“There is no royal road to learning.” Learning in the eyes of most people is a difficult thing. People are often not motivated and but have a fear of learning. However, the arrival of H19-301_V3.0 exam materials will make you no longer afraid of learning. Our professional experts have simplified the content of our H19-301_V3.0 Study Guide and it is easy to be understood by all of our customers all over the world. Just try our H19-301_V3.0 learning braindumps, and you will be satisfied.

Huawei H19-301_V3.0 (HCSA-Presales-IP Network Certification V3.0) Exam is a certification test that focuses on the knowledge and skills required for pre-sales engineers to support Huawei IP network solutions. The H19-301_V3.0 exam is designed to assess the candidate's understanding of IP network principles, network security, network technologies, and network applications. HCSA-Presales-IP Network Certification V3.0 certification is essential for those who are looking to become pre-sales engineers for Huawei IP network solutions.

H19-301_V3.0 Test Torrent & Test H19-301_V3.0 Dump

You can write down your doubts or any other question of our HCSA-Presales-IP Network Certification V3.0 test questions. We warmly welcome all your questions. Our online workers are responsible for solving all your problems with twenty four hours service. You still can enjoy our considerate service after you have purchased our H19-301_V3.0 test guide. If you don't know how to install the study materials, our professional experts can offer you remote installation guidance. Also, we will offer you help in the process of

using our H19-301_V3.0 Exam Questions. Also, if you have better suggestions to utilize our study materials, we will be glad to take it seriously. All of our assistance is free of charge. We are happy that our small assistance can change you a lot. You don't need to feel burdened. Remember to contact us!

The H19-301_V3.0 exam covers a range of topics related to IP network technologies, including network architecture and design, network planning and implementation, network troubleshooting and optimization, and network security. Candidates who Pass H19-301_V3.0 Exam will have a solid understanding of IP network technologies and be able to design, implement, and troubleshoot IP networks using Huawei products.

Huawei HCSA-Presales-IP Network Certification V3.0 Sample Questions (Q199-Q204):

NEW QUESTION # 199

Which is the max capacity (singal direction) of NE08E series could support?

- A. 1T
- B. 60G
- C. 210G
- **D. 120G**
- E. 480G

Answer: D

NEW QUESTION # 200

Which AP supports the feature of smart antenna? (Multiple Choice)

- **A. AP7050DE**
- B. AP5030DN
- **C. AP7030DE**
- D. AP2030DN

Answer: A,C

NEW QUESTION # 201

Which of the following switches does not support two power modules?

- A. S5736-S24T4XC
- B. S5731-S24P4X
- C. S5732-H
- **D. S5735-L**

Answer: D

Explanation:

Power Module Support in Huawei Switches:

Many Huawei switches are designed with dual power module slots to ensure redundancy and reliability.

However, some lower-end models may not support this feature.

Analysis of Each Switch:

S5736-S24T4XC: This switch supports dual power modules for redundancy.

S5732-H: This switch also supports dual power modules.

S5731-S24P4X: This switch supports dual power modules.

S5735-L: This switch is a lower-end model and does not support dual power modules, making it less suitable for environments requiring high reliability.

Conclusion: The S5735-L series switch does not support two power modules.

NEW QUESTION # 202

Huawei AP8182 is a product that supports dual 5G.

- A. True
- B. False

Answer: A

NEW QUESTION # 203

Which of the following statements is TRUE about Huawei's IoT Wi-Fi 6 APs?

- A. Radios used by IoT and Wi-Fi do not transmit on the same channel, so there is no need to consider interference between IoT and Wi-Fi signals.
- B. IoT expansion can be implemented through PCIe cards or USB ports.
- C. The outdoor Wi-Fi 6 AP AirEngine 5761R-11 supports IoT expansion.
- D. Currently, IoT expansion is only available for RFID and Bluetooth protocols.

Answer: B,C

Explanation:

Huawei's IoT-enabled Wi-Fi 6 APs integrate wireless networking with IoT capabilities, enabling converged solutions for various industries. Let us evaluate each statement:

Currently, IoT expansion is only available for RFID and Bluetooth protocols : This is false . While RFID and Bluetooth are common IoT protocols, Huawei's IoT-enabled APs support additional protocols like Zigbee and LoRa, depending on the model.

IoT expansion can be implemented through PCIe cards or USB ports : This is true . Huawei APs support IoT expansion modules that can be connected via PCIe cards or USB ports, enabling flexible integration of IoT functionalities.

Radios used by IoT and Wi-Fi do not transmit on the same channel, so there is no need to consider interference between IoT and Wi-Fi signals : This is false . Depending on the frequency bands used, IoT and Wi-Fi signals may interfere with each other. Proper planning and configuration are required to minimize interference.

The outdoor Wi-Fi 6 AP AirEngine 5761R-11 supports IoT expansion : This is true . The AirEngine 5761R-11 is an outdoor AP that supports IoT expansion, making it suitable for scenarios like smart cities and industrial IoT.

Thus, the correct answers are B and D .
