questions all the time.

Adobe Workfront Project Manager Certified Professional Sample Questions (Q27-Q32):

NEW QUESTION # 27

The last 5 tasks in a project need to happen within 10 days of the end of the project.

Which Task Constraint should the project manager use to configure this timeline without setting specific dates?

- A. As Late As Possible
- B. Start No Later Than
- C. Must Start On

Answer: A

Explanation:

In Workfront, the "As Late As Possible" task constraint ensures that tasks are scheduled as close to the project's end date as possible. This is useful when specific start dates are not necessary, but tasks need to happen near the end of the project timeline. This constraint allows for flexibility while still ensuring that the tasks are completed within the required time frame.

NEW QUESTION # 28

Which wildcard should be used on a project report when filtering for projects that have a planned completion date greater than 1 month from the current date?

- A. TODAY + 1bm
- B. TODAY + 1m
- C. CURRENTDATE + 4w

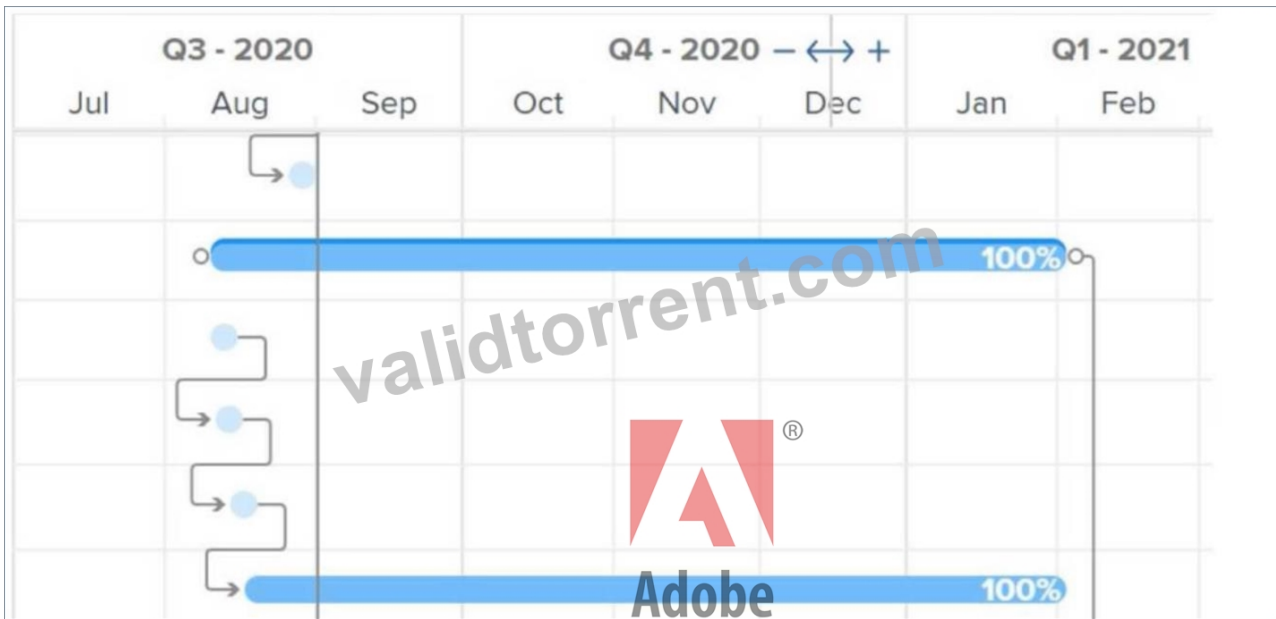

Answer: C

Explanation:

In Adobe Workfront, the correct wildcard to filter for a project completion date greater than 1 month from the current date is CURRENTDATE + 4w. This wildcard ensures that the filter captures projects scheduled to be completed more than four weeks (or one month) from the current day. Workfront uses such wildcards for dynamic date filtering in reports.

NEW QUESTION # 29

Refer to the exhibit.

What do the connector lines between tasks in a Gantt chart represent?

- A. Multiple assignments
- B. Critical path
- C. Predecessor relationship

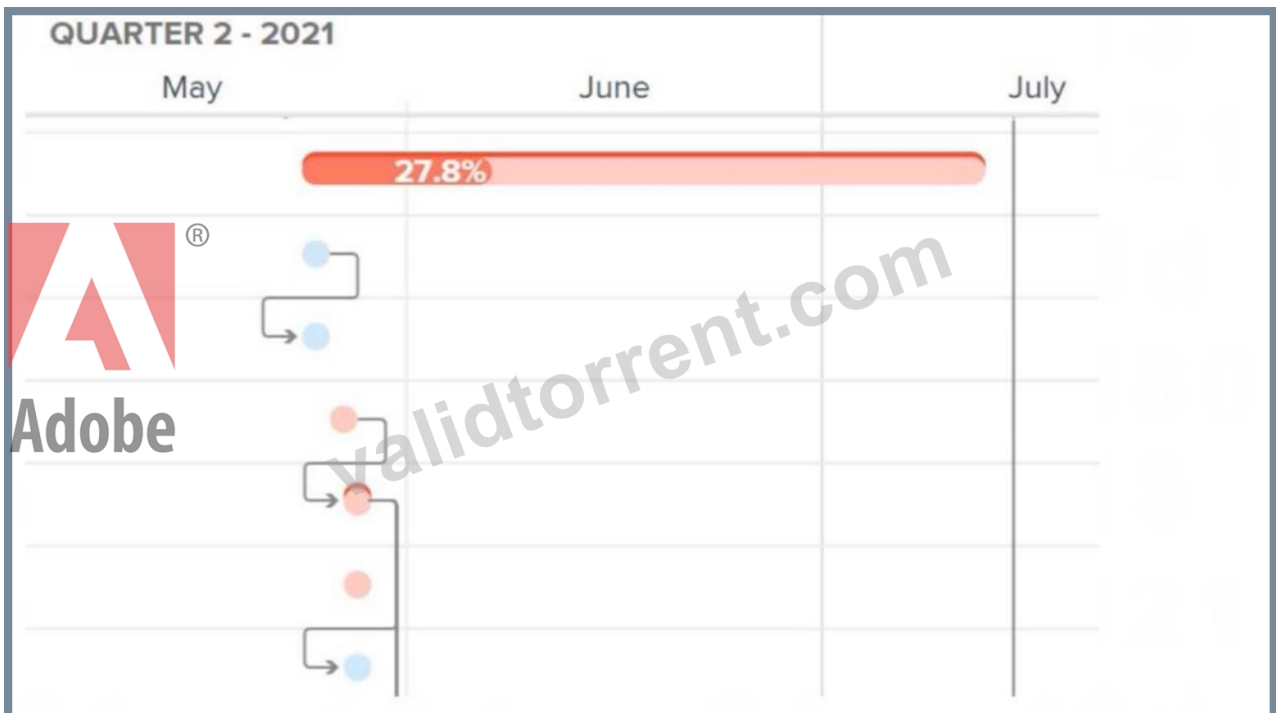

Answer: C

Explanation:

In Workfront, the connector lines in a Gantt chart represent the predecessor relationships between tasks. These lines show how one task depends on another, indicating the order in which tasks need to be completed. This helps project managers visualize task dependencies and how changes in one task can affect others in the timeline.

NEW QUESTION # 30

Refer to the exhibit.

Identified in red on a Gantt chart, what are the tasks called whose changes may affect the overall timeline of a project?

- A. Baselines

- B. Milestones
- C. Critical Path

Answer: C

Explanation:

In Adobe Workfront, and in general project management, the Critical Path refers to the sequence of tasks that directly impacts the project's overall timeline. Tasks on the critical path are marked in red on a Gantt chart to indicate that any delay or change to these tasks will affect the entire project's completion date. These tasks are essential for maintaining the project schedule and ensuring timely delivery. Baselines are used for comparison against the current progress, and Milestones mark significant checkpoints but do not necessarily affect the project timeline if they are delayed.

Top of Form

Bottom of Form

NEW QUESTION # 31

Task 1 on Project 1 can only be started once the final milestone on Project 2 is completed.

How can the project manager configure this relationship?

- A. Add a cross-project predecessor on the final milestone in Project 2.
- B. Add a cross-project predecessor on Task 1 in Project 1.
- C. Add a cross-project predecessor on the final milestone of Project 1.

Answer: A

Explanation:

In Workfront, cross-project predecessors allow dependencies between tasks across different projects. To ensure that Task 1 in Project 1 starts only after the final milestone of Project 2, the project manager must configure a cross-project predecessor linking the final milestone in Project 2 to Task 1 in Project 1. This establishes a dependency and aligns the timelines of the two projects.

NEW QUESTION # 32

.....

Maybe you often come up with great new ideas from daydream, but you can not do anything. Do you have some trouble passing Adobe AD0-E911 Exam? Turn on your computer, click ValidTorrent. Then, you will find the dumps torrent you need. After you purchase our products, we provide free updates for a year. 100% guarantee to get the certification.
